Granta 52: Food The Vital Stuff - A Paperback Magazine Of New Writing Graham Swift, J.M. Coetzee And John Lanchester Ian Jack, **Ellipsis 2** Jane Rogers, Polly Clark, Zoe Lambert, 2013-12-03 A bank manager arrives at work one day to find himself the new employer of his ex wife In the middle of a shift a divorced bus driver abandons his vehicle to search for his estranged son Two sisters come to terms with their father's disappearance with the help of a skeleton called Indira The stories in *Ellipsis 2* explore the inherent dysfunctionality of almost all relationships their aftermaths and the lengths people go to to redeem them From the ingrained resentments of Jane Rogers parent child histories to the twisted claustrophobia of Polly Clark's couples and the absence that travels beside each passenger in Zoe Lambert's bus sequence these stories demonstrate the transforming often alienating affect a relationship can have on the individuals in it and remind us that being next of kin isn't always kind *Ellipsis* is a unique series presenting linked or themed sequences of short stories by three writers in each volume All three are previously uncollected as short story authors two of them in each issue are established as novelists or poets the third in this case Zoe Lambert is previously unpublished **Kitchen Secrets** Frances Short, 2006-04-01 What's really going on in the kitchen Whilst cookery programmes are broadcast at peak viewing times and chefs regularly claim celebrity status food writers announce the death of cooking Parents experts campaigners and policymakers grow increasingly concerned about the proliferation of pre prepared foods and a growing trend for eating alone and on the run *Kitchen Secrets* explores the thoughts values and opinions of home cooks their practices and experiences and the skills and knowledge they use to prepare and provide food It offers new and challenging ways of thinking about cooking examining and often contesting commonly held beliefs and theories about the role of practical cookery lessons dinner parties as showcases for culinary flair and the de skilling effect of convenience foods *Kitchen Secrets* lifts the lid on the modern range to see what's cooking *Wine, Food & the Arts, Volume II* The American Institute of Wine & Food, 2004-04-01 From birth until death food and drink are the keystones of human existence as eating and drinking have always sustained our imaginations as well as our bodies feeding our common need for art In these volumes the American Institute of Wine Food gathers together the imaginative fare of writers artists chefs food historians and children to celebrate and illustrate gastronomy the art and science of eating Writings from Michael Jackson Sharon Olds Michael Dorris Margaret Visser Charles Simic Carol Field and David Mas Masumoto among others join with the art of painters and photographers such as Frida Kahlo Tessa Traeger Diego Rivera Gary Kelley Jeffrey Alford and Naomi Duguid Together these offerings represent some of the best culinary works of past and present and produce a feast for both the eyes and the mind *Voracious Children* Carolyn Daniel, 2006-02-22 *Voracious Children* explores food and the way it is used to seduce to pleasure and coerce not only the characters within children's literature but also its readers There are a number of gripping questions concerning the quantity and quality of the food featured in children's fiction that immediately arise why are feasting fantasies so prevalent

especially in the British classics What exactly is their appeal to historical and contemporary readers What do literary food events do to readers Is food the sex of children s literature The subject of children eating is compelling but why is it that stories about children being eaten are not only horrifying but also so incredibly alluring This book reveals that food in fiction does far far more than just create verisimilitude or merely address greedy readers desires The author argues that the food trope in children s literature actually teaches children how to be human through the imperative to eat good food in a proper controlled manner Examining timely topics such as childhood obesity and anorexia the author demonstrates how children s literature routinely attempts to regulate childhood eating practices and only award subjectivity and agency to those characters who demonstrate normal appetites Examining a wide range of children s literature classics from Little Red Riding Hood to The Lion the Witch and the Wardrobe this book is an outstanding and unique enquiry into the function of food in children s literature and it will make a significant contribution to the fields of both children s literature and the growing interdisciplinary domain of food culture and society
