The Grandissimes Thomas J. Richardson,1981 **A Certain Slant of Light: Regionalism and the Form of Southern and Midwestern Fiction** , *Popular New Orleans* Florian Freitag,2020-10-01 New Orleans is unique which is precisely why there are many Crescent Cities all over the world for almost 150 years writers artists cultural brokers and entrepreneurs have drawn on and simultaneously contributed to New Orleans s fame and popularity by recreating the city in popular media from literature photographs and plays to movies television shows and theme parks Addressing students and fans of the city and of popular culture *Popular New Orleans* examines three pivotal moments in the history of New Orleans in popular media the creation of the popular image of the Crescent City during the late nineteenth century in the local color writings published in Scribner s Monthly Century Magazine the translation of this image into three dimensional immersive spaces during the twentieth century in Disney s theme parks and resorts in California Florida and Japan and the radical transformation of this image following Hurricane Katrina in public performances such as Mardi Gras parades and operas Covering visions of the Crescent City from George W Cable s Old Creole Days stories 1873 1876 to Disneyland s New Orleans Square 1966 to Rosalyn Story s opera *Wading Home* 2015 *Popular New Orleans* traces how popular images of New Orleans have changed from exceptional to exemplary **Swamp Souths** Kirstin L. Squint,Eric Gary Anderson,Taylor Hagood,Anthony Wilson,2020-03-04 *Swamp Souths* Literary and Cultural Ecologies expands the geographical scope of scholarship about southern swamps Although the physical environments that form its central subjects are scattered throughout the southeastern United States the Atchafalaya the Okefenokee the Mississippi River delta the Everglades and the Great Dismal Swamp this evocative collection challenges fixed notions of place and foregrounds the ways in which ecosystems shape cultures and creations on both local and global scales Across seventeen scholarly essays along with a critical introduction and afterword *Swamp Souths* introduces new frameworks for thinking about swamps in the South and beyond with an emphasis on subjects including Indigenous studies ecocriticism intersectional feminism and the tropical sublime The volume analyzes canonical writers such as William Faulkner Zora Neale Hurston and Eudora Welty but it also investigates contemporary literary works by Randall Kenan and Karen Russell the films *Beasts of the Southern Wild* and *My Louisiana Love* and music ranging from swamp rock and zydeco to Beyonc s visual album *Lemonade* Navigating a complex assemblage of places and ecosystems the contributors argue with passion and critical rigor for considering anew the literary and cultural work that swamps do This dynamic collection of scholarship proves that swampy approaches to southern spaces possess increased relevance in an era of climate change and political crisis **The South in the Building of the Nation: History of southern fiction, ed. by E. Mims** Julian Alvin Carroll Chandler,Franklin Lafayette Riley,James Curtis Ballagh,John Bell Henneman,Edwin Mims,Thomas Edward Watson,Samuel Chiles Mitchell,Walter Lynwood Fleming,Joseph Walker McSpadden,1909 *Savage Preservation* Brian Hochman,2014-11-15 During the late nineteenth and early twentieth

centuries writers and anthropologists believed that the world's primitive races were on the brink of extinction. They also believed that films, photographs, and phonographic recordings, modern media in their technological infancy, could capture lasting relics of primitive life before it vanished into obscurity. For many Americans, the promise of media and the problem of race were inextricably linked. While professional ethnologists tried out early recording machines to preserve the sounds of authentic indigenous cultures, photographers and filmmakers hauled newfangled equipment into remote corners of the globe to document rituals and scenes that seemed destined to vanish forever. In *Savage Preservation*, Brian Hochman shows how widespread interest in recording vanishing races and disappearing cultures influenced audiovisual innovation, experimentation, and use in the United States. Drawing extensively on seldom-seen archival sources from phonetic alphabets and sign language drawings to wax cylinder recordings and early color photographs, Hochman uncovers the parallel histories of ethnography and technology in the turn of the century period. While conventional wisdom suggests that media technologies work mostly to produce ideas about race, *Savage Preservation* reveals that the reverse has also been true. During this period, popular conceptions of race constructed the authority of new media technologies as reliable archives of the real. Brimming with nuanced critical insights and unexpected historical connections, *Savage Preservation* offers a new model for thinking about race and media in the American context and a fresh take on a period of accelerated technological change that closely resembles our own.

The Cavalier George Washington Cable, 2019-12-09 In *The Cavalier*, George Washington Cable masterfully weaves a tapestry of romance and adventure set against the backdrop of post-Civil War Louisiana. The narrative unfolds through the lives of its richly drawn characters, revealing the complexities of Southern society in the face of changing social norms. Cable's style is marked by vivid descriptions and a blend of realism and regionalism, creating an immersive experience that resonates with the cultural and historical landscape of the South. The novel delves into themes of honor, love, and the enduring impact of war, reflecting both the personal and broader societal struggles of its time. George Washington Cable, a prominent figure in Southern literature, was born in New Orleans and was intimately acquainted with the diverse cultural influences of the region. His own experiences as a Northern sympathizer during the Civil War shaped his understanding of the socio-political complexities of Southern life, informing his portrayal of characters and their moral dilemmas. Cable's commitment to social justice and his interest in the Creole culture find expression in this evocative narrative, offering a lens through which readers can examine the intricacies of identity and heritage. I wholeheartedly recommend *The Cavalier* to readers interested in American literature and the intricacies of Southern life. Cable's compelling storytelling and rich character development invite readers to explore the turbulent yet transformative period of the post-war South. This novel is a valuable addition to any literary collection, offering both historical insight and emotional depth.

American Routes Angel Adams Parham, 2017-03-21 *American Routes* provides a comparative and historical analysis of the migration and integration of white and free black refugees from nineteenth-century St. Domingue, Haiti, to Louisiana and

follows the progress of their descendants over the course of two hundred years The refugees reinforced Louisiana s tri racial system and pushed back the progress of Anglo American racialization by several decades But over the course of the nineteenth century the ascendance of the Anglo American racial system began to eclipse Louisiana s tri racial Latin Caribbean system The result was a racial palimpsest that transformed everyday life in southern Louisiana White refugees and their descendants in Creole Louisiana succumbed to pressure to adopt a strict definition of whiteness as purity that conformed to standards of the Anglo American racial system Those of color however held on to the logic of the tri racial system which allowed them to inhabit an intermediary racial group that provided a buffer against the worst effects of Jim Crow segregation The St Domingue Haiti migration case foreshadows the experiences of present day immigrants of color from Latin America and the Caribbean many of whom chafe against the strictures of the binary U S racial system and resist by refusing to be categorized as either black or white The St Domingue Haiti case study is the first of its kind to compare the long term integration experiences of white and free black nineteenth century immigrants to the U S In this sense it fills a significant gap in studies of race and migration which have long relied on the historical experience of European immigrants as the standard to which all other immigrants are compared

Contesting the Past, Reconstructing the Nation Ben Railton, 2007-09-30 In this study of Gilded Age literature and culture Ben Railton proposes that in the years after Reconstruction America s identity was often connected through distinct and competing conceptions of the nation s history Concerned with key social questions such as race Native Americans women and the South Contesting the Past Reconstructing the Nation provided close readings of a number of texts for the ways they highlight these issues This book examines established classics newer additions to the canon largely forgotten best sellers recovery gems and autobiographical works by Douglass and Truth poems by Harper and Piatt and short stories by Woolson and Cooke These readings contribute to ongoing conversations over historical literature s definition and value and a greater understanding of not only American society in the Gilded Age but also debates on our shared but contested history that remain very much alive in the present From publisher s description
