Bickham.]* Joseph CHAMPION (Writing Master, the Elder.), 1750 **Man-Gods in the Mexican Highlands**, 1989-04 This book is a reflective original and sometimes speculative essay on the concept of power and the man god tradition in Mexican colonial history with some provocative thoughts on how that tradition affected the way the indigenous population reacted to the cultural upheavals of the Spanish Conquest and its aftermath The basis of the work is the rich documentation that survives from efforts to prosecute cases of idolatry and witchcraft The author closely examines four such cases Indian peasants living in central Mexico who proclaimed themselves successors of the gods during various stages of the colonial era in 1537 1659 1665 and 1761 Drawing on the testimony of these man gods and their followers the author describes the emergence of these native leaders discusses their individual qualities and evaluates their impact and hold on their followers

He also sets out in substance their speeches and depositions which provide a rare critique of colonial society Coming from the lower classes socially and culturally marginal these man gods tried to understand and surmount the profound changes that were crushing their society Their actions were doomed to failure but they reveal a dynamism and creativity that have been ignored by conventional historians In a more general way the book demonstrates through concrete examples how popular cultures constantly change and recreate their own traditions and how vanquished and dominated societies in order to construct a new identity create new cultural forms
