Homer praised the knowledge of ancient Egyptians who were extremely skilled in noninvasive surgery and treatment of ailments Ancient well known Greek and Roman medicine men like Galen and Hippocrates gained plenty of their knowledge studying in the University of Amenhotep and the great and glorious physician Lucanus known in Biblical history as Saint Luke studied under Greek and Egyptian physicians There were plenty of physicians who believe in spells and considered that disease was caused by evil demons Tibetan and other Eastern medicine still uses incantations to get rid of demons which have possessed a human or an animal body thus causing it to get sick In Indian and Chinese medicine the ancient doctors had a good knowledge of the human anatomy More than 4000 years ago doctors in India were practicing plastic surgery by making up noses from flaps of skin taken from other parts of the body In the same manner Chinese doctors knew all about blood circulation and acupuncture In fact Chinese medicine can be considered to be one of the most ancient scientific and knowledgeable science ever known to mankind in today s world It was well documented as was Egyptian medicine of which many ancient priceless papyri have been found Many of these ancient doctors knew about cause and effect even though the belief of disease causing demons possessing a body still lingers on in many parts of the East People are also under the impression that diseases are under the control and power of gods and goddesses who have to be placated so that they do not send an epidemic in the coming rainy season Egypt China Greece Mesopotamia and India were fertile lands That is why there was absolutely no reason why the people living here could not have plenty of healthy food to eat Grains fruit vegetables cereals spices nuts and other natural health giving food were in abundance This is why the ancients lived so long Because of this healthy natural diet and most of the people living outdoors ailments and illnesses were few That is why people of the 21st century are coming back to nature and looking for natural remedies based on fruit and vegetables which are going to cure them of diseases and ailments Chemical based drugs may heal you very well on a short term basis but they are going to have an everlasting long term effect on your body That is because they are made up of chemicals which do not suit the bio physiological functioning system of your body On the other hand fruits and vegetables as well as herbs are going to heal your body naturally while making sure that you do not suffer from any sort of side effects This is the reason why grandma s collected herbal lore and knowledge is all about the wonderful medical and beauty enhancing benefits of different herbs spices fruit vegetables and flowers

K. Hoy, 2023-10-19 The Last Priest of Jupiter Aidan M G Moore, 2013* In truth I found it hard going It is not clear whether it is intended to be a book of instruction about the Roman conquest of Britain or an adventure story of a young boy who learns the tricks of the fighting trade from the Romans with the intention of using them against the same Romans back in Ireland It turns out that this will not be necessary but that he will have to fight his uncle Niall who up to this point has been painted as a heroic figure At the end the future contact with Christianity is foreseen As an exposition of military and colonial problems in Britain and Ireland in the 5th century it is a wonderful piece of erudition The explanation of the different origins of names and customs shows a mastery of the history and politics of the day Similarly the story of the foreign cavalry in the Roman army The problem is that the reader is expecting an adventure yarn with frequent setbacks and heroic reversals culminating in some kind of temporary triumph The longer the book goes on the less this aspect is important Clearly the book needs a map of Britain and Ireland and it would make easier reading if the names of the towns and regions were given in English There needs to be a decision about which characters are important what happened Sal Bui The notes at the heads of the chapters are a distraction these should form a 20 page appendix at the end of the book A true adventure story would not have such openings because the story would be more important than the explanations I suggest that you break up long paragraphs and have a consisted way of dealing with things like quotation marks breaks

between paragraphs etc The difference between the followers of Christ and of Jesus is good so is the account of the raiding pirates from across the North Sea There are many other excellent things but ultimately I feel the book falls between two stools Roman history and adventure yarn An example is Ch 2 the initiation of Dathi which appears to have no further relevance to the story

The Meditation of My Heart Donald J. Richardson, 2008-07-03 The impetus for The Meditation of My Heart came fifty years ago when I was awarded a scholarship to Creighton Preparatory School in Omaha Nebraska which I attended for just over a week For it was with some dismay that I discovered the life of the contemplative was not for me Although Sister Mary Teracita had tried to communicate to me that a call to serve was not to be taken lightly that it demanded rigor both intellectually and spiritually I really didnt know what a call meant However my time as an altar boy and lay reader has served me over these intervening years so that today perhaps I do appreciate more fully the demands of a life of service in the interest of religion While such a life is extremely personal the contemplative also lives a life on public display an apparent contradiction one is forced to accept I admire anyone who can do this successfully
