The Economics of Heinrich Pesch. Richard E. Mulcahy,... Richard Edward Mulcahy,1945 **The Economics of Heinrich Pesch** Richard E. Mulcahy,1952 Heinrich Pesch on Solidarist Economics Heinrich Pesch,1998 Heinrich Pesch on Solidarist Economics presents excerpts from Lehrbuch der Nationalökonomie written by Pesch and probably the longest economics textbook ever written in English for the first time This five volume work appeared in several editions in German between 1905 and 1926 With this text Pesch created one of the few original economics works in which he proposed the solidarist system of human work in juxtaposition to individualistic capitalism and collectivistic socialism both of which he critiqued and opposed Through this proposal he also introduced a social philosophy solidarism The translator provides some of the most representative excerpts to demonstrate the nucleus of what the German Jesuit scholar attempted to accomplish in his textbook His ideas prominently impacted the Roman Catholic Church's social teachings from 1931 through the present teachings of Pope John Paul II The Economics of Heinrich Pesch Richard E. Mulcahy (SI.),1952 *Selected Aspects of the Economics of Heinrich Pesch* Edward J. O'Boyle,History of Economics Society. Meeting,1980 The Welfare Economics of Heinrich Pesch Richard E. Mulcahy, **Lehrbuch Der Nationalökonomie/Teaching Guide to Economics** Heinrich Pesch,2002 Presents the preceding and alternative economic systems mercantilism physiocracy Smith's individualistic system and socialism in contrast with Pesch's own proposed system the Solidaristic System of Human Work There follows an analysis of national wealth and its two principle dispositional bases natural resources and population In refuting the Malthusian analysis Pesch provides the maxim that if we see to the quality of the population there need be no concern about its quantity **Lehrbuch Der Nationalökonomie/teaching Guide to Economics: Foundations for economic life (2 v.)** Heinrich Pesch,2002 This is the first English translation of the works of Heinrich Pesch SJ 1854-1926 Pesch a German Jesuit scholar and economist wrote the longest most exhaustive economics text ever written one that deserves to be regarded as a kind of Summa Economica The five volume Lehrbuch der Nationalökonomie examines all serious economic thinking up until Pesch's time culling what was deficient retaining what was worthwhile and filling in what its author perceived to be lacking The result was a design for an economic system that is opposed to both classically liberal capitalism and state socialism based instead on Aristotelian Thomistic philosophical premises Pesch developed many of the basic principles which emerged in the social encyclicals of the Catholic Church **The Theory of Capitalism in the German Economic Tradition** Peter Koslowski,2013-11-11 The theory of capitalism and of the economic order is the central topic of the German economic tradition in the 20th century Capitalism has not only been the topic for Marxist economics and for the Frankfurt School but also for the Historical School and for the postmarxist theory of capitalism in Ordo and Neo Liberalism as well as in Solidarism The question of the foundations of the economic order of the market economy and of capitalism as well as the problem whether a third path between capitalism and socialism is possible occupied this tradition from the Historical School to Ordo

Liberalism and the theory of the social market economy The theory of capitalism and of the social market economy as well as the critique and reform developed in this theoretical tradition is important for the theory of economic systems as well as for today's problems of the economic order Its relevance for the present world economy is visible in the discussions whether there exist different models of capitalism and whether they can be described as the Anglo American and as the Rhenish model of capitalism influenced by the thought of the German economic tradition Michel Albert the author of this classification gave the key word in his book Capitalism against Capitalism The papers of this book can help to clarify this debate by giving a first hand introduction to some of the main economic thinkers of capitalism

Lehrbuch der Nationalökonomie/Teaching Guide to Economics Heinrich Pesch, 2002 This is the first English translation of the works of Heinrich Pesch SJ 1854-1926 Pesch a German Jesuit scholar and economist wrote the longest most exhaustive economics text ever written one that deserves to be regarded as a kind of Summa Economica The five volume Lehrbuch der Nationalökonomie examines all serious economic thinking up until Pesch's time culling what was deficient retaining what was worthwhile and filling in what its author perceived to be lacking The result was a design for an economic system that is opposed to both classically liberal capitalism and state socialism based instead on Aristotelian Thomistic philosophical premises Pesch developed many of the basic principles which emerged in the social encyclicals of the Catholic Church

conventional economics A running theme throughout this book is that personalist economics is attentive to both aspects of human material need physical need and the need for work as such in a way that does not disregard human wants Accordingly this book is more concerned about the philosophical base and description of the economy s significant characteristics than social economic policy Personalist Economics explores four dimensions of particularly acute human physical need unemployment poverty homelessness and death In addressing these four aspects of need the book delves into the second and third domains of social economics description of the significant characteristics of the economy and social economic policy In the same way Personalist Economics explores two types of economic cooperation supra firm alliances and inter firm partnerships as means for addressing certain aspects of human material need This book concludes with a lengthy discussion of the challenges facing personalist economics in the years ahead

The Economic Theory of Heinrich Pesch Richard Edward Mulcahy, 1950 *Redeeming Economics* John D. Mueller, 2014-04-08 Groundbreaking Washington Examiner Economics is primed for and in desperate need of a revolution respected economic forecaster John D Mueller shows in this eye opening book To make the leap forward will require looking backward for as Redeeming Economics reveals the most important element of economic theory has been ignored for more than two centuries Since the great Adam Smith tore down this pillar of economic thought economic theory has been unable to account for a fundamental aspect of human experience the relationships that define us the loves and hates that motivate and distinguish us as persons In trying to reduce human behavior to exchanges modern economists have forgotten how these essential motivations are expressed as gifts or their opposite crimes Mueller makes economics whole again masterfully reapplying the economic thought of Aristotle Augustine and Aquinas

Social Economics: Retrospect and Prospect Mark A. Lutz, 2012-12-06 At the very heart of the conception of the present volume lies the conviction that social economics is a highly pluralistic discipline inspired and enriched by several often radically different world views Schumpeterian visions and at times even quite antagonistic social doctrines Yet in spite of all these differences social economists can nevertheless be seen and also approached as some kind of economic brotherhood for various reasons dissatisfied with the austere value free diet offered by the positivistic neoclassical paradigm What all social economists seem to have in common is a profound interest in values and the process of valuation in order to more fully understand both economic behavior and the possibilities of improving the economic system Such a distinguishing characteristic is also well articulated and enshrined in Article I of the Constitution of the Association of Social Economics where we are told that the aims and objectives of the Association shall be 1 To foster research and publication centered on the reciprocal relationship between economic science and broader questions of human dignity ethical values and social philosophy and to encourage the efforts of all scholars who are dedicated to exploring the ethical presuppositions and implications of economic science 2 To consider the personal and social dimensions of economic problems and to assist in the formulation of economic policies consistent with a concern for ethical values and pluralistic community and the demands of personal dignity
