Granta 29 The Soviet Union:

Soviet Internationalism after Stalin Tobias Rupprecht, 2015-08-06 The first multi archive based study of Soviet relations with Latin America from the 1950s through the 1980s **Forthcoming Books** Rose Army, 1990 The Memory of the Second World War in Soviet and Post-Soviet Russia David L. Hoffmann, 2021-08-26 This volume showcases important new research on World War II memory both in the Soviet Union and in Russia today Through an examination of war remembrance in its various forms official histories school textbooks museums monuments literature films and Victory Day parades chapters illustrate how the heroic narrative of the war was established in Soviet times and how it continues to shape war memorialization under Putin This war narrative resonates with the Russian population due to decades of Soviet commemoration which continued virtually uninterrupted into the post Soviet period Major themes of the volume include the use of World War II memory for political legitimation and patriotic mobilization the striking continuities between Soviet and post Soviet commemorative practices the place of Holocaust memorialization in contemporary Russia Putin's invocation of the war to bolster national pride and international prestige and the relationship between individual memory and collective remembrance Authored by an international group of distinguished specialists this collection is ideal for scholars of Russia across a range of disciplines including history political science sociology and cultural studies **Myth Making in the Soviet Union and Modern Russia** Vicky Davis, 2017-11-30 The 1943 battle to free the Soviet Black Sea port of Novorossiisk from German occupation was fought from the beach head of Malaia zemlia where the young Colonel Leonid Brezhnev saw action Despite widespread scepticism of the state's appropriation and inflation of this historical event the heroes of the campaign are still commemorated in Novorossiisk today by an amalgam of memoir monuments and ritual Through the prism of this provincial Russian town Vicky Davis sheds light on the character of Brezhnev as perceived by his people and on the process of memory for the ordinary Russian citizen Davis analyses the construction and propagation of the local war myth to link the individual citizens of Novorossiisk with evolving state policy since World War II and examines the resultant social and political connotations Her compelling new interdisciplinary evidence reveals the complexity of myth and memory challenging existing assumptions to show that there is still scope for the local community and even the individual in memory construction in an authoritarian environment This book represents a much needed departure from the study of myth and memory in larger cities of the former Soviet Union adding nuance to the existing portrait of Brezhnev and demonstrating the continued importance of war memory in Russia today **Justice, Crime, and Citizenship in Eurasia** Erica Marat, Lauren A. McCarthy, 2022-08-18 What role does law play in post communist societies This book examines the law as a social institution in Eurasia exploring how it is shaped in everyday interactions between state and society organisations and individuals and between law enforcement and other government entities It bridges the gap between theoretically rich work on law in action and the empirical reality of Eurasia The contributions in this volume include research on policing the legal

profession public attitudes towards law regime support and oppositional mobilisation crime policy and property rights among others The studies shift away from the common perception that in Eurasia the law exists only as a tool for the state to enforce order and suppress dissent Instead they show through empirical analyses that citizens evade use reinterpret and shape the law even in authoritarian contexts sometimes containing state violence and challenging the regime and other times reinforcing state capture from below The chapters in this book were originally published as a special issue of the journal Europe Asia Studies

The Soviet-East European Relationship In The Gorbachev Era Aurel Braun,2019-07-15 This book focuses on the nature of the Soviet East European relationship in the Gorbachev era and on the prospects for the adaptation of that relationship to changing conditions in today s world examining trends and tendencies in Soviet East European relations

Popular Support for an Undemocratic Regime Richard Rose,William Mishler,Neil Munro,2011-06-02 To survive all forms of government require popular support whether voluntary or involuntary Following the collapse of the Soviet system Russia s rulers took steps toward democracy yet under Vladimir Putin Russia has become increasingly undemocratic This book uses a unique source of evidence eighteen surveys of Russian public opinion from the first month of the new regime in 1992 up to 2009 to track the changing views of Russians Clearly presented and sophisticated figures and tables show how political support has increased because of a sense of resignation that is even stronger than the unstable benefits of exporting oil and gas Whilst comparative analyses of surveys on other continents show that Russia s elite is not alone in being able to mobilize popular support for an undemocratic regime Russia provides an outstanding caution that popular support can grow when governors reject democracy and create an undemocratic regime

Soviet-Born Karolina Krasuska,2024-07-12 In 2010 when The New Yorker published a list of twenty writers under the age of forty who were key to their generation it included five Jewish identified writers two of whom American Gary Shteyngart and Canadian David Bezmozgis were Soviet born This publicity came after nearly a decade of English language literary output by Soviet born writers of all genders in North America *Soviet Born The Afterlives of Migration in Jewish American Fiction* traces the impact of these now numerous authors among others David Bezmozgis Boris Fishman Keith Gessen Sana Krasikov Ellen Litman Gary Shteyngart Anya Ulinich and Lara Vapnyar on major coordinates of the Jewish American imaginary Entering an immigrant Soviet born standpoint creates an alternative and sometimes complementary pattern of how the Eastern and Central European past and present resonate with American Jewishness The novels short stories and graphic novels considered here often stage strikingly fresh variations on key older themes including cultural geography the memory of World War II and the Holocaust communism gender and sexuality genealogy and finally migration *Soviet Born* demonstrates how these diasporic writers with their critical stance toward identity categories open up the field of what is canonically Jewish American to broader contemporary debates This book is also freely available online as an open access digital edition

Stalinist Society Mark Edele,2011-02-17

Everyday Communists in South Africa's Liberation Struggle Alan Kirkaldy,2021-11-10 This book explores the role of social movements in the Southern African liberation struggle through the lens of two everyday communists Focusing on the Communist Party of South Africa CPSA the author explores the lives of Ivan and Lesley Schermbrucker whose contribution to the party was more clandestine than that of leaders such as Bram Fischer and Joe Slovo They represent how ordinary people could play significant roles based on stances more rooted in common decency and morality than in Marxist theory The book also sheds light on the interplay between transnational and national tendencies during the liberation movement particularly between the 1940s and the 1960s The Schermbruckers changed their views in response to the shifting national and international political landscape the rise of Stalinism and the flight of South African activists into exile from the 1960s Both

Canada Among Nations, 1989 Maureen Appel Molot,Fen Osler Hampson,1990-05-15 This is the sixth volume on Canada in international affairs produced by The Norman Paterson School of International Affairs at Carleton University As in the past the book is organized around the most recent calendar year and contains an analysis and assessment of Canadian foreign policies as well as the environment that constrains and shapes them Our intention is to contribute to the continuing debate about appropriate policy choices for Canada The theme of the 1989 edition is the challenge of change Contributors examine many of the very significant events of this past year among them the changes in the Communist world in the global economy in Southern Africa and Central America and the Canadian responses to them *The Making of Détente* Wilfried Loth,George Soutou,2010-04-05 Containing essays by leading Cold War scholars such as Wilfried Loth Geir Lundestad and Seppo Hentil this volume offers a broad ranging examination of the history of détente in the Cold War The ten years from 1965 to 1975 marked a deep transformation of the bipolar international system of the Cold War The Vietnam War and the Prague Spring showed the limits of the two superpowers who were constrained to embark on a wide ranging détente policy which culminated with the SALT agreements of 1972 At the same time this very détente opened new venues for the European countries French policy towards the USSR and the German Ostpolitik being the most evident cases in point For the first time since the 1950s Western Europe began to participate in the shaping of the Cold War The same could not be said of Eastern Europe but ferment began to establish themselves there which would ultimately lead to the astounding changes of 1989 90 the Prague Spring the uprisings in Gdansk in 1970 and generally the rise of the dissident movement That last process being directly linked to the far reaching event which marked the end of that momentous decade the Helsinki conference The Making of Détente will appeal to students of the Cold War international history and European contemporary history

Economic War Maximilian Hess,2025-04-17 Winner of the US Russia Relations Book Prize from the Fletcher School of Law and Diplomacy Tufts University Vladimir Putin's first invasion of Ukraine in 2014 set off a global economic clash as the West used its clout with international markets to deter and penalise the Kremlin The battlelines of this war by other means traversed a series of deep economic connections built up during Russia's oil gas and commodities boom global equity and

capital markets and transnational kleptocracy Maximilian Hess's startling book lifts the lid on Russia's response to Western sanctions and the ensuing skirmishes in London's courts on Swiss trading desks and in boardrooms in New Delhi He explores how pipelines mines loans and crypto markets were weaponised This narrative sets the stage for Putin's all out assault on Kyiv in February 2022 which turned financial food and fuel markets into bona fide battlefields bringing the fight into everyone's home from Pennsylvania to Pakistan Rather than a new Cold War we are witnessing a conflict over finance energy and capital markets How such economic warfare turns out will determine the future of liberalism and democracy it will also set a precedent for economic relations between the West and China as the two diverge into rival spheres of influence and power
