Grandeur Nature:

Grandeur nature Henri Troyat, 1980 **Open Sky** Paul Virilio, 2020-05-05 One day the day will come when the day will not come Bleak but passionately political in its analysis of the social destruction wrought by modern technologies of communication and surveillance Open Sky is Paul Virilio's most far reaching and radical book Deepening and extending his earlier work he explores the growing danger of what he calls a generalized accident provoked by the breakdown of our collective and individual relation to time space and movement in the context of global electronic media But this is not merely a lucid and disturbing lament for the loss of real geographical spaces distance intimacy or democracy Open Sky is also a call for revolt against the insidious and accelerating manipulation of perception by the electronic media and repressive political power against the tyranny of real time and against the infantilism of cyberhype Virilio makes a powerful case for a new ethics of perception and a new ecology one which will not only strive to protect the natural world from pollution and destruction but will also combat the devastation of urban communities by proliferating technologies of control and virtuality Les facteurs humains et organisationnels dans le projet de conception d'un système à risques François Daniellou, 2013-07-01 Pour favoriser des interventions humaines performantes et s res la d marche FHO se base sur une analyse approfondie de l activit humaine dans les situations existantes et sur une simulation de l activit probable lors des futures op rations en fonction des options techniques et organisationnelles qui se dessinent Elle suppose la mise en place d une ma trise d ouvrage forte une articulation pr cise avec la ma trise d uvre et une participation de diff rents acteurs notamment exploitants Les tapes de la d marche FHO doivent tre planifi es d s le d but de l avant projet et s tendent jusqu l valuation apr s d mariage Urban Planning for Transitions Nicolas Douay, Michael Minja, 2021-03-26 Today as cities undergo rapid and dynamic transformations riddled with uncertainties about the future the roles of urban planning and urban planners lie in one of these new crossroad moments Climate change urban migration social inclusion health emergencies and financial and economic crises have elevated urbanization to newer heights of complexity that can only be tackled by integrating a multitude of scenarios strategies and discourses in order to create an urban future that is resilient and sustainable Urban planners have come up with transition proposals and concepts that they hope will be able to respond to cities challenges and ultimately allow them to adapt and make the transition into more robust urban areas This book presents and discusses various urban transition strategies action plans and programs that have been proposed or even conducted in different countries all over the world Different countries require different strategies but they all have the same goal in mind each of them trying to address urban complexities and cope with the rapid pace at which the world is evolving *A Handbook to the Gallery of British Paintings in the Art Treasures Exhibition* Anonymous, 2023-09-20 Reprint of the original first published in 1857 Remaking the Readymade Adina Kamien-Kazhdan, 2018-05-11 Replication and originality are central concepts in the artistic oeuvres of Marcel Duchamp and Man Ray Remaking the Readymade reveals the underlying and previously unexplored processes and

rationales for the collaboration between Duchamp Man Ray and Arturo Schwarz on the replication of readymades and objects The 1964 editioned replicas of the readymades sent shock waves through the art world Even though the replicas undermined ideas of authorship and problematized the notion of identity and the artist they paradoxically shared in the aura of the originals becoming stand ins for the readymades Scholar poet dealer Arturo Schwarz played a crucial role opening the door to joint or alternate authorship an outstanding relationship between artist and dealer By unearthing previously unpublished correspondence and documentary materials and combining this material with newly conducted exclusive interviews with key participants Remaking the Readymade details heretofore unrevealed aspects of the technical processes involved in the re creation of iconic long lost Dada objects Launched on the heels of the centenary of Duchamp s Fountain this new analysis intensifies and complicates our understanding of Duchamp and Man Ray initial conceptions and raises questions about replication and authorship that will stimulate significant debate about the legacy of the artists the continuing significance of their works and the meaning of terms such as creativity originality and value in the formation of art

Sweden and Visions of Norway Hildor Arnold Barton, 2003 H Arnold Barton investigates Norwegian political and cultural influences in Sweden during the period of the Swedish Norwegian dynastic union from 1814 to 1905 After a proud medieval past Norway had come under the Danish crown in the fourteenth century and had been reduced to virtually a Danish province by the sixteenth In 1814 Denmark relinquished Norway which became a separate kingdom dynastically united with Sweden with its own constitutional government Disputes during the next ninety one years caused Norway unilaterally to dissolve the tie in 1905 Barton is the first historian to look beyond the cultural conflicts and examine the impact of the union on internal developments particularly in Sweden Prior to 1814 Norway unlike Sweden had no constitution and only the rudiments of higher culture yet paradoxically Norway exerted a greater direct influence on Sweden Reflecting a society lacking a native nobility Norway s 1814 constitution was with the exception of that of the United States the most democratic in the world It became the guiding star of Swedish liberals and radicals striving to reform the antiquated system of representation in their parliament Norway s cultural void was filled with a stellar array of artists writers and musicians led by Bjoernsjerne Boornson Henrik Ibsen and Edvard Grieg From the 1850s through the late 1880s this wave of Norwegian creativity had an immense impact on literature art and music in Sweden By the 1880s however August Strindberg led a revolt against an exaggerated Norvegomania in Sweden Barton sees this reaction as a fundamental inspiration to Sweden s intense search for its own cultural character in the highly creative Swedish National Romanticism of the 1890s and early twentieth century
