Abel, 2009-06-30 The image of the female caregiver holding a midnight vigil at the bedside of a sick relative is so firmly rooted in our collective imagination we might assume that such caregiving would have attracted the scrutiny of numerous historians As Emily Abel demonstrates in this groundbreaking study of caregiving in America across class and ethnic divides and over the course of ninety years this has hardly been the case While caring for sick and disabled family members was commonplace for women in nineteenth and early twentieth century America that caregiving the caregivers experience of it and the medical profession's reaction to it took diverse and sometimes unexpected forms A complex series of historical changes Abel shows has profoundly altered the content and cultural meaning of care Hearts of Wisdom is an immersion into that world of care Drawing on antebellum slave narratives white farm women's diaries and public health records Abel puts together a multifaceted picture of what caregiving meant to American women and what it cost them from the pre Civil War years to the brink of America's entry into the Second World War She shows that caregiving offered women an arena in which experience could be parlayed into expertise while at the same time the revolution in bacteriology and the transformation of the formal health care system were weakening women's claim to that expertise Table of Contents Acknowledgments Introduction Part One 1850 1890 1 Hot Flannels Hot Teas and a Great Deal of Care Emily Hawley Gillespie and Sarah Gillespie 1858 1888 2 An Overview of Nineteenth Century Caregiving 3 Tried at the Quilting Bees Conflicts between Old Ladies and Aspiring Professionals Part Two 1890 1940 4 A Terrible and Exhausting Struggle Martha Shaw Farnsworth 1890 1924 5 Just as You Direct Caregiver Translations of Medical Authority 6 Negotiating Public Health Directives Poor New Yorkers at the Turn of the Century Reviews of this book This excellent historical review of female caregiving within families as a transformative experience identifies conditions that make this form of human connectedness rewarding and meaningful J E Thompson Choice This is a breathtaking work in terms of its depth and its breadth Emily Abel

s research is impressive in its time frame wide range of topics and wonderful source material What she has given us for the first time is a full length study of the female support network not only for childbirth but for a whole range of health issues With her pleasing writing style and clear readable prose she gives us much more than mere glimpses of anonymous people she provides the reader with a sense of the texture of human lives Susan L Smith University of Alberta The reader of *Hearts of Wisdom* is surprised by the topic and content but is left with the sense that the most central story of human possibility has been left out of all other history books The work offers a substantive contribution to history feminist scholarship caregiving professions and informal caregivers Patricia Benner R N Ph D University of California San Francisco *Who Cares for the Elderly?* Emily K. Abel,1991 Although caregiving is predominantly women s work care for the elderly is largely absent from the feminist agenda in this country Emily K Abel presents a compelling and sensitive report that describes the experience of caregiving from the perspective of adult daughters She places their stories in the context of an analysis of existing policies and services for the elderly and traces the history of family caregiving in the U S since 1800 Through in depth open ended interviews with 51 women who were caring for one or both parents Abel explores how caregivers themselves understand their endeavors Poignant excerpts from these interviews reveal the overwhelming sense of responsibility that these women feel for their parents lives how they protect their parents dignity and the isolation and lack of support that is faced in these homecare situations While policy analysts speak of filial responsibility Abel allows the adult daughters to interpret its meaning in heart rending detail In her examination of how public policies affect the nature of caregiving at home Abel argues that the amount of care women deliver to elderly relatives is determined not only by demographic trends but by the inadequacies of the long term care system in the U S Author note Emily K Abel is Adjunct Associate Professor in the School of Public Health at the University of California Los Angeles She has published several books and is co editor with Margaret K Nelson of *Circles of Care Work and Identity in Women s Lives* *Brought to Bed* Judith Walzer Leavitt,2016-11-01 This classic work reveals how childbirth has changed from colonial times to the present including a new preface that discusses writings on the subject over the past three decades **The Canadian Patent Office Record and Register of Copyrights and Trade Marks** ,1929 **Bulletin** Public Library of Fort Wayne and Allen County,1927 [From Fireplace to Cookstove](#) Priscilla J. Brewer,2000-09-01 Priscilla J Brewer examines the development and history of the first American appliance the cast iron stove that created a quiet but culturally contested transformation of domestic life and sparked many important debates about the role of women industrialization the definition of social class and the development of a consumer economy Brewer explores the shift from fireplaces to stoves for cooking and heating in American homes and sheds new light on the supposedly separate spheres of home and world of nineteenth century America She also considers the changing responses to technological development the emergence of a consumption ethic and the attempt to define and preserve distinct Anglo American middle class culture There are few works that treat this significant subject and Brewer covers impressive new
