Byrne, 2006-08-30 Daily life during the Black Death was anything but normal When plague hit a community every aspect of life was turned upside down from relations within families to its social political and economic structure Theaters emptied graveyards filled and the streets were ruled by the terrible corpse bearers whose wagons of death rumbled day and night Daily life during the Black Death was anything but normal During the three and a half centuries that constituted the Second Pandemic of Bubonic Plague from 1348 to 1722 Europeans were regularly assaulted by epidemics that mowed them down like a reaper's scythe When plague hit a community every aspect of life was turned upside down from relations within families to its social political and economic structure Theaters emptied graveyards filled and the streets were ruled by terrible corpse bearers whose wagons of death rumbled night and day Plague time elicited the most heroic and inhuman behavior imaginable And yet Western Civilization survived to undergo the Renaissance Reformation Scientific Revolution and early Enlightenment In *Daily Life during the Black Death* Joseph Byrne opens with an outline of the course of the Second Pandemic the causes and nature of bubonic plague and the recent revisionist view of what the Black Death really was He presents the phenomenon of plague thematically by focusing on the places people lived and worked and confronted their horrors the home the church and cemetery the village the pest houses the streets and roads He leads readers to the medical school classroom where the false theories of plague were taught through the careers of doctors who futilely treated victims to the council chambers of city hall where civic leaders agonized over ways to prevent and then treat the pestilence He discusses the medicines prayers literature special clothing art burial practices and crime that plague spawned Byrne draws vivid examples from across both Europe and the period and presents the words of witnesses and victims themselves wherever possible He ends with a close discussion of the plague at Marseille 1720-22 the last major plague in northern Europe and the research breakthroughs at the end of the nineteenth century that finally defeated bubonic plague

The Vienna I Knew: Memories of a European Childhood Joseph Wechsberg, 2019-08-17 Wechsberg's memoir of pre World War II *Mittel Europa* recounts with charm and irony life in the dying Habsburg Empire family stories of wealth gained and lost the subtleties of coffeehouse culture and the dynamics of Viennese society where one is at the same time an actor his own audience and his own critic His early childhood reads like an idyll so that while other writers may recall the last years of this ancient regime as constricting Wechsberg remembers them as kindly and easygoing if sometimes philistine and stuffy However his father was killed in action on the Russian front very soon after the start of the First World War and his mother having invested her inheritance in government bonds was impoverished when the government lost the war and was dissolved Yet this is in no way a mournful book young Wechsberg found the pre war years entertaining and his inquiring mind makes the post war years equally so His account of a visit in the twenties to rich relatives in Vienna describing his provincial bewilderment at their cosmopolitan luxury is very funny it is also excellent social history and everybody in the story for

example the chauffeur whom Wechsberg found the most comprehensible member of the ménage comes alive for us Though Wechsberg can remember himself as a country cousin his memoirs are urbanity itself The New Yorker July 30 1979

Heroes and Saints Phyllis Granoff, Koichi Shinohara, 2009-05-05 The present volume makes a unique contribution to the study of dying in ancient cultures by focusing on what happens in the critical moments before death Employing a wide range of literary sources the essays in this volume focus exclusively on the moment of death and practices associated with the transition from this world to the next Five of the essays deal with Asian religions primarily Buddhism in India Tibet China and Japan The other five essays deal with the moment of death in the West old Norse Icelandic Old English and the Judeo Christian tradition The authors explore the many ways in which the good death was envisioned Remarkable parallels emerge between the good death in religious texts and in heroic sagas Despite the diversity of cultures time periods and religious traditions represented in these essays this volume vividly illustrates the fundamental human need to see in the inevitable moment of death a possibility of choice and a promise of hope **The Living Church** ,1904
