Brian Sheedy's Outback Australia on a Budget Brian Sheedy,1990 *Australia's Greatest Inventions* Lynda De Lacey,2010-07-30 Australia s Greatest Inventions From boomerangs to the Hills Hoist by Lynda de Lacey Australia has a reputation for innovation and inventiveness that famous tie it up with fence wire attitude towards getting things done is one of our best known national characteristics Popular opinion tells us that a knack for adaptation for jerry rigging and so called bush improvisation is one of the qualities that marks us out as Australian If you had to play spot the Australian among other nationalities you d choose the ones with the duct tape and pliers in their hands But ask your average Aussie to reel off a list of uniquely Australian inventions at a pub trivia night and most won t get much further than the stump jump plough the Hills Hoist Speedos and the pavlova Suddenly you may find yourself wondering if we re all that inventive as a culture after all These examples certainly don t seem to build a terribly convincing case This book proves that for a 200 year old culture with a relatively small population Australians have a much richer inventive history than we give ourselves credit for Once we ve seen that this reputation for inventiveness is justified the next question becomes is there something in our cultural wiring something about being Australian that makes us more inventive than other people
