Ecology of Communication David L. Altheide, 2020-03-11 Altheide's new book advances the argument set in motion some years ago with *Media Logic* and continued in *Media Worlds in the Postjournalism Era* that in our age information technology and the communication environments it posits have affected the private and the social spheres of all our power relationships redefining the ground rules for social life and concepts such as freedom and justice Articulated through an interactionist and non deterministic focus *An Ecology of Communication* offers a distinctive perspective for understanding the impact of information technology communication formats and social activities in the new electronic environment *The International Encyclopedia of Political Communication, 3 Volume Set* Gianpietro Mazzoleni, Kevin G. Barnhurst, Ken'ichi Ikeda, Rousiley C. M. Maia, Hartmut Wessler, 2015-12-14 The *International Encyclopedia of Political Communication* is the definitive single source reference work on the subject with state of the art and in depth scholarly reflection on the key issues within political communication from leading international experts It is available both online and in print Explores pertinent salient topics within political science sociology psychology communication and many other disciplines Theory empirical research and academic as well as professional debate are widely covered in this truly international and comparative work Provides clear definitions and explanations which are both cross national and cross disciplinary by nature Offers an unprecedented level of authority accuracy and balance with contributions from leading international experts in their associated fields Part of The Wiley Blackwell ICA International Encyclopedias of Communication series published in conjunction with the International Communication Association Online version available at Wiley Online Library www.wileyicaencyclopedia.com Named Outstanding Academic Title of 2016 by Choice Magazine a publication of the American Library Association *Media, Structures, and Power* Robert E. Babe, 2011-01-01 Containing introductions and contributions by other prominent scholars this volume situates Babe's work within contemporary scholarship and underscores the extent to which he is one of Canada's most prescient thinkers ***Tweets and the Streets*** Paolo Gerbaudo, 2012-10-05 What should we make of the culture of the protest movements of the 21st century From the Arab Spring to the indignados protests in Spain and the Occupy movement Paolo Gerbaudo examines the relationship between the rise of social media and the emergence of new forms of protest Gerbaudo argues that activists use of Twitter and Facebook does not fit with the image of a cyberspace detached from physical reality Instead social media is used as part of a project of re appropriation of public space which involves the assembling of different groups around occupied places such as Cairo's Tahrir Square or New York's Zuccotti Park An exciting and invigorating journey through the new politics of dissent *Tweets and the Streets* points both to the creative possibilities and to the risks of political evanescence which new media brings to the contemporary protest experience *Media Worlds in the Postjournalism Era* David Altheide, 2019-01-08 The concept of media logic a theoretical framework for explaining the

relationship between mass media and culture was first introduced in Altheide and Snow's influential work *Media Logic*. In *Media Worlds in the Postjournalism Era*, the authors expand their analysis of how organizational considerations promote a distinctive media logic which in turn is conducive to a media culture. They trace the ethnography of that media culture including the knowledge techniques and assumptions that encourage media professionals to acquire particular cognitive and evaluative criteria and thereby present events primarily for the media's own ends.
