The **Graphic Communication Handbook** is a comprehensive and detailed introduction to the theories and practices of the graphics industry. It traces the history and development of graphic design, explores issues that affect the industry, examines its analysis through communications theory, explains how to do each section of the job, and advises on entry into the profession. The **Graphic Communication Handbook** covers all areas within the industry, including pitching, understanding the client, researching a job, thumbnail drawings, developing concepts, presenting to clients, working in 2D/3D motion graphics, and interaction graphics, situating and testing the job, getting paid, and getting the next job. The industry background, relevant theory, and the law related to graphic communications are situated alongside the teaching of the practical elements. Features include introductions that frame relevant debates, case studies, examples, and illustrations from a range of campaigns, philosophical and technical explanations of topics, and their importance.

The Routledge Handbook of Magazine Research David Abrahamson, Marcia R. Prior-Miller, 2015-06-05 Scholarly engagement with the magazine form has in the last two decades produced a substantial amount of valuable research. Authored by leading academic authorities in the study of magazines, the chapters in **The Routledge Handbook of Magazine Research** not only create an architecture to organize and archive the developing field of magazine research but also suggest new avenues of future investigation. Each of 33 chapters surveys the last 20 years of scholarship in its subject area, identifying the major research themes, theoretical developments, and interpretive breakthroughs. Exploration of the digital challenges and opportunities which currently face the magazine world are woven throughout, offering readers a deeper understanding of the magazine form as well as of the sociocultural realities it both mirrors and influences. The book includes six sections: Methodologies and structures, presents theories and models for magazine research in an evolving global context, Magazine publishing: the people and the work, introduces the roles and practices of those involved in the editorial and business sides of magazine publishing, Magazines as textual communication, surveys the field of contemporary magazines across a range of theoretical perspectives, subjects, genre, and format questions, Magazines as visual communication, explores cover design, photography, illustrations, and interactivity, Pedagogical and curricular perspectives, offers insights on undergraduate and graduate teaching topics in magazine research, The future of the magazine form, speculates on the changing nature of magazine research via its environmental effects, audience, and transforming platforms.
