The Great American Writing Block Thomas C. Wheeler, 1980 The New Literacy John Willinsky, 2017-11-28 Originally published in 1990 This book examines the innovative programs that changed the way reading and writing was taught during the previous ten years Both teacher and critic of the New Literacy programs the author gives a perspective that allows educators parents and other readers to assess the promise of these programs Examining the work of educators from the USA UK and Canada he compares programs from first grade to college that foster a new level of literate engagement and voice in students while creating a less authoritative place in which to learn The book opens up wider debate about literacy in a society concerned with shifting authority from text and teacher to student *Culture Wars* Ira Shor, 1992-09 This lively and controversial work critiques the conservative efforts in the 1970s and 1980s to undo the educational reforms of the 1960s to reestablish control over the curriculum and to change the nature of the debate and the goals of education An outstanding work of educational theory and history John Coatsworth University of Chicago Writing from the Margins Carolyn Ericksen Hill, 1990 Becoming a Nurse Educator: Dialogue for an Engaging Career CeCelia R. Zorn, Zorn, 2010-11-15 Becoming a Nurse Educator Dialogue for an Engaging Career is a practical guide developed to help new and emerging nurse educators in their career development Written in a straight forward manner it presents teaching experiences mixed with theoretical discussion and specific teaching strategies to assist new nursing educators in finding meaning in their career This essential guide contains popular and professional literature nurse educator experiences stories quotes and discussion questions Becoming a Nurse Educator Dialogue for an Engaging Career is a must have resource for any nursing educator and nursing education students **Resources in Education** , 1999-04 The Journal of Education , 1884 *The Cumulative Book Index* , 1980 A world list of books in the English language **Books in Print** , 1993-09 V 1 Authors A D v 2 Authors E K v 3 Authors L R v 4 S Z v 5 Titles A D v 6 Titles E K v 7 Titles L Q v 8 Titles R Z v 9 Out of print out of stock indefinitely v 10 Publishers *The Psychological Foundations of Education* Olga K. Computers and the Teaching of Writing in American Higher Education, 1979-1994 Gail E. Hawisher, 1996 This book is a history composed of histories Its particular focus is the way in which computers entered and changed the field of composition studies a field that defines itself both as a research community and as a community of teachers This may have a somewhat sinister suggestion that technology alone has agency but this history made of histories is not principally about computers It is about people the teachers and scholars who have adapted the computer to their personal and professional purposes From the authors perspectives change in technology drives changes in the ways we live and work and we agents to a degree in control of our own lives use technology to achieve our human purposes REVIEW This book reminds those of us now using computers to teach writing where we have been and it brings those who are just entering the field up to date More important it will inform administrators curriculum specialists and others responsible for implementing the future uses of technology in writing
