Chapman, 2019-01-21 In *Expressionism and Poster Design in Germany 1905-1925* Kathleen Chapman re defines Expressionism by situating it in relation to the most common type of picture in public space during the Wilhelmine twentieth century the commercial poster Focusing equally on visual material and contemporaneous debates surrounding art posters and the image in general this study reveals that conceptions of a modern image were characterized not so much by style or mode of production and distribution but by a visual rhetoric designed to communicate more directly than words As instances of such rhetoric Expressionist art and posters emerge as equally significant examples of this modern image demonstrating the interconnectedness of the aesthetic the utilitarian and the commercial in European modernism **German Expressionist Prints** Stephanie D'Alessandro, 2003 The Specks Collection is noted for its high quality breadth and profound graphic power In celebration of the gift to the museum the collection is presented here for the first time in its entirety *The Graphic Art of German Expressionism* Lothar-Günther Buchheim, 1960 **Expressionism** Dietmar Elger, 2002 *The German Expressionists* Bernard S. Brandt, Eleanor M. Hight, Ashley Kistler, Sabine Schultz, 1987 **German Expressionist Sculpture** Stephanie Barron, 1983 The volume presents a survey of German expressionist sculpture Expressionism was a modernist movement initially in poetry and painting originating in Germany at the beginning of the 20th century Its typical trait is to present the world solely from a subjective perspective distorting it radically for emotional effect in order to evoke moods or ideas Expressionist artists sought to express meaning or emotional experience rather than physical reality The term is sometimes suggestive of emotional angst The Expressionist emphasis on individual perspective has been characterized as a reaction to positivism and other artistic styles such as naturalism and impressionism This work contains more than one hundred and twenty examples of German Expressionist sculpture by thirty three artists Included are sculptures by artists recognized for their work in this medium Ernst Barlach Wilhelm Lehmbruck Georg Kolbe Renee Sintenis Gerhard Marcks as well as sculpture by such figures as Kathe Kollwitz Ernst Ludwig Kirchner Erich Heckel Karl Schmidt Rottluff Emil Nolde Max Beckmann Egon Schiele and Otto

Freundlich whose reputations are based on their painting and graphic oeuvres A significant number of works by lesser known artists who belonged to the second generation of Expressionism in the twenties among them Herbert Garbe Conrad Felixmuller Paul Rudolf Henning William Wauer and Christoph Vollare also examined Included in the catalog are examples of the artists varied writings as well as evaluations by contemporary critics scholars writers and poets Seven essays and excerpts from contemporary texts published in translation for the first time highlight the German Expressionists concern with particular materials and their attraction to African and Oceanic art

[German Expressionist Prints and Drawings: Essays](#) Robert Gore Rifkind Center for German Expressionist Studies,Stephanie Barron,Bruce Davis,1989 *German Expressionist Painting* Peter Selz,2023-04-28 Published in 1957 German Expressionist Painting was the first comprehensive study of one of the most pivotal movements in the art of this century When it was written however German Expressionism seemed like an eccentric manifestation far removed from what was then considered the mainstream of modern art But as historians well know each generation alters the concept of mainstream to encompass those aspects of the past which seem most relevant to the present The impact of German Expressionism on the art and thought of later generations could never have been anticipated at the time of the original writing of this book During the subsequent years an enormous body of scholarly research and an even larger number of popular books on German expressionist art has been printed Numerous monographs and detailed studies on most of the artists exist now and countless exhibitions with accompanying catalogues have taken place Much of this new research could have been incorporated in a revised edition and the bibliography certainly could have been greatly expanded to include the important writings which have been published in Germany the United States and elsewhere since this book was originally issued The author however was faced with the choice of reprinting the original text with only the most necessary alterations such as updating the captions to indicate present locations of the paintings or the preparation of a revised text and bibliography Desirable as a revision appeared present printing costs would have priced the paperback out of reach for students It is for this reason that I decided to reissue the original text which stands on its own as a primary investigation of German Expressionist Painting
