Economic Processes And Political Conflicts Contributions To Modern Political Economy:

Economic Processes and Political Conflicts Richard W. England, 1987 Economic Processes and Political Conflicts Richard W. England, 1987 The Dynamics of Economic and Political Relations Between Africa and Foreign Powers Tukumbi Lumumba-Kasongo, 1999-01-30 International relations at large and Africa's in particular are shaped by the actors' historical location by what they offer economically and culturally and by who they are socially. In international relations, nations tend to deal with objective conditions as they are or as they are perceived. However, Lumumba-Kasongo demonstrates through case studies of Liberia and Zaire Congo that what the objective conditions are may not necessarily be what they ought to be in the national development process. The international struggle for power between the West and the East and their supportive brutal and oppressive states in the South, especially in Africa, created the extremely weak conditions that redefined international relations as the tools of domination rather than the tools of understanding and cooperation. As Lumumba-Kasongo clarifies, Africa did not gain economically or developmentally from this struggle. An important work for scholars and researchers of contemporary Africa and international relations in general.

Evolutionary Concepts in Contemporary Economics Richard W. England, 1994 This anthology reports on a number of contemporary attempts to introduce evolutionary concepts into economic analysis. *F. W. Taylor* John Cunningham Wood, Michael C. Wood, 2002 Following the volumes on Henri Fayol, this next mini set in the series focuses on F. W. Taylor, the initiator of scientific management. Taylor set out to transform what had previously been a crude art form into a firm body of knowledge. *Crime And Capitalism* David Greenberg, 2010-06-10 Classic and contemporary viewpoints on crime. *The Political Economy of Conflict and Violence against Women* Kumudini Samuel, Claire Slatter, Vagisha Gunasekara, 2019-08-15 The Political Economy of Conflict and Violence against Women shows how political, economic, social, and ideological processes intersect to shape conflict-related gender-based violence against women. Through feminist interrogations of the politics of economies' struggles for political power and the gender order, this collection reveals how sexual orders and regimes are linked to spaces of production. Crucially, it argues that these spaces are themselves firmly anchored in overlapping patriarchies which are sustained and reproduced during and after war through violence that is physical as well as structural. Through an analysis of legal regimes and structures of social arrangements, this book frames militarization as a political-economic dynamic, developing a radical critique of liberal peace building and peace making that does not challenge patriarchy or modes of production and accumulation.
