Documentary Graphic Novels and Social Realism Jeff Adams,2008 This book analyses graphic novels which document social crises It demonstrates that artists documentary use of this medium is a form of social realism inextricably bound up with politics and ideology Theoretical and visual approaches are employed throughout introducing the principal themes of the graphic novels under scrutiny political realism visual documentary traumatic childhood ethnic discrimination state oppression and military occupation The key works examined are Keiji Nakazawa s Barefoot Gen Joe Sacco s Palestine Marjane Satrapi s Persepolis W G Sebald s Emigrants and Art Spiegelman s Maus Innovative techniques radical methods of depiction sequence and text organisation are analysed throughout to explain how the authors use visual realism to represent these social crises The book is well illustrated as a visual support for its exploration of this emerging and vital documentary medium Handbook of Comics and Graphic Narratives Sebastian Domsch,Dan Hassler-Forest,Dirk Vanderbeke,2021-07-05 Whether one describes them as sequential art graphic narratives or graphic novels comics have become a vital part of contemporary culture Their range of expression contains a tremendous variety of forms genres and modes from high to low from serial entertainment for children to complex works of art This has led to a growing interest in comics as a field of scholarly analysis as comics studies has established itself as a major branch of criticism This handbook combines a systematic survey of theories and concepts developed in the field alongside an overview of the most important contexts and themes and a wealth of close readings of seminal works and authors It will prove to be an indispensable handbook for a large readership ranging from researchers and instructors to students and anyone else with a general interest in this fascinating medium **Transmedial Narratology and Contemporary Media Culture** Jan-Noël Thon,2016-08-01 It has become something of a cliché within the field of narratology to assert the commercial aesthetic and sociocultural relevance of narrative representations but the fact remains that narratives are everywhere Whenever we read a novel or a comic watch a film or an episode of our favorite television series or play the latest video game we are likely to engage with narrative media

Similarly the intermedial adaptations and transmedial entertainment franchises that have become increasingly visible during the past few decades are at their core narrative forms Since a significant part of contemporary media culture is defined by the narratives we tell each other via various media the media studies discipline needs a genuinely transmedial narratology Transmedial Narratology and Contemporary Media Culture focuses on the intersubjective construction of storyworlds as well as on prototypical forms of narratorial and subjective representation It provides not only a method for the analysis of salient transmedial strategies of narrative representation in contemporary films comics and video games but also a theoretical frame within which medium specific approaches from literary and film narratology from comics studies and game studies and from various other strands of media and cultural studies may be employed to further our understanding of narratives across media

Jan No l Thon is a research associate in the Department of Media Studies at the University of T bingen Germany He is the coeditor of a number of books on narrative and media studies including From Comic Strips to Graphic Novels Contributions to the Theory and History of Graphic Narrative and Storyworlds across Media Toward a Media Conscious Narratology Nebraska 2014
