Economy And Society In Early Modern Europe:

Economy and Society in Early Modern Europe Peter Burke, 2013-11-05 In 1929 two French historians Lucien Febvre and Marc Bloch founded *Annales* a historical journal which rapidly became one of the most influential in the world. They believed that economic history, social history and the history of ideas were as important as political history and that historians should not be narrow specialists but should learn from their colleagues in the social sciences. Two of the most distinguished French members of the *Annales* school are represented in this volume: Fernand Braudel and Emmanuel Le Roy Ladurie, the core of which is the debate on the Price Revolution of the sixteenth century dealt with by Cipolla, Chabert, Hoscowski and Verlinden. Within the volume all the contributions are oriented towards Europe in the sixteenth and seventeenth centuries and all are concerned with long term changes and with the relation between economic growth and social change. It includes articles on the European movement of expansion discussed by Malowist and the activities of the Hungarian nobles as entrepreneurs discussed by Pach and two articles on wider issues: Le Roy Ladurie on the history of climate and Braudel summing up the *Annales* programme on the relation between history and the social sciences. This classic text was first published in 1972.

The Early Modern European Economy Peter Musgrave, 1999-06-07 Until recently study of the early modern economy in Europe has tended to have heroes and villains: the former being the progressive and modern economies of the Netherlands and England and the latter being doomed backward and Catholic Italy and Spain. This picture has now changed quite drastically and there is far more emphasis on the general growth of the European economy during this period. The progressive removal of the neighbouring threats to European prosperity, particularly the gradual crippling of Ottoman power, created an environment which benefited all societies and not simply the traditionally emphasised Atlantic economies.

Early Modern European Society Henry Kamen, 2005-07-28 Drawing together common features of society from a range of different contexts throughout Europe from Italy and Spain to Poland and Russia, *Early Modern European Society* surveys the sweeping changes affecting Europe from the end of the fifteenth century to the early decades of the eighteenth century. Henry Kamen includes discussion on European identities, frontiers and language, leisure, work and migration, religion, ritual and witchcraft, the aristocracy, the bourgeoisie and the poor, gender roles, social discipline and absolutism.
