Monumenta: Or, Designs for Tombs, Wall Monuments, Head-stones, Grave Crosses, &c Monumenta, 1869 **A Sourcebook for Genealogical Research** Foster Stockwell, 2015-09-18 Genealogists can sometimes require obscure resources when in search of information about ancestors Tracking down records to complete a family tree can become laborious when the researcher doesn't know where to begin looking Many of the best resources are maintained regionally or even locally and aren't widely known This reference work serves as a guide to both beginning and experienced genealogy researchers The sourcebook is easily accessible and usable featuring approximately 270 entries on all aspects of genealogical research and family history compilation The entries are listed alphabetically and cross referenced so any researcher can quickly find the information he or she is seeking Each state and each of the provinces of Canada has its own entry other countries are listed under appropriate headings The author also provides more than 700 addresses from all over the world so that the genealogist or general researcher may contact any one of these organizations to obtain specific information about particular births deaths marriages or other life events in order to complete a family tree **Monumenta. Designs for Tombs, Wall Monuments, Headstones, Gravecrosses, etc**, 1867 **Historic Gravestone Art of Charleston, South Carolina, 1695-1802** David R. Mould, Missy Loewe, 2015-02-18 Here lies Buried the Body of MARTHA PERONNEAU Departed This Life December Ye 14th 1746 Aged 13 Years Such an inscription was typical of 18th century grave markers in Charleston South Carolina Many epitaphs went on to reveal much more about the deceased personality religious beliefs career accomplishments and social position Attention to social matters was a natural part of life in Charleston where descendants of the city's 17th century British founders sought to recreate the class conscious culture of aristocratic England The merging of this culture with influences from French Huguenots German Lutherans Scottish Presbyterians and Spanish Jews led to funeral practices unique in the American colonies Focusing on pieces created between 1695 and 1802 this volume offers a detailed examination of the tombstones and grave markers from 18th century Charleston It discusses not only the general trends and the symbolism of the period's gravestone art such as skulls portraits ascending souls and stylized vegetation but also examines specific instances of these popular motifs Tombstones from Charleston's oldest and most significant churches including the Circular Congregational Church St Philip's Anglican Church the French Huguenot Church and the First Scots Presbyterian Church are explored in detail The work looks at how Charleston gravestones differed from funerary art elsewhere in the American colonies and reveals them to be some of the earliest examples of American sculpture A guide to colonial gravestone symbols and a glossary of relevant Latin terms are also included *Gravestone Designs; Rubbings and Photographs from Early New York & New Jersey* Tamara E. Wasserman, 1972 The use of engraved sculptural or painted images was a pagan practice hesitantly adopted by the earliest Christians who had to transform the old mythological symbols in order to express suitably the meanings of their new religion *New Jersey Cemeteries and*

Tombstones Richard F. Veit, Mark Nonestied, 2008 New Jersey Cemeteries and Tombstones presents a culturally diverse account of New Jersey's historic burial places from High Point to Cape May and from the banks of the Delaware to the ocean washed Shore to explain what cemeteries tell us about people and the communities in which they lived **Memento Mori: Classifying Nineteenth Century Ontario Gravestones** Laura Suchan, 2012-08-22 Ontario gravestone iconography exhibits a remarkable progression of artistic cultural and religious expression throughout the nineteenth century Unfortunately the study of gravestone motifs has been largely ignored by those transcribing data in Ontario's early cemeteries It is imperative this information along with motifs be recorded before it is lost to us Gravestone iconography can be organized into simple stylistic categories which would allow for a standardized approach when recording gravestone information Much of Ontario's gravestone research is done by local genealogical and historical societies working in isolation Sharing gravestone data using a common classification system would aid in developing perspectives into topics such as carving traditions economic status and gravestone choice across local and regional lines This information would shed light on the entire gravestone industry and provide researchers with the background necessary to study motifs more closely **Daisy Wheel, Hexfoil, Hexafoil, Rosette** Robyn S. Lacy, 2024-09-01 The use of protective symbols also known as apotropaic marks are often part of folk magic traditions appearing in homes churches on personal items and even graves across Europe Australia and North America The most common and well known of these marks is the hexfoil otherwise known as the daisy wheel witch hex or rosette Hexfoils have a history of use for personal protection and were carved both intentionally or graffitied into church pews and walls bed frames doors and gravestones This research sheds light on the use of this historic symbol to protect the bodies and souls of the deceased across several thousand years and multiple countries **Monumental memorials, designs for headstones and mural monuments** John Winfield Hallam, 1856 **Strung Out on Archaeology** Laurie A Wilkie, 2016-06-16 A brief lively introductory archaeology textbook that teaches the basic principles of the field through an excavation and analysis of New Orleans Mardi Gras parades and the beads thrown there **Dutch Type** Jan Middendorp, 2004 Overzicht van vooral de 20e eeuwse Nederlandse typografie *Mortuary Monuments and Burial Grounds of the Historic Period* Harold Mytum, 2012-12-06 Burial grounds strike an immediate chord with all who visit them They are landscapes full of pathos and cultural associations which many find attractive though a minority feel are too morbid to deserve detailed attention This book is designed to offer a framework for studying historic burial ground monuments and contains a certain amount of information regarding below ground archaeology as some projects will involve the study of both Moreover from a research perspective above and below ground archaeology together can throw considerable light on the process of dying body disposal and commemoration that formed a continuum for those involved However the more easily accessible graveyard memorials can be used to study many aspects of past culture beyond that directly associated with death and they are the focus of the book Most people who become interested in historic graveyard memorials come to the subject

via the material itself Only rarely does a research question get posed and graveyard data seem like an appropriate arena for investigation This has the advantage that many researchers have some ideas about the data available but the disadvantage that they may not have clear questions to ask of it nor how to set their discoveries in a wider intellectual context

The Graveyard in Literature Aoileann Ní Éigeartaigh, 2021-11-12 This volume focuses on literary and other cultural texts that use the graveyard as a liminal space within which received narratives and social values can be challenged and new and empowering perspectives on the present articulated It argues that such texts do so primarily by immersing the reader in a liminal space between life and death where traditional certainties such as time and space are suspended and new models of human interaction can thus be formulated Essays in this volume examine the use of liminality as a vehicle for social critique paying particular attention to the ways in which liminal spaces facilitate the construction of alternative perspectives
