Graves Forensic Efforts At Srebrenica And Vukovar:

The International Protection of Internally Displaced Persons Catherine Phuong, 2005-01-27 Despite the fact that there are up to 25 million internally displaced persons around the world their plight is still little known Like refugees internally displaced persons have been forced to leave their homes because of war and human rights abuses but they have not left their country This has major consequences in terms of the protection available to them This 2005 book aims to offer a clear and easily accessible overview of this important humanitarian and human rights challenge In contrast with other books on the topic it provides an objective evaluation of UN efforts to protect the internally displaced It will be of interest to all those involved with the internally displaced as well as anyone seeking to gain an overall understanding of this complex issue

After Memory Matthias Schwartz, Nina Weller, Heike Winkel, 2021-06-08 Even seventy five years after the end of World War II the commemorative cultures surrounding the War and the Holocaust in Central Eastern and South Eastern Europe are anything but fixed The fierce debates on how to deal with the past among the newly constituted nation states in these regions have already received much attention by scholars in cultural and memory studies The present volume posits that literature as a medium can help us understand the shifting attitudes towards World War II and the Holocaust in post Communist Europe in recent years These shifts point to new commemorative cultures shaping up after memory Contemporary literary representations of World War II and the Holocaust in Eastern Europe do not merely extend or replace older practices of remembrance and testimony but reflect on these now defunct or superseded narratives New narratives of remembrance are conditioned by a fundamentally new social and political context one that emerged from the devaluation of socialist commemorative rituals and as a response to the loss of private and family memory narratives The volume offers insights into the diverse literatures of Eastern Europe and their ways of depicting the area s contested heritage **The Routledge**

Handbook of Memory and Place Sarah De Nardi, Hilary Orange, Steven High, Eerika Koskinen-Koivisto, 2019-08-20 This Handbook explores the latest cross disciplinary research on the inter relationship between memory studies place and identity In the works of dynamic memory there is room for multiple stories versions of the past and place understandings and often resistance to mainstream narratives Places may live on long after their physical destruction This collection provides insights into the significant and diverse role memory plays in our understanding of the world around us in a variety of spaces and temporalities and through a variety of disciplinary and professional lenses Many of the chapters in this Handbook explore place making its significance in everyday lives and its loss Processes of displacement where people s place attachments are violently torn asunder are also considered Ranging from oral history to forensic anthropology from folklore studies to cultural geographies and beyond the chapters in this Handbook reveal multiple and often unexpected facets of the fascinating relationship between place and memory from the individual to the collective This is a multi and intra disciplinary collection of the latest most influential approaches to the interwoven and dynamic issues of place and memory It will be of great use to

Forensic Archaeology Kimberlee Sue Moran, Claire L. Gold, 2019-01-24 This book presents the multidisciplinary field of forensic archaeology as complementary but distinct from forensic anthropology By looking beyond basic excavation methods and skeletal analyses this book presents the theoretical foundations of forensic archaeology novel contexts and applications and demonstrative case studies from practitioners active in the field Many of the chapters present new approaches and methods not previously covered in other forensic archaeology books some of which may be of direct use to those conducting criminal investigations **Forensic Archaeology** W. J. Mike Groen, Nicholas Márquez-Grant, Rob Janaway, 2015-04-27

Forensic archaeology is mostly defined as the use of archaeological methods and principles within a legal context However such a definition only covers one aspect of forensic archaeology and misses the full potential this discipline has to offer This volume is unique in that it contains 57 chapters from experienced forensic archaeological practitioners working in different countries intergovernmental organisations or NGO s It shows that the practice of forensic archaeology varies worldwide as a result of diverse historical educational legal and judicial backgrounds The chapters in this volume will be an invaluable reference to forensic archaeologists forensic anthropologists humanitarian and human rights workers forensic scientists police officers professionals working in criminal justice systems and all other individuals who are interested in the potential forensic archaeology has to offer at scenes of crime or places of incident This volume promotes the development of forensic archaeology worldwide In addition it proposes an interpretative framework that is grounded in archaeological theory and methodology integrating affiliated behavioural and forensic sciences **Commingled Human Remains** Bradley

Adams, John Byrd, 2014-06-04 Commingled human remains are encountered in situations ranging from prehistoric ossuaries to recent mass fatality incidents Commingled Human Remains Methods in Recovery Analysis and Identification brings together tools from diverse sources within the forensic science community to offer a set of comprehensive approaches to resolving issues associated with commingled remains This edition focuses on forensic situations although some examples from prehistoric contexts are also addressed Commingling of bones and other body parts is a major obstacle to individual identification that must be addressed before other forensic determinations or research can proceed Regardless of the cause for the commingling transportation disaster terrorist attack natural disaster genocide etc it is critical that the proper experts are involved and that the proper techniques are employed to achieve the greatest success in making identifications Resolution of commingling nearly always requires consideration of multiple lines of evidence that cross the disciplinary lines of modern forensic science The use of archaeology DNA and forensic anthropology are several areas that are critical in this

process and these are core topics presented in this book Even a relatively simple mass fatality event can become very complicated once body fragmentation and commingling occur Expectations associated with all phases of the process from recovery of remains to their final identification and release to next of kin must be managed appropriately A powerful resource for those working in the forensic sciences who need to plan for and or address the complex challenges associated with commingled and fragmentary human remains Written by an international group of the foremost forensic scientists presenting their research and candid experiences of dealing with commingled human remains offering recommendations and providing lessons learned which can be invaluable to others who find themselves facing similar challenges Contains chapters on remains recovery laboratory analysis case studies and broader topics such as mass fatality management and ethical considerations

Defeating Impunity Ornella Rovetta, Pieter Lagrou, 2021-11-01 Over the course of the long and violent twentieth century only a minority of international crime perpetrators ever stood trial and a central challenge of this era was the effort to ensure that not all these crimes remained unpunished This required not only establishing a legal record but also courage determination and inventiveness in realizing justice *Defeating Impunity* moves from the little known trials of the 1920s to the Yugoslavia tribunal in the 2000s from Belgium in 1914 to Ukraine in 1943 and to Stuttgart and D sseldorf in 1975 It illustrates the extent to which the language of law drew an international horizon of justice

Necropolitics Francisco Ferrándiz, Antonius C. G. M. Robben, 2015-06-19 The unmarked mass graves left by war and acts of terror are lasting traces of violence in communities traumatized by fear conflict and unfinished mourning Like silent testimonies to the wounds of history these graves continue to inflict harm on communities and families that wish to bury or memorialize their lost kin Changing political circumstances can reveal the location of mass graves or facilitate their exhumation but the challenge of identifying and recovering the dead is only the beginning of a complex process that brings the rights and wishes of a bereaved society onto a transnational stage *Necropolitics Mass Graves and Exhumations in the Age of Human Rights* examines the political and social implications of this sensitive undertaking in specific local and national contexts International forensic methods local level claims national political developments and transnational human rights discourse converge in detailed case studies from the United States Argentina Chile Peru Spain Bosnia Herzegovina Greece Rwanda Cambodia and Korea Contributors analyze the role of exhumations in transitional justice from the steps of interviewing eyewitnesses and survivors to the painstaking forensic recovery and comparison of DNA profiles This innovative volume demonstrates that contemporary exhumations are as much a source of personal historical and criminal evidence as instruments of redress for victims through legal accountability and memory politics Contributors Zo Crossland Francisco Ferrándiz Luis Fondebrider Iosif Kovras Heonik Kwon Isaias Rojas Perez Antonius C G M Robben Elena Lesley Katerina Stefatos Francesc Torres Sarah Wagner Richard Ashby Wilson

Methodological and Technological Advances in Death Investigations Ann H Ross, Jason H Byrd, 2023-12-08 *Methodological and Technological Advances in Death Investigations*

Application and Case Studies focuses on advancements in both methods and technology in death investigations Specifically in the areas of latent fingerprints facial recognition wildlife forensics using aerial vehicles and 3D ID The combination of national and international authors and a discussion of the state of forensic science over a decade after the National Academies 2009 Report Strengthening Forensic Science in the United States A Path Forward further highlights the boundaries limitations and context in which these newer technologies and applications act synergistically to enhance forensic science Synthesizes new and emerging technologies to put them in perspective for researchers and practitioners such as facial recognition using aerial vehicles and 3D ID Includes case studies throughout that explain how certain advanced technologies impact investigations Fills a gap in literature with more cross disciplinary topics that pertain to death investigations

The Trauma Question Roger Luckhurst, 2013-06-17 In this book Roger Luckhurst both introduces and advances the fields of cultural memory and trauma studies tracing the ways in which ideas of trauma have become a major element in contemporary Western conceptions of the self The Trauma Question outlines the origins of the concept of trauma across psychiatric legal and cultural political sources from the 1860s to the coining of Post Traumatic Stress Disorder in 1980 It further explores the nature and extent of trauma culture from 1980 to the present drawing upon a range of cultural practices from literature memoirs and confessional journalism through to photography and film The study covers a diverse range of cultural works including writers such as Toni Morrison Stephen King and W G Sebald artists Tracey Emin Christian Boltanski and Tracey Moffatt and film makers David Lynch and Atom Egoyan The Trauma Question offers a significant and fascinating step forward for those seeking a greater understanding of the controversial and ever expanding field of trauma research

Forensic Memory Johanne Helbo Bøndergaard, 2017-10-14 This book describes and analyses a particular literary mode that challenges the aesthetics of testimony by approaching the past through detection analysis and archaeological digging How does forensic literature narrate the past in terms of plot language narration and use of visual media This volume examines how forensic literature provides an important corrective to the forensic paradigm and a means of exploring the relationship between visual and material evidence and various forms of testimony This literary engagement with the past is investigated in order to challenge a forensic paradigm that aims to eliminate the problems related to human testimony through scientific objectivity resulting in a fresh and original text in which Bøndergaard argues literature s potential to explore the mechanisms of representation interpretation and narration

Digging for the Disappeared Adam Rosenblatt, 2015-04-01 The mass graves from our long human history of genocide massacres and violent conflict form an underground map of atrocity that stretches across the planet s surface In the past few decades due to rapidly developing technologies and a powerful global human rights movement the scientific study of those graves has become a standard facet of post conflict international assistance Digging for the Disappeared provides readers with a window into this growing but little understood form of human rights work including the dangers and sometimes unexpected complications that arise as

evidence is gathered and the dead are named Adam Rosenblatt examines the ethical political and historical foundations of the rapidly growing field of forensic investigation from the graves of the disappeared in Latin America to genocides in Rwanda and the former Yugoslavia to post Saddam Hussein Iraq In the process he illustrates how forensic teams strive to balance the needs of war crimes tribunals transitional governments and the families of the missing in post conflict nations Digging for the Disappeared draws on interviews with key players in the field to present a new way to analyze and value the work forensic experts do at mass graves shifting the discussion from an exclusive focus on the rights of the living to a rigorous analysis of the care of the dead Rosenblatt tackles these heady hard topics in order to extend human rights scholarship into the realm of the dead and the limited but powerful forms of repair available for victims of atrocity

Representing Genocide Rebecca Jinks, 2016-06-02 This book explores the diverse ways in which Holocaust representations have influenced and structured how other genocides are understood and represented in the West Rebecca Jinks focuses in particular on the canonical 20th century cases of genocide Armenia Cambodia Bosnia and Rwanda Using literature film photography and memorialisation she demonstrates that we can only understand the Holocaust's status as a benchmark for other genocides if we look at the deeper structural resonances which subtly shape many representations of genocide Representing Genocide pursues five thematic areas in turn how genocides are recognised as such by western publics the representation of the origins and perpetrators of genocide how western witnesses represent genocide representations of the aftermath of genocide and western responses to genocide Throughout the book distinguishes between mainstream and other more nuanced and engaged representations of genocide It shows how these mainstream representations the majority largely replicate the representational framework of the Holocaust including the way in which mainstream Holocaust representations resist recognising the rationality instrumentality and normality of genocide preferring instead to present it as an aberrant exceptional event in human society By contrast the more engaged representations often but not always originating from those who experienced genocide tend to revolve around precisely genocide's ordinariness and the structures and situations common to human society which contribute to and become involved in the violence
