Ministry of Forests,1982 **Grassland Ecology and Classification Symposium Proceedings, June 1982** British Columbia. Ministry of Forests,A. C. Nicholson,T. E. Baker,A. Mclean,1982 **Proceedings, Pinyon-Juniper Conference, Reno, NV, January 13-16, 1986** ,1987 The Archive of Place William Turkel,2011-11-01 The Archive of Place weaves together a series of narratives about environmental history in a particular location British Columbia s Chilcotin Plateau In the mid 1990s the Chilcotin was at the centre of three territorial conflicts Opposing groups in their struggle to control the fate of the region and its resources invoked different understandings of its past and different types of evidence to justify their actions These controversies serve as case studies as William Turkel examines how people interpret material traces to reconstruct past events the conditions under which such interpretation takes place and the role that this interpretation plays in historical consciousness and social memory It is a wide ranging and original study that extends the span of conventional historical research **Canada's Vegetation** Geoffrey A.J. Scott,1995-01-10 Canada s Vegetation includes comprehensive sections on tundra forest tundra boreal forest and mixed forest transition prairie steppe Cordilleran environments in western North America temperate deciduous forests and wetlands An overview of each ecosystem is provided and equivalent vegetation types throughout the world are reviewed and compared with those in Canada The integration of data on climate soil and vegetation in a single volume makes this an invaluable reference tool Canada s Vegetation is sure to become a standard textbook for those in the environmental sciences Geological Survey of Canada, Open File 1448 , **General Technical Report PNW-GTR** ,1994 **The Genesis of FORPLAN** David C. Iverson,1986 General Technical Report INT. ,1987 **Index of Conference Proceedings Received** British Library. Lending Division,1983 Biotic and Abiotic Processes of Eastside Ecosystems Charles G. Johnson (Jr.),1994 **Canada's Cold Environments** Hugh M. French,Olav Slaymaker,1993 Low temperatures wind chill snow sea ice and permafrost have been primary characteristics of Canada s northern and alpine environments during the past two million years The evolution of Canada s cultural landscapes the processes of settlement of rural areas and the present interaction of Canadian industrial society with its biophysical environment are all deeply influenced directly or indirectly by the frigidity of the greater part of the country The phenomenon of global warming if it occurs will lessen this coldness but its impact on temperature extremes sea ice regimes vegetation snow distribution permafrost glaciers lakes rivers and mountain hazards are all the subject of intensive research the highlights of which are reviewed in Canada s Cold Environments Eleven of Canada s leading geographers geologists and ecologists provide an authoritative yet readable scientific statement about the physical nature of Canada s coldness They focus on the distinctive attributes of Canada s cold environments their temporal and spatial variability and the constraints that coldness places on human activity The book is aimed at

environmental scientists at all levels who need informed overviews of the substantive findings on a range of cold related topics

Beyond the City Limits R.W. Sandwell, 2011-11-01 Historians have not usually identified British Columbia as a rural province B C historiography has been dominated by mining logging and fishing and theorized within the context of large scale laissez faire capitalism and economic individualism Silences in the historical record have exacerbated this situation and lent tacit support to the dominance of resource based capitalism as the shaping force in B C history The essays in *Beyond the City Limits* all published here for the first time decisively break this silence and challenge traditional readings of B C history In this wide ranging collection R W Sandwell draws together a distinguished group of contributors who bring expertise methodologies and theoretical perspectives taken from social and political history environmental studies cultural geography and anthropology They discuss such diverse topics as Aboriginal White settler relations on Vancouver Island pimping and violence in northern BC and the triumph of the coddling moth over Okanagan orchardists to show that a narrow emphasis on resource extraction capitalist labour relations and urban society is simply not broad enough to adequately describe those who populated the province's history By challenging the dominant urban based and overwhelmingly capitalist interpretation of the province's history the provocative essays in *Beyond the City Limits* expand our understanding of what rural was and what it meant in the history of British Columbia

Resettling the Range John Thistle, 2015-02-25 The ranchers who resettled BC's interior in the late nineteenth and early twentieth centuries depended on grassland for their cattle but in this they faced some unlikely competition from grasshoppers and wild horses

With the help of the government settlers resolved to rid the range of both Resettling the Range explores the ecology and history of the grassland and the people who lived there by looking closely at these eradication efforts In the claims of range improvement and rational land use author John Thistle uncovers more complicated stories of marginalization the destruction of wild horses worked to dispossess aboriginal people while the campaign to exterminate grasshoppers exposed class conflicts and competing versions of resettlement among immigrant ranchers This unconventional history examines the lasting effects of range improvement revealing a fascinating and troubling chapter of BC history
