Grasshoppers And Butterflies The Light 3pounders Of Pattison And Townshend:

Rebellion in the Mohawk Valley Gavin K. Watt, 2002-05-01 In the summer of 1777 while the British and the Americans were engaged in the bitter American Revolution a massive campaign was launched from Canada into New York State Brigadier Barry St Leger led a crucial expedition from Lake Ontario into the Mohawk Valley The goal was to travel by waterways to join Lieutenant General John Burgoyne in the siege of Albany But Leger encountered obstacles along the way While laying siege to Fort Stanwix Leger received word that Benedict Arnold was leading a massive relief column that was headed their way Leger and his men retreated and despite a later attempt to carry on were never able to help Burgoyne The Americans then destroyed the British held Fort Ticonderoga marking the end of the campaign The results of the failed St Leger expedition were historic Not only was the loss of Fort Ticonderoga a major blow to the British war effort but the campaign also brought about the disillusionment of the Iroquois Confederacy and saw the founding of the infamous Butler's Rangers and the first major campaign of Sir John Johnson's King's Royal Regiment

The Burning of the Valleys Gavin K. Watt, 1997-03-01 In the fifth year of the War of Independence while the Americans focused on the British thrust against the Carolinas the Canadian Department waged a decisive campaign against the northern frontier of New York Their primary target was the Mohawk River region known to be the grain bowl that fed Washington's armies The Burning of the Valleys details the actions of both sides in this exciting and incredibly effective British campaign General Frederick Haldimand of Canada possessed a potent force formed by the deadly alliance of toughened embittered Tories who had abandoned their families and farms in New York and Pennsylvania to join the King's Provincial regiments in Canada and the enraged Six Nations Iroquois whose towns and farmlands had been utterly devastated by Continentals in 1779 The Governor augmented this highly motivated force with British and German regulars and Canadian Iroquois In October without benefit of modern transportation communications or navigational aids four coordinated raids each thoroughly examined in this book penetrated deeply into American territory The raiders fought skirmishes and battles took hundreds of prisoners burned forts farms and mills and destroyed one of the finest grain harvests in living memory

With Zeal and With Bayonets Only Matthew H. Spring, 2012-11-08 The image is indelible densely packed lines of slow moving Redcoats picked off by American sharpshooters Now Matthew H Spring reveals how British infantry in the American Revolutionary War really fought This groundbreaking book offers a new analysis of the British Army during the American rebellion at both operational and tactical levels Presenting fresh insights into the speed of British tactical movements Spring discloses how the system for training the army prior to 1775 was overhauled and adapted to the peculiar conditions confronting it in North America First scrutinizing such operational problems as logistics manpower shortages and poor intelligence Spring then focuses on battlefield tactics to examine how troops marched to the battlefield deployed advanced and fought In particular he documents the use of turning movements the loosening of formations and a reliance on bayonet oriented shock tactics and he also highlights the army's

ability to tailor its tactical methods to local conditions Written with flair and a wealth of details that will engage scholars and history enthusiasts alike *With Zeal and with Bayonets Only* offers a thorough reinterpretation of how the British Army's North American campaign progressed and invites serious reassessment of most of its battles **A Devil of a Whipping** Lawrence E. Babits, 2011-02-01 The battle of Cowpens was a crucial turning point in the Revolutionary War in the South and stands as perhaps the finest American tactical demonstration of the entire war On 17 January 1781 Daniel Morgan's force of Continental troops and militia routed British regulars and Loyalists under the command of Banastre Tarleton The victory at Cowpens helped put the British army on the road to the Yorktown surrender and ultimately cleared the way for American independence Here Lawrence Babits provides a brand new interpretation of this pivotal South Carolina battle Whereas previous accounts relied on often inaccurate histories and a small sampling of participant narratives Babits uses veterans' sworn pension statements long forgotten published accounts and a thorough knowledge of weaponry tactics and the art of moving men across the landscape He identifies where individuals were on the battlefield when they were there and what they saw creating an absorbing common soldier's version of the conflict His minute by minute account of the fighting explains what happened and why and in the process refutes much of the mythology that has clouded our picture of the battle Babits put the events at Cowpens into a sequence that makes sense given the landscape the drill manual the time frame and participants' accounts He presents an accurate accounting of the numbers involved and the battle's length Using veterans' statements and an analysis of wounds he shows how actions by North Carolina militia and American cavalry affected the battle at critical times And by fitting together clues from a number of incomplete and disparate narratives he answers questions the participants themselves could not such as why South Carolina militiamen ran toward dragoons they feared and what caused the mistaken order on the Continental right flank **Revolutionary War in the Southern Back Country, The** James Swisher, 2007-12-04 A description of the events that led to the climax and eventual demise of the British campaigns in the Southern theater during the Revolutionary War The introductory chapter presents the British and Hessian employment of the eighteenth century European method of warfare and the ways it contrasted with the colonial army's diverse and constantly changing fighting styles The subsequent nine chapters detail the principal military efforts of the British in the South their capture of seaports movement in the backcountry and the critical winter campaign of 1780-81 This almost forgotten campaign and its trilogy of intense clashes at Guilford Court House Cowpens and Kings Mountain proved pivotal to American independence The leadership of the armies isolated in the backcountry and left to their own resources for survival is addressed The British profiles include the admirably courageous direction of Lord Charles Cornwallis his morally questionable but valorous cavalry commander Banastre Tarleton as well as a cadre of impressive young officers such as Webster Stuart O'Hara Hall and Ewall Swisher's profiles of the Southern colonial army details the genius strategies of Maj Gen Nathaneal Greene and the astute backwoods tactical abilities of Daniel Morgan at Cowpens Long, Obstinate, and

Bloody Lawrence E. Babits, Joshua B. Howard, 2009-03-15 On March 15 1781 the armies of Nathanael Greene and Lord Charles Cornwallis fought one of the bloodiest and most intense engagements of the American Revolution at Guilford Courthouse in piedmont North Carolina In Long Obstinate and Bloody the first book length examination of the Guilford Courthouse engagement Lawrence E Babits and Joshua B Howard piece together what really happened on the wooded plateau in what is today Greensboro North Carolina and identify where individuals stood on the battlefield when they were there and what they could have seen thus producing a new bottom up story of the engagement **Gavin K.
