## **Great Britain And The Holy See 1746 1870:**

**Great Britain and the Holy See, 1746-1870** Matthias Buschkühl, 1982      **Great Britain and the Holy See** James P. Flint, 2003 But Flint's extensive research in the Vatican archives finds that even the most skillful British campaign would have found it difficult to set up diplomatic relations that for the most part the Papal government did not want      **The Popes and Britain** Stella Fletcher, 2017-02-28 When the British thought of themselves as a Protestant nation their natural enemy was the pope and they adapted their view of history accordingly In contrast Rome's perspective was always considerably wider and its view of Britain was almost invariably positive especially in comparison to medieval emperors who made and unmade popes and post medieval Frenchmen who treated popes with contempt As the twenty first century papacy looks ever more firmly beyond Europe this new history examines political diplomatic and cultural relations between the popes and Britain from their vague origins through papal overlordship of England the Reformation and the process of repairing that breach

**Britain and the Papacy in the Age of Revolution, 1846-1851** Saho Matsumoto-Best, 2003 Britain's support for constitutional government in Italy and anxieties about the Irish Catholic Church brought Britain and the Papacy briefly together From the time of the Reformation Anglo Vatican relations have typically been seen as a long history of unending antagonism and mutual suspicion but this has not always been the case This book sheds light on one of the most curious episodes in early Victorian history when around the time of the 1848 revolutions in Europe a rapprochement almost developed between Britain and the papacy and British politicians and writers referred to the new head of the Catholic Church Pius IX as the good pope Integrating diplomatic political ecclesiastical and social history Saho Matsumoto Best traces the factors that brought these two traditionally hostile powers together and the reasons why this rapprochement was doomed to failure She demonstrates how the desire to support constitutional government in Italy and to curb the activities of the Irish Catholic church led the government of Lord John Russell to build a close relationship with Pius IX and how failure to understand the Vatican's priorities and anti papal and anti Catholic feeling in Britain particularly in the context of the restoration of the Catholic hierarchy in 1850 eventually destroyed this policy This study is an important and original contribution to the current debate about the nature of mid nineteenth century Britain and sheds new light on the British role in Italian unification It will also be of great interest to students of nineteenth century European international and ecclesiastical history and of the 1848 revolutions      **The Oxford History of British and Irish Catholicism, Volume III**

James Edward Kelly, Liam Chambers, John David McCafferty, 2023 The third volume of The Oxford History of British and Irish Catholicism examines the period from the defeat of the Jacobite army at the battle of Culloden in 1746 to the enactment of Catholic emancipation in 1829 The first part of the volume offers a chronological overview tracing the decline of Jacobitism the easing of penal legislation which targeted Catholics the complex impact of the French Revolution the debates about the place of Catholics in the post Union state and following the mass mobilisation of Irish Catholics the passage of emancipation

The second part of the volume shows that this political history can only be properly understood with reference to the broader transformations that occurred in the later eighteenth and early nineteenth centuries. The period witnessed the expansion of Catholic infrastructure: pastoral structures, chapel building, elementary education, and finances, and changes in Catholic practice, for example in liturgy and devotion. The growing infrastructure and more public profession of Catholicism occurred in a society where anti-Catholicism remained a force, but the volume also addresses the accommodations and interactions with non-Catholics that attended daily life. Crucially, the transformations of this period were international as well as national. The volume examines the British and Irish convents, colleges, friaries, and monasteries on the continent, especially during the events of the 1790s when many institutions closed and successor or new ones emerged at home. The international dimensions of British and Irish Catholicism extended beyond Europe too, as the British Empire expanded globally, and attention is given to the involvement of British and Irish Catholics in imperial expansion. This volume addresses the literary, intellectual, and cultural expressions of Catholicism in Britain and Ireland. Catholics produced a rich literature in English, Irish, Scots Gaelic, and Welsh, although the volume shows the disparities in provision. They also engaged with and participated in the Catholic Enlightenment, particularly as they grappled with the challenges of accommodation to a Protestant constitution. This also had consequences for the public expression of Catholicism, and the volume concludes by exploring the shifting expression of belief through music and material culture.

**British Foreign Policy in an Age of Revolutions, 1783-1793** Jeremy

Black, 1994-04-14 In 1783 Britain had lost America and was unstable domestically. By 1793 it had regained its position as the leading global power. Three successive crises are examined during the intervening years in an effort to throw light on the British state in an Age of Revolutions and a crucial period of international development.

**Belgium and the Holy See**

**from Gregory XVI to Pius IX (1831-1859)** Vincent Viaene, 2001 The Roman orientation was the keystone of the religious revolution of the Catholic revival. New or renewed congregations, priests close to the people, militant laymen gave a decidedly social activist turn to the faith. At this crossroad of religion and modernity, the papacy could all the more make its weight felt as the Belgian Constitution granted the clergy a unique liberty in relations with Rome. Over time, the Vatican would exert a powerful impact on the shape of modern politics in Belgium. The special relationship between Belgium and Rome was no one-way traffic. From a somewhat curious ecclesiastical court hopelessly entangled in the old spider web of the Papal States, the papacy became the institution we know today, the leader of a modern Catholic opinion. Belgium played a role of major importance in this transformation. The central theme of the book can therefore be defined as a process of mutual integration, if not acculturation, across the Alps.

*The Oxford History of British and Irish Catholicism, Volume IV* Carmen M.

Mangion, Susan O'Brien, 2023-09-01 After 1830 Catholicism in Britain and Ireland was practised and experienced within an increasingly secure Church that was able to build a national presence and public identity. With the passage of the Catholic Relief Act, Catholic Emancipation in 1829 came civil rights for the United Kingdom's Catholics, which in turn gave Catholic

organisations the opportunity to carve out a place in civil society within Britain and its empire This Catholic revival saw both a strengthening of central authority structures in Rome creating a more unified transnational spiritual empire with the person of the Pope as its centre and a reinvigoration at the local and popular level through intensified sacramental devotional and communal practices After the 1840s Catholics in Britain and Ireland not only had much in common as a consequence of the Church's global drive for renewal but the development of a shared Catholic culture across the two islands was deepened by the large scale migration from Ireland to many parts of Britain following the Great Famine of 1845 Yet at the same time as this push towards a degree of unity and uniformity occurred there were forces which powerfully differentiated Catholicism on either side of the Irish Sea Four very different religious configurations of religious majorities and minorities had evolved since the sixteenth century Reformation in England Ireland Scotland and Wales Each had its own dynamic of faith and national identity and Catholicism had played a vital role in all of them either as other or in the case of Ireland as the majority's self Identities of religion nation and empire and the intersection between them lie at the heart of this volume They are unpacked in detail in thematic chapters which explore the shared Catholic identity that was built between 1830 and 1913 and the ways in which that identity was differentiated by social class gender and above all nation Taken together these chapters show how Catholicism was integral to the history of the United Kingdom in this period

classes by the end of the century had names that reflected their ancestry as minor local chiefs. The question remains where did the descendants of the former workers, the villeins and betaghs go. The answer seems to be that in times of war and famine the members of even the smallest chiefly family stood a better chance of surviving. This would explain the long standing grievance of the Catholic peasants that they were unjustly deprived of their land. We will perhaps never know the answer to this question. Penal Laws against religious minorities were the norm in Europe. The religion of the state was decided by the king according to the adage *cuius regio eius religio* each king decides the state religion for his own kingdom. At the end of the 17th century the Catholic landowners fought hard for the Catholic James II. But in the 18th century they lost interest and preferred to come to terms with the actually reigning monarch and became Protestants to retain their lands and influence. Unlike in Scotland support for the Catholic Stuarts remained minimal. Nor was there any attempt to establish an independent kingdom or republic. When such an attempt was made at the very end of the century it was led by Protestant gentlemen in imitation of their American cousins. Ireland in the 18th century was not ruled by a foreign elite like the British raj in India. It was an aristocratic society like all the other European societies at the time. Some of these were descendants of Gaelic chiefs, some were descendants of those who had received grants of confiscated land, some were descendants of the moneylenders who had lent money to improvident Gaelic chiefs. Together these formed the ruling aristocracy who controlled Parliament and made the Irish laws, controlled the army, the judiciary and the executive. Access to this elite was open to any gentleman who was willing to take the oath of allegiance and conform to the state church, the Established Church, but not the nonconformists. British kings did not occupy Ireland and impose foreign rule. Ireland had her own Government and elected Parliament. By a decree of King John in the 12th century the Lordship of Ireland was annexed to the person of the king of England. When not present in Ireland in person and he rarely was, his powers were exercised by a Lord Lieutenant to whom considerable executive power was given. He presided over the Irish Privy Council which drew up the legislation to be presented to the Irish Parliament. One restraint was imposed on the Irish Parliament by Poynings Law: it was not allowed to pass legislation that infringed on the rights of the king or his English Privy Council. The British Parliament had no interest in the internal affairs of Ireland. The Irish Council were free to devise their own legislation and they did so. The events in Irish republican fantasy are examined in detail. There was no major rebellion against alleged British rule. The vast majority of Catholics and Protestants rallied to the support of their lawful Government. There were local uprisings easily suppressed by the local militias and yeomanry. Atrocities were not all on one side. Ireland at last enjoyed a century of peace with no wasteful and destructive wars within its bounds. No longer were its crops burned, its buildings destroyed, its cattle driven off, its population reduced by fever and famine. Its trade was resumed and gradually wealth accumulated and was no longer dispersed on local wars. Gentlemen as in England could afford to build great country and town houses. The arts flourished as never before. Skilled masons could build great houses. Stone cutters could carve sculptures. The most delicate mouldings could be applied

to ceilings The theatre flourished While some gentlemen led the life of wastrels others devoted themselves to the promotion of agriculture and industry Everywhere mines were dug to exploit minerals Ireland had not the same richness of minerals as England but every effort was made to find and exploit them Roads were improved canals dug rivers deepened and ports developed Market towns spread all over Ireland which provided local farmers with outlets for their produce and increased the wealth of the landlords This wealth was however very unevenly spread The population was ever increasing and the poor remained miserably poor In a bad year hundreds of thousands of the very poor could perish through cold and famine But the numbers of the very poor kept on growing Only among the Presbyterians in Ulster was there emigration on any scale Even before the American Revolution they found a great freedom and greater opportunities in the American colonies Catholics were born lived and died in the same parish Altogether it was a century of great achievement *Paul Cullen, John Henry Newman, and the Catholic University of Ireland, 1845-1865* Colin Barr, 2003 Victorian Religious Discourse J.

**Ireland 1850-1920** Desmond Keenan, 2005-05-11 This is a book about the history of Ireland It is not a history of various groups backed by American money who sought the independence of Ireland Such histories have been written in the past largely with the aim of extracting more money from their American financial backers Writers of such books never felt constrained to tell the truth the whole truth and nothing but the truth This book is the fifth in a series of books on various periods of Irish history in which I aimed to do just that This book had its origin when the author was glancing through an English translation of Adolf Hitler's book Mein Kampf He was so struck by Hitler's account of German history before during and after the First World War that he went and bought the book What amazed him was its resemblance to the version of Irish history that he had been taught in Irish schools There was no question of either side borrowing directly from the other but equally obviously both were drawing on a common set of ideas and used a common method of exposition Further study showed that both exposed a racist view of history and believed in the Darwinian struggle of the races Both regarded their countries as subjected by alien races who destroyed the pure native culture Both attributed every evil in their respective societies to these malign evil influences Both saw that the alien races would have to be expelled from their countries so that their countries could again prosper when their native cultures were restored Protestant landlords in Ireland had the same place in Irish racist propaganda and political mythology that the Jews had in Nazi political mythology Most Irish boys of the author's generation had like Hitler come across an inspiring teacher of history who inspired them to nationalism with his one-sided stories of Irish wrongs at the hands of the English Having realised that the standard version of Irish history was vitiated in its roots the problem arose as to how a version of Irish history could be written which was fair to all parties involved Many excellent books and monographs on various parts of Irish history have been written and he has drawn on them considerably in this book It is noticeable that the further the subject of an historical study is from the present the easier it is to be objective and the less controversy there is There are two main themes in this period of Irish history The first is the growth of Ireland into a modern industrial society The other is the struggle of principally the Catholic middle classes to wrest control of Ireland specifically the corruption and racketeering from the Protestants Ireland by 1850 was already a well developed modern society more advanced than most countries in Europe The period up to 1920 was one of increasing prosperity and increasing social improvement Every new development in the various

aspects of society industry agriculture communications science and education social improvements were all adopted The propaganda picture of an impoverished and down trodden Catholic peasantry crushed by an alien state is shown to be false At the same time the rosy tinted picture of brave disinterested young men going out to fight for Ireland s freedom from a foreign oppressor is shown to be equally false Neither their objectives namely to control the rackets nor their methods namely terrorism are things that Irish people can be proud of Nor is the indiscriminating support given by Americans to the terrorists anything that America can be proud of either But in this book I prefer to concentrate on the achievements Irishmen can be proud of On can look at Irish industrial achievements Belfast showed how ships on the North Atlantic run should be built and fitted out The greatest linen industry in the world was built up Two of the greatest dev developments in the modern world the pneumatic tyre and the three point l Newman's Early Roman Catholic Legacy 1845-1854 C. Michael Shea, 2017 This volume considers the impact of Newman s Essay on Development 1845 on Roman Catholicism of the time immediately after his conversion The Grail of Catholic Emancipation 1793 to 1829 Desmond Keenan, 2002-11-12 Anyone studying or teaching Irish history or who likely to be involved in discussions on the subject should first get the facts straight It is my aim to provide as far as possible the truth the whole truth and nothing but the truth about one particular period This book is an addition to my other books Pre Famine Ireland Social Structure and Ireland 1800 to 1850 When writing these books I accumulated such a vast quantity of material often from untouched sources and put it in these two volumes one dealing with the history of the period and the other dealing with the social and economic aspects of the country at the time But there was another story which emerged from the newspapers of the time and that was the struggle for Catholic Emancipation between the Catholic Relief Acts of 1793 and 1829 Invariably in the post Reformation period in Europe and in the European colonies laws were passed to enforce the religion of the state and to extirpate if possible dissenting views To a greater or lesser extent the religious dissidents were excluded from all offices of state all positions of importance in the armed forces from all offices in towns and counties In some places though not in all the very practice of the religion was prohibited This was the case in England though not in Ireland The dissident religion could be attacked in a different way namely by prohibiting endowments to be made for its institutions So for example Catholic schools could not be endowed Above all laws concerning succession to real property or estate could be made to benefit those conforming to the states religion Though this book is dealing with the repeal of laws against Catholics in a Protestant country it should be remembered that there was nothing in Ireland comparable to the Inquisition in Spain or the revocation of the Edict of Nantes in France The policies of the mother country were faithfully followed in their colonies both in North and South America In the course of the eighteenth century the old intolerance began to decline and many of the laws against religion were relaxed or abolished In Ireland by 1793 most of the laws concerning the practice of religion and the tenure of land had been removed But they were still excluded from the major offices of state from the Established Churches from the higher ranks in the armed forces from the higher positions in the law

courts from the executive positions in towns and counties and above all from Parliament When the Catholic Relief Act was passed in 1793 many thought that it would be only a few years until the remaining disabilities were removed But the next Relief Act was not passed until 1829 This book describes the twists and turns of the story of the Grail the object of an extended or difficult quest with all its ups and downs and twists and turns its successes and its reverses This story is not the simplified one of Irish Catholic nationalist mythology showing Daniel OConnell aided only by the priests overthrowing the so called Protestant Ascendancy in Ireland Indeed this book raises questions whether OConnells incessant interventions did more harm than good and whether emancipation would have been granted more speedily if he had not tried to help But it does throw an interesting light on the character of OConnell himself who was for good or evil one of the outstanding characters in Ireland in the first half of the nineteenth century Of the secondary characters who played their role in this struggle the first mention must go to Sir Edward Bellew He was just an ordinary country gentleman never a leader but he played his part from the start to almost the end He was noted for his good judgement and moderation and was never driven away by the abuse heaped on him by the more unruly elements The part played by Edward Hay who did his best to serve the fractious Catholic leaders should not be forgotte
