**Greatest Battles of the Napoleonic Wars** Charles River Editors, 2025-05-01 Nearly 50 years after Napoleon met his Waterloo generals across the West continued to study his tactics and engage their armies the same way armies fought during the Napoleonic Era Despite advances in military technology and the advent of railroads for transportation all of which made defensive warfare more effective acclaimed military geniuses like Robert E Lee used flank attacks and infantry charges against superior numbers in an effort to win decisive victories and it would not be until World War I that concepts of modern warfare made the Napoleonic Era of the early 19th century outdated For those questioning why generals continued using tactics from the Napoleonic Era even as technology changed the battlefield the Battle of Austerlitz may provide the best answer Napoleon is regarded as one of history's greatest generals and Austerlitz was his greatest victory In 1805 Britain Austria and Russia allied together to form the Third Coalition against the French and the Third Coalition's forces consisted of armies from Austria and Russia with Britain providing naval support as well as its financial powers Napoleon had already defeated and mostly destroyed an Austrian army in October at Ulm before it could link up with the Russians setting the stage for the Battle of Austerlitz to be the culmination of the war against the Third Coalition as a whole in early December Despite the smashing victory at Ulm Napoleon's French army would still be well outnumbered at Austerlitz by a joint Russo Austrian army in a battle that would also come to be known as the Battle of Three Emperors The Battle of Austerlitz was a tactical masterpiece that saw Napoleon actually invite an attack on his army by the bigger Coalition army and over the course of about 9 hours the French successfully defended their right flank while counterattacking in the center and splitting the Russo Austrian army in two allowing the French to hit the flank of the advancing left wing of the enemy The result was a decisive victory that virtually annihilated the Third Coalition's army and made Napoleon the master of the European continent Over the course of its history England has engaged in an uncountable number of battles but a select few have been celebrated like the Battle of Trafalgar one of the most important naval battles in history Before the battle Napoleon still harbored dreams of

sailing an invasion force across the English Channel and subduing England but that would be dashed on October 21 1805 by a British fleet that was outnumbered and outgunned That morning Admiral Horatio Nelson's fleet of 27 strong bore down on the Franco-Spanish fleet approaching at right angles in two columns French Admiral Pierre-Charles Villeneuve's disposition was conventional a single line of battle ill formed due to the very light winds and the poor seamanship of many of the crews Traditional naval warfare strategies called for approaching an enemy fleet in one line and then creating a parallel line that allowed as many guns as possible to fire At the same time that kind of line of battle allowed for admirals to signal during battle and it made retreating in an orderly fashion easier After all if an enemy's ships pursued during a retreat they would break their own line The problem with that strategy as Nelson saw it is that the ability to retreat meant fighting a decisive naval battle would be made much more difficult Thus at Trafalgar he employed a completely innovative strategy The British plan was to punch straight through the enemy line with two approaching columns of ships which would cut the Franco-Spanish fleet's line in three prompting the melee that they knew would capitalize on their tactical superiority

**The Great Battle Never Fought** Chris Mackowski, 2018-06-19 The stakes for George Gordon Meade could not have been higher After his stunning victory at Gettysburg in July of 1863 the Union commander spent the following months trying to bring the Army of Northern Virginia to battle once more and finish the job The Confederate army robbed of much of its offensive strength nevertheless parried Meade's moves time after time Although the armies remained in constant contact during those long months of cavalry clashes quick maneuvers and sudden skirmishes Lee continued to frustrate Meade's efforts Meanwhile in Washington D C Meade's political enemies launched an all-out assault against his reputation and generalship Even the very credibility of his victory at Gettysburg came under assault Pressure mounted for the army commander to score a decisive victory and prove himself once more Smaller victories like those at Bristoe Station and Rappahannock Station did little to quell the growing clamor particularly because out west in Chattanooga another Union general Ulysses S Grant was once again reversing Federal misfortunes Meade needed a comparable victory in the east And so on Thanksgiving Day 1863 the Army of the Potomac rumbled into motion once more intent on trying again to bring about the great battle that would end the war The Great Battle Never Fought The Mine Run Campaign November 26 December 2 1863 recounts the final chapter of the forgotten fall of 1863 when George Gordon Meade made one final attempt to save the Union and in doing so save himself
