Randolph Macon College in the Early Years John Caknipe, Jr.,2015-03-17 This book summarizes the history of the first Randolph Macon College and how it intertwined with the Boydton Virginia community While in Boydton almost 300 students took a degree This book tracks the lives of these graduates many from before college after graduation throughout their participation in the Confederate government or military after the War and for many until death In pursuing the research the author came across an additional 100 men who had attended RMC and their stories are included as well along with the chaplains for the college chapel the tutors for the college students and all adjunct and full time faculty for the 38 year period The graduates include 52 college presidents and numerous members of Congress Many leaders of society education and politics began their careers at RMC *The Challenge of Africa* K. A. Busia,2023-05-08 In the mid twentieth century the

challenges raised by Africa s emergence into the modern world touched on every aspect of national and international life One of the most significant was raised by Africa s quest for her own culture encompassing not only the heritage of her distant and mysterious past but also the most recent developments in her history In *The Challenge of Africa* originally published in 1962 reissued here with a new introduction the foremost African sociologist of the time offers a constructive humanitarian and genuinely democratic approach to the problems Africa faced in this search Professor Busia discusses the political educational and economic challenges inherent in the very nature of modern African nationalism But he argues the basic challenge is moral to maintain and adapt the social and spiritual heritage that Africa has preserved throughout her history It is in the light of this challenge that he analyses the moral problems posed by Africa s entry into the modern international community the demand for the resolution of the race relations problem the insistence that the injustice of colonial systems be erased the challenge to provide right and just governments for the peoples of Africa the claim to cultural freedom In the international context African nationalism not only represents moral indignation against injustice and wrong it is also a claim for equality All nations must share in building a peaceful world community and this requires the cooperation of all races Lastly Professor Busia contends if East and West joined together to serve the needs of Africa they might in cooperation rediscover their own brotherhood and so save humanity **Hearings** United States. The Iron Age in Lowland Britain D.W. Harding,2014-11-13 This book was written at a time when the older conventional diffusionist view of prehistory largely associated with the work of V Gordon Childe was under rigorous scrutiny from British prehistorians who still nevertheless regarded the Arras culture of eastern Yorkshire and the Belgic cemeteries of south eastern Britain as the product of immigrants from continental Europe Sympathetic to the idea of population mobility as one mechanism for cultural innovation as widely recognized historically it nevertheless attempted a critical re appraisal of the southern British Iron Age in its continental context Subsequent fashion in later prehistoric studies has favoured economic social and cognitive approaches and the cultural historical framework has largely been superseded Routine use of radiocarbon dating and other science based applications and new field data resulting from developer led archaeology have revolutionized understanding of the British Iron Age and once again raised issues of its relationship to continental Europe
