Heuser, Athena S. Leoussi, 2018-11-30 Why are some battles remembered more than others Surprisingly it is not just size that matters nor the number of dead the decisiveness of battles or their effects on communities and civilisations It is their political afterlife the multiple meanings and political uses attributed to them that determines their fame This ground breaking series goes well beyond military history by exploring the transformation of battles into sites of memory and meaning Cast into epic myths of the fight of Good against Evil of punishment for decadence or reward for virtue of the birth of a nation or the collective assertion against a tyrant the defense of Civilisation against the Barbarians Christendom against the Infidel particular battles have acquired fame beyond their immediate contemporaneous relevance The great battles of modern history examined in this second volume range from the defeat of the Armada and the relief of Vienna to Chatham Culloden Waterloo Gettysburg the Somme and Stalingrad In each chapter the historical events surrounding a battle form the backdrop for multiple later interpretations which consciously or unconsciously carry political agendas some for further bloodshed and sacrifice but others for the more recent and laudable phenomenon of reconciliation over the graves of the dead *A History of the British Cavalry* Lord Anglesey, 1994-11-15 In the seventh and second last volume in this historical work Lord Anglesey shows how superior the British cavalry was compared to those of the French and Germans He concentrates on the first five months of the War

Monty's Greatest Battles

1942-1945 Adrian Stewart, 2024-07-30 Field Marshal Bernard Law Montgomery had a dynamic personality that often led to difficulties with political or military superiors but made him an immensely effective leader of men. He identified himself closely with his soldiers whose welfare was his continual concern and whom he treated almost as family. In return they fought for him magnificently in some of the most important battles of the Second World War. These battles varied in type, terrain and tactics, defended river crossings including that of the Rhine, amphibious landings including the D Day landings, defensive encounters including Alam Halfa and the Ardennes, mobile operations including the capture of Tripoli, the left hook at the Marechal Line and the dash from the Seine to the Scheldt, culminating in the daring attempt to seize the Rhine bridges, set-piece conflicts against enemies in prepared positions equipped with often superior weapons including Alamein and Normandy. In addition to describing the battles that made Montgomery the legendary military commander for which he is rightly remembered, this fascinating book examines both his qualities and weaknesses. Notwithstanding the latter, there is no doubt that he fully justified the trust and loyalty that soldiers gave to the man they knew as Monty. Great Battles of World War I Anthony Livesey, 2015-03-18 Stunning 3 dimensional computer graphics recreate the most important battles of World War 1 from Passchendaele to Argonne. Includes an 8 page single gatefold **Battle of the Piave**, 2004 **World War I and II_ Stories the World Must Remember** S. IDEA, **Warfare and Armed Conflicts** Micheal Clodfelter, 2017-05-23 In its revised and updated fourth edition this exhaustive encyclopedia provides a record of casualties of war from the last five centuries through 2015 with new statistical and analytical information. Figures include casualties from global terrorism, the wars in Iraq and Afghanistan and the fight against the Islamic State. New entries cover an additional 20 armed conflicts between 1492 and 2007 not included in previous editions. Arranged roughly by century and subdivided by world region, chronological entries include the name and dates of the conflict, precursor events, strategies and details, the outcome and its aftermath. *The Allure of Battle* Cathal Nolan, 2017-01-02 History has tended to measure war's winners and losers in terms of its major engagements, battles in which the result was so clear cut that they could be considered decisive. Cannae, Konigsberg, Austerlitz, Midway, Agincourt all resonate in the literature of war and in our imaginations as tide turning. But these legendary battles may or may not have determined the final outcome of the wars in which they were fought. Nor has the genius of the so called Great Captains from Alexander the Great to Frederick the Great and Napoleon played a major role. Wars are decided in other ways. Cathal J Nolan's *The Allure of Battle* systematically and engrossingly examines the great battles, tracing what he calls short war thinking, the hope that victory might be swift and wars brief. As he proves persuasively, however, such has almost never been the case. Even the major engagements have mainly contributed to victory or defeat by accelerating the erosion of the other side's defences. Massive conflicts, the so called people's wars, beginning with Napoleon and continuing until 1945, have consisted of and been determined by prolonged stalemate and attrition. Industrial wars in which the determining factor has been not military but material. Nolan's masterful book places battles squarely and

mercilessly within the context of the wider conflict in which they took place In the process it help corrects a distorted view of battle s role in war replacing popular images of the battles of annihilation with somber appreciation of the commitments and human sacrifices made throughout centuries of war particularly among the Great Powers Accessible provocative exhaustive and illuminating The Allure of Battle will spark fresh debate about the history and conduct of warfare *Marshal Zhukov's Greatest Battles* Georgi K. Zhukov,2002-04-15 The World War II commander largely responsible for Russia s victories at Moscow Stalingrad Kursk and Berlin Marshal Georgi Zhukov describes these epic conflicts in his own words **The Encyclopedia Americana** ,1927
