Jan Van Toorn Rick Poynor,2008 Jan van Toorn is one of the most significant and influential Dutch graphic designers to have emerged since the early 1960s His designs persistently call attention to their status as visual contrivances obliging the viewer to make an effort to process their complexities Van Toorn wants the public to measure the motives of both the client and the designer who mediates the client's message against their own experiences of the world He hoped in this way to stimulate a more active and skeptical view of art communication media ownership and society Projects such as Van Toorn's posters and catalogues for the Van Abbemuseum in Eindhoven and his long running series of calendars for the printing firm Mart Spruijt are powerful demonstrations of graphic design used as a means of commentary and as a tool of critique Later as director of the Jan van Eyck Academy Van Toorn drew together all the strands of his critical practice into a multi levelled educational initiative that urged designers to think harder about design's role in shaping contemporary reality
