Ecotourism Development in Costa Rica Andrew P. Miller, 2012-08-17 Ecotourism Development in Costa Rica The Search for Oro Verde by Andrew P Miller examines the use of ecotourism as a development strategy in Costa Rica and its applicability to other Central American states Ecotourism provides an important environmental check on industry giving the environment a voice by making its preservation an economic necessity due to the number of people who derive their income from it The move away from agriculture to ecotourism is a natural fit because many of those who are engaged in agriculture have extensive knowledge of plants and animals that can be utilized by the ecotourism industry The use of ecotourism as a development strategy is distinctive For ecotourism to succeed it must preserve the natural environment but it must do so in a way that does not preclude growth in other sectors of the economy Miller shows how the successful pursuit of foreign direct investment coupled with Costa Rica s immense biodiversity and its attractiveness to tourists is key to understanding the success of the Costa Rican economy Many of the preferences that ecotourists have for a vacation destination also help create an amenable atmosphere for business These factors include political and social stability high quality of life low levels of corruption economic freedom high levels of education and a suitable infrastructure The most important part of this research is its development of strategies based upon the Costa Rican model that would be useful for other states in the region When looking at whether states can replicate the development strategy of Costa Rica environmental sustainability is an important concern Ecotourism Development in Costa Rica is an essential text for students

and scholars interested in Latin American politics and history development studies and environmental sustainability

Sustainable Ecotourism in Central America Andrew P. Miller, 2016-09-30 Sustainable Ecotourism in Central America Comparative Advantage in a Globalized World examines the factors necessary for Nicaragua Panama and Belize to implement an economic development model based on the growth of ecotourism and foreign direct investment In order to determine what factors are necessary to implement this model this book analyzes the state of ecotourism development in Costa Rica and the lessons that the Costa Rican case can provide for other Central American states It also assesses the effects of globalization and the increasing implementation of free market policies on the development of ecotourism The book ultimately argues that globalization and neoliberalism have made it more likely that states will be able to adopt a development model based on ecotourism and foreign direct investment due to the manner in which neoliberalism and globalization help to create ever increasing economic interconnectedness and openness While globalization has served to shrink the world and make it easier for people to travel the economic openness of neoliberalism has facilitated global flows of both tourists and international capital into every corner of the world Understanding the way globalization and neoliberalism interact with ecotourism development and foreign direct investment is the key to formulating policy recommendations for states in Central America to jumpstart their economic development

aggression and infant loss at this site Several recommendations are offered to minimise harmful effects to help ensure that natural behavioural patterns are fostered

Southern Africa Donald G. Reid, Chukwuma Azuonye, 2002-01-01 Tourism is increasingly viewed by African governments and others as an economic sector which has great unexplored potential for earning foreign currency. It is also recognised that uncontrolled tourism development has the potential to affect the environment and local communities adversely. This book reports on a series of research case studies from Eastern and Southern Africa that explore the benefits of tourism to local communities while protecting their environmental resource. Each chapter combines theory and practice in a complementary way. The scope of the encyclopedia includes definitions and other contextual material, regional perspectives, venues, impacts, planning and management considerations and issues associated with ecotourism businesses, research and training. **The Development and Protection of Coastal and Marine Ecotourism Resources** Nova Scotia Ecotourism Development Foundation, 1996 Tourism and Sustainability Martin Mowforth, Ian Munt, 2003 Drawing on a wealth of examples, this work traces the inception of sustainability within environmentalism and its extension into the realism of socio cultural and economic thinking, policy and practice. This second edition has been extensively updated to firmly re-situate it in the development literature. There are also major new sections on Third world development and tourism, the emergence of pro-poor tourism, the UN International Year for Ecotourism and a new case study on a small scale ecotourism program in Nicaragua.
