Gravitational Mystery Spots of the United States Douglas B. Vogt, 1996 **The Librarian's Book of Lists** George M. Eberhart, 2010-05-10 After years spent editing *American Libraries* and the many editions of *The Whole Library Handbook* George Eberhart has collected a raft of arcane librarianship and amusing trivia for this endlessly browsable volume the mixture of serious topics tongue in cheek items and outright silliness provides something to please everyone familiar with libraries making a fun read and a wonderful gift Page 4 of cover CNPS Proceedings 2017 David de Hilster, 2017-07-07 The John Chappell Natural Philosophy Society CNPS provides an open forum for the study debate and presentation of serious scientific ideas theories philosophies and experiments that are not commonly accepted in mainstream science The CNPS uses the term Natural Philosophy in its broader sense which includes physics cosmology mathematics and the philosophy of science Our goal is to return to the basics where things went wrong and start anew *Weird U.S.* Mark Sceurman, Mark Moran, Matthew Lake, 2008 Explores ghosts and haunted places local legends cursed roads crazy characters and unusual roadside attractions found in the United States **Weird Texas** Wesley Treat, Heather Shades, Rob Riggs, 2009-05 If your taste extends to the odd side of traveling this is your ticket Booklist **Another Planet?** D. Patrick Georges, 1999-07-14 You have no financial or medical concerns and you get to be Head of State one day but you got to hand over your kids to their grandparents when they are one year old How would you like to live in such a paradise son Decades after his godfather told him this bizarre story the author a businessman and professor of management with no interest whatsoever in metaphysics felt he could no longer keep to himself such visions of future heaven or hell To write and publish a book is an uphill battle rarely leading to success But to con somebody else to write and publish a book surely would deserve the Nobel Prize in perseverance Such a prize is now posthumously awarded to the author's godfather Anthony It took him a total of 64 years in life and death to make his unstoppable resolve to get this book written and published a reality In 1931 it seemed that Anthony had made it The owner of two thriving businesses he now had time to indulge in his passion in the form of a hobby cars He chanced upon the decaying carcass of a 1918 one ton Ford Model TT truck that a farmer used as a chicken coop The master auto mechanic in him urged him to restore it to its former glory He rented a large garage near the center of town and with a true collector's detachment began scavenging the area for parts Without warning Anthony's happy life started unraveling the following year At first he acted as if absent minded Slowly he started losing interest in his work including his love for cars He started going to work late and leaving early Much to the worry of relatives and close friends he slept every night in the garage while his visits to his fiancée's house all but stopped By early 1933 his businesses started sliding into the red Too honest not to pay his workers he defaulted on payments to creditors who soon forced him into bankruptcy As one might expect his would-be father-in-law gave him a royal dressing down and much to his daughter's chagrin broke off the engagement When asked what was wrong Anthony would reply vaguely that he was visiting another planet where he saw wondrous things that put life on Earth to

shame He began to criticize living and working conditions on Earth both as he knew them by experience and as he learned about them in those days media the press movies theater radio and stories of travelers to other countries At the same time he changed his appearance and behavior to conform to the standards in force on what he called that other planet Needless to say his antics soon earned him the status of the neighborhood idiot His friends even some of his relatives avoided him like the plague while some openly ridiculed him Though far from being convinced about the merits of Anthony s tale the author confessed that as he gained more education and experience he began to notice the conviction with which his godfather talked about his improbable experience No doubt to him it was the real thing There must be some merit in his godfather s tale for two rock solid reasons he concluded First no man with an eighth grade education could dream up sophisticated socio political systems such as those he described as existing on that other planet And second even if he could he would not have been consistent in his storytelling Convinced that his godfather s tale should somehow be preserved though at that time he had no clear reason in mind the author decided to take a week s vacation and debrief Anthony in a comprehensive systematic way much like a research project Long after Anthony s death and with the encouragement of business associates unwittingly the process started that enabled the author to finally deliver the promise he gave his grossly misunderstood godfather on the latter s death bed to write and p
