Hydropolitics in the West Bank and Gaza Strip Julie Trottier, 1999 Marginality and Exclusion in Egypt Ray Bush, Habib Ayeb, 2012-06-14 What does it mean to be marginalized Is it a passive condition that the disadvantaged simply have to endure Or is it a manufactured label reproduced and by its nature transitory In the wake of the new uprising in Egypt this insightful collection explores issues of power politics and inequality in Egypt and the Middle East It argues that the notion of marginality tends to mask the true power relations that perpetuate poverty and exclusion It is these dynamic processes of political and economic transformation that need explanation The book provides a revealing analysis of key areas of Egyptian political economy such as labour urbanization and the creation of slums disability refugees street children and agrarian livelihoods reaching the impactful conclusion that marginalization does not mean total exclusion What is marginalized can be called upon to play a dynamic part in the future as is the case with the revolution that toppled President Mubarak

Aménagement étatique, gestion sociale de l'eau et dynamiques institutionnelles dans la PMH au Maroc Ahmed Benali, 2006 Dans la mouvance des politiques d'ajustement structurel la gestion de l'eau connaît des mutations profondes dues principalement à la redéfinition du rôle de l'état dans ce secteur Au Maroc l'une des principales conséquences de cette réforme est l'émergence des associations des usagers des eaux agricoles Cette institution qui œuvre dans un cadre renouvelé aux structures informelles déjà en place rencontre beaucoup de difficultés pour mener sa mission Cette recherche de type empirique essaye d'appréhender une meilleure compréhension de la dynamique des institutions de gestion de l'eau Elle est menée au travers d'analyses croisées où un ensemble de disciplines convergent pour appréhender la gestion de l'eau Elle commence par une approche historique retracer le processus du développement de l'irrigation au Maroc Elle s'intéresse ensuite au Ghiss qui par son histoire sa diversité complexe de gestion des ressources hydriques constitue un laboratoire intéressant pour l'étude de la gestion sociale de l'eau Le rôle des acteurs a permis d'analyser l'évolution des institutions relatives à la gestion de l'eau Le maintien des acteurs locaux malgré la tentative de domination des acteurs nationaux et supranationaux a montré la capacité de résistance des premiers Ces réponses locales mettent en lumière la capacité de ces acteurs d'initier des changements qui répondent aux aspirations locales tout en préservant les acquis du passé En même temps ils essaient de s'adapter aux possibilités offertes par les changements en cours La place que doit réserver l'état à ces initiatives est questionnée Nous préconisons un état facilitateur et négociateur plutôt qu'entrepreneur et administrateur c'est dans ce sens que nous avons adopté le nouveau concept d'indifférence positive à l'état L'information qualitative recueillie ainsi que le modèle théorique sont utilisés pour réaliser un exercice de prospective Celui-ci permet de montrer l'existence de plusieurs facteurs susceptibles d'entraîner un échec de cette transition institutionnelle Quelques mesures permettant de limiter ce risque sont recommandées
