Gilbert, 2016-09-01 Super Grandma Jeanne Classyca and Super Grandpa Patrizio Wannabee own schools and teach children about safety They save children who are in danger Super Grandma and Super Grandpa had flown to Florida at high speed by using their super turbo chargers When they got to Florida they used their super magical powers to rescue their two grandsons Marlen and Bobby who were kidnapped by two criminals at an amusement park After the kidnapping Marlen and Bobby wanted to wear masks and capes like Super Grandpa They didn't know that Super Grandma and Super Grandpa were their grandparents because they were The Unknown Superheroes When Marlen and Bobby were together or with their grandparents there were unknown super magical powers while rescuing children saving an airplane and when they played with Grandma Jeanne's two cats Sassy and Bugger Every time something magical happened Marlen and Bobby asked Grandma Jeanne and Grandpa Patrizio if there were super magical powers Their grandparents told them that it seemed to be magic and one day they would know how they always save children Would Marlen and Bobby find out if there were super magical powers Could it be that the super magical powers may have been handed down to them *Grandpa's Stories* Ronald (Ronn) L. Shank, 2012-09-17 A number of years ago now as one of my grandsons first birthday approached I thought about what to give a one year old There are a million things that will be played with for a short while then either broken or ignored I wanted to give something special something lasting something that even when older he might still enjoy Then it struck me since he likes the silly little stories I tell him upon his request that maybe I could write some cute little short stories with a moral as well just for him and any of my other grandchildren as well when shared That's all it took to get me started Since then each year I write a little story that somehow relates to something in his life When another grandchild came along he also was added to the list of recipients of original stories When I got to thinking about it I decided there may

be other grandparents that would like to spend time with their grandchild reading a little story Now a few years down the pike and I have enough for a book And so herein I offer my readers a chance to share the joy of time spent reading to a child That is why my stories were written in the first place Children go through phases as with my grandchildren there were the dinosaurs whales especially the blue whale hedge hogs puppies and gold fish Im sure you get my drift All of these fed my imagination and help to produce stories that have a connection and personal touch for both the child and me These stories are not written for children to read but rather for a loving adult to sit down with child on their lap or side by side on a shared sofa and be read to I recommend using funny voices and lots of emphasis and maybe a tickle or two at just the right moment to add flavor and a garnish to each story The giggles like sparklers on the 4th of July will shower joy in all directions and warm the heart of the one reading the story and those close by Do not be concerned about the content all the stories contained in this book are rated PG to be read by Parent or Grandparent I hope you will enjoy these short stories even more than I did writing them Super Grandma and Super Grandpa: the Unknown Superheroes Book 1 Christine J.

Grandfathers Ann Buchanan,Anna Rotkirch,2016-09-24 This is the first book to bring together international scholars from around the world and from a wide variety of disciplines to discover what is known about grandfathers and analyse the impact of close involvement with their grandchildren Within the context of increased divorce rates single parent families and healthier more active elders grandfathers have come out of the shadows and re invented themselves in a new caring nurturing role These original studies demonstrate that grandfather involvement is independently and positively associated with higher levels of child well being in the UK and South Africa as well as in Arab and Israeli teenagers and pre school children in England The chapters conclude that societies could benefit from encouraging more grandfathers to become actively involved in their grandchildren s lives and argues the case for grandparent visitation rights in those countries that currently do not have them
