The Great Awakening: Documents Illustrating the Crisis and Its Consequences Alan Heimert, Perry Miller, 1967 Of the Spirit Jonathan Dickinson The government of the church of Christ John Thomson A particular consideration of the Querists Samuel Blair The Querists a short reply to Mr Whitefield's letter The wonderful wandering Spirit Christ triumphing and Satan raging Samuel Finley Remarks upon a Protestation Gilbert Tennent A display of God's special grace Jonathan Dickinson Spiritual travels Nathan Cole Account of the revival at Lyme Jonathan Parsons Gilbert Tennent's powerful preaching in Boston Account of the revival at Lyme Jonathan Parsons A song of praise James Davenport The distinguishing marks of a work of the Spirit Jonathan Edwards The spirits of the present day tried David McGregore Enthusi Interrelation of the Great Awakening and Harvard College George J. Gatgounis, 2022-10-11 The Interrelation of the Great Awakening and Harvard College by the Rev Dr George Gatgounis Esq examines the history of Harvard College from its founding as a training center for Puritan preachers in 1636 through the Great Awakening and its gradual decline as a major spiritual force at Harvard Gatgounis a Harvard alumnus relies on documents in the college's archives to document how evangelist George Whitfield concerned about the decline in spirituality among the student body stirred up the campus on his first visit in 1741 but was denounced by the administration as a dangerous zealot on his return in 1744 Kinesthetic Imagination Kathryn Reklis, 2014-05-01 Beauty bodily knowledge and desire have emerged in late modern Christian theology as candidates to reorient and reinvigorate reflection In this Reklis describes the theological meaning of the body's ecstasy as kinesthetic imagination a term which extends beyond the Great Awakening to trace the way bodily ecstasy continues to be coded as the expression of a primitive hysterical holistic or natural self almost always in contrast to a modern rational fragmented or artificial self Edwards she shows is an excellent interlocutor for the exploration of kinesthetic imagination and theology especially as it relates to contemporary questions about the role of beauty body and desire in theological knowledge He wrote explicitly about the role of the body in theology the centrality of affect in spiritual experience and anchored all of this in a theological system grounded in beauty as his governing concept of divine reality This book offers an innovative reading of one of the most widely known American theologians and offers this reading as provocation for debates within contemporary conversations Mania for Freedom John Mac Kilgore, 2016-09-19 Nothing great was ever achieved without enthusiasm wrote Ralph Waldo Emerson in 1841 While this statement may read like an innocuous truism today the claim would have been controversial in the antebellum United States when enthusiasm was a hotly contested term associated with religious fanaticism and poetic inspiration revolutionary politics and imaginative excess In analyzing the language of enthusiasm in philosophy religion politics and literature John Mac Kilgore uncovers a tradition of enthusiasm linked to a politics of emancipation The dissenting voices chronicled here fought against what they viewed as tyranny while using their writings to forge international or antinationalistic political affiliations Pushing his analysis across

national boundaries Kilgore contends that American enthusiastic literature unlike the era s concurrent sentimental counterpart stressed democratic resistance over domestic reform as it navigated the global political sphere By analyzing a range of canonical American authors including William Apess Phillis Wheatley Harriet Beecher Stowe and Walt Whitman Kilgore places their works in context with the causes wars and revolutions that directly or indirectly engendered them In doing so he makes a unique and compelling case for enthusiasm s centrality in the shaping of American literary history

From Tyndale to Madison Michael Farris, 2007 Featuring a cast of thousands from Tyndale Henry VIII Oliver Cromwell Luther and Calvin to Thomas Jefferson and James Madison this sweeping epic traces the history of America's religious rights Farris looks at both sides of the battle for freedom of worship exploring which biblical ideas led to liberty and which served **Imaginary Friends** James Emmett Ryan, 2009-08-06 Spanning four centuries Imaginary Friends the forces of oppression takes readers through the shifting representations of Quaker life in a wide range of literary and visual genres from theological debates missionary work records political theory and biography to fiction poetry theater and film It illustrates the ways that during the long history of Quakerism in the United States these imaginary Friends have offered a radical model of morality piety and anti modernity against which the evolving culture has measured itself American Lives Robert F. Sayre, 1994 American Lives is a groundbreaking book the first historically organized anthology of American autobiographical writing bringing us fifty five voices from throughout the nation's history from Abigail Adams Abraham Lincoln Jonathan Edwards and Richard Wright to Quaker preacher Elizabeth Ashbridge con man Stephen Burroughs and circus impresario P T Barnum Representing canonical and non canonical writers slaves and slave owners generals and conscientious objectors scientists immigrants and Native Americans the pieces in this collection make up a rich gathering of American songs of ourselves Robert F Sayre frames the selections with an overview of theory and criticism of autobiography and with commentary on the relation between history and many kinds of autobiographical texts travel narratives stories of captivity diaries of sexual liberation religious conversions accounts of political disillusionment and discoveries of ethnic identity With each selection Sayre also includes an extensive headnote providing valuable critical and biographical information A scholarly and popular landmark American Lives is a book for general readers and for teachers students and every American scholar

Social Movements Stanford M. Lyman,2016-07-27 The aim of this book is to bring together classical recent and contemporary analyses of the social movement phenomenon Analysis is represented in several variants of its discursive form the expository essay the critique the general theory the specific case study and the futuristic meditation The Real Benedict Arnold Jim Murphy,2007 Drawing on Arnold's surviving writings and on the letters memoirs and political documents of his contemporaries a fascinating portrait of a brilliant man consistently undervalued by his peers who made a choice that continues to reverberate through American history Jacket American Enchantment Michelle Sizemore,2018 American Enchantment presents a new understanding of the social order after the American Revolution one that enacts the

concept of enchantment as a unique way of describing and coalescing popular power and social affiliation **Episodic** <u>Poetics</u> Matthew Garrett, 2014 The early United States was a culture of the episode In Episodic Poetics Matthew Garrett merges narrative theory with social and political history to explain the early American fascination with the episodic piecemeal plot Since Aristotle's Poetics the episode has been a vexed category of literary analysis troubling any easy view of the subsumption of unwieldy narrative parts into well plotted wholes Garrett puts forward a new dialectical theory of episodic form to recast this peculiar object of literary history looking to the episode as a narrative unit smaller than the genre in order to give an account of all the period's major prose genres Garrett shows how in ways both magisterial and mundane episodic forms gave variegated shape to the social political and economic conflicts that defined the moment of national formation Episodic Poetics proposes a new method of reading and a new way of conceiving of literary history The book asks how we might understand the cultural role of the episode as a literary micro unit one that forces us to read individual narratives in terms of an always partial and fraught development toward plot Episodic Poetics combines theoretical reflection and historical rigor with careful readings of texts from the early American canon such as The Federalist Benjamin Franklin s Autobiography and the novels of Charles Brockden Brown along with hitherto understudied texts and ephemera such as Washington Irving's Salmagundi Susanna Rowson's Trials of the Human Heart and the memoirs of the metalworker and failed entrepreneur John Fitch Garrett recounts literary history not as the easy victory of grand nationalist ambitions but rather as a series of social struggles expressed through writers recurring engagement with incompletely integrated forms

Early American Women Critics Gay Gibson Cima,2006-05-25 Early American Women Critics demonstrates that performances of various kinds religious political and cultural enabled women to enter the human rights debates that roiled the American colonies and young republic Black and white women staked their claims on American citizenship through disparate performances of spirit possession patriotism poetic and theatrical production They protected themselves within various shields which allowed them to speak openly while keeping the individual basis of their identities invisible Cima shows that between the First and Second Great Religious Awakenings 1730s 1830s women from West Africa Europe and various corners of the American colonies self consciously adopted performance strategies that enabled them to critique American culture and establish their own diverse and contradictory claims on the body politic This book restores the primacy of religious performances Christian Yoruban Bantu and Muslim to the study of early American cultural and political histories revealing that religion and race are inseparable

A Mental Ethnography: Conclusions from Research in LSD Niccolo Caldararo, 2023-02-20 There has recently been a renewed interest in both casual use of psychedelics as well as experimental use and attempts to discover therapeutic value There is an effort to recapture the achievements and failures of past work to guide present use This book is based around material derived from unpublished scientific research from Dr Robert Mogar s laboratory and built upon by forty years of field research by the author The author Niccolo Caldararo participated in a

number of studies of perception including sensory deprivation and psychotropic drugs some of recent manufacture or discovery and some of primitive or traditional societies He places this analysis of the physiological aspects of hallucinations delusions visions and dreams context through an as well as cross cultural data on dreams dreaming and drug use and the social value of hallucinations dreams and visions The book reviews ethnographic literature in this area and contributes to a comprehensive evaluation of past work done in this area Evangelical Identity and Gendered Family Life Sally K.

Gallagher,2003 Evangelical Identity and Gendered Family Life provides a sociological and historical analysis of gender family and work among evangelical Protestants In this innovative study Sally Gallagher traces two lines of gender ideals one of husbands authority and leadership the other of mutuality and partnership in marriage from the Puritans to the Promise Keepers into the lives of ordinary evangelicals today Rather than simply reacting against or accommodating themselves to secular society Gallagher argues that both traditional and egalitarian evangelicals draw on longstanding beliefs about gender human nature and the person of God The author bases her arguments on an analysis of evangelical family advice literature data from a large national survey and personal interviews with over 300 evangelicals nationwide No other work in this area draws on such a range of data and methodological resources Evangelical Identity and Gendered Family Life establishes a standard for future research by locating the sources strategies and meaning of gender within evangelical Protestantism

Deep Listeners Judith Becker,2004-07 Rethinking trance Deep listeners Habitus of listening Trancing selves Being in the world culture and biology Magic through emotion toward a theory of trance consciousness Postscript trancing deep listening and human evolution Turning Points in the History of American Evangelicalism Heath W. Carter, Laura Rominger Porter, 2017 The history of American evangelicalism is perhaps best understood by examining its turning points those moments when it took on a new scope challenge or influence The Great Awakening the rise of fundamentalism and Pentecostalism the emergence of Billy Graham all these developments and many more have given shape to one of the most dynamic movements in American religious history Taken together these turning points serve as a clear and helpful roadmap for understanding how evangelicalism has become what it is today Each chapter in this book has been written by one of the world s top experts in American religious history and together they form a single narrative of evangelicalism s remarkable development Here is an engaging balanced coherent history of American evangelicalism from its origins as a small movement to its status as a central player in the American religious story from publisher The Origins of Southern

Evangelicalism Thomas J. Little, 2013-10-15 During the late seventeenth century a heterogeneous mixture of Protestant settlers made their way to the South Carolina lowcountry from both the Old World and elsewhere in the New Representing a

settlers made their way to the South Carolina lowcountry from both the Old World and elsewhere in the New Representing hodgepodge of European religious traditions they shaped the foundations of a new and distinct plantation society in the British Atlantic world The Lords Proprietors of Carolina made vigorous efforts to recruit Nonconformists to their overseas colony by granting settlers considerable freedom of religion and liberty of conscience Codified in the Fundamental

Constitutions of Carolina this toleration ultimately attracted a substantial number of settlers of many and varying Christian denominations In The Origins of Southern Evangelicalism Thomas J Little refutes commonplace beliefs that South Carolina grew spiritually lethargic and indifferent to religion in the colonial era Little argues that pluralism engendered religious renewal and revival which developed further after Anglicans in the colony secured legal establishment for their church The Carolina colony emerged at the fulcrum of an international Protestant awakening that embraced a more emotional individualistic religious experience and helped to create a transatlantic evangelical movement in the mid eighteenth century Offering new perspectives on both early American history and the religious history of the colonial South The Origins of Southern Evangelicalism charts the regional spread of early evangelicalism in the too often neglected South Carolina lowcountry the economic and cultural center of the lower southern colonies Although evangelical Christianity has long been and continues to be the dominant religion of the American South historians have traditionally described it as a comparatively late flowering development in British America Reconstructing the history of religious revivalism in the lowcountry and placing the subject firmly within an Atlantic world context Little demonstrates that evangelical Christianity had much earlier beginnings in prerevolutionary southern society than historians have traditionally recognized Colonial America: An Encyclopedia of Social, Political, Cultural, and Economic History James Ciment, 2016-09-16 No era in American history has been more fascinating to Americans or more critical to the ultimate destiny of the United States than the colonial era Between the time that the first European settlers established a colony at Jamestown in 1607 through the signing of the Declaration of Independence the outlines of America's distinctive political culture economic system social life and cultural patterns had begun to emerge Designed to complement the high school American history curriculum as well as undergraduate survey courses Colonial America An Encyclopedia of Social Political Cultural and Economic History captures it all the people institutions ideas and events of the first three hundred years of American history While it focuses on the thirteen British colonies stretching along the Atlantic Colonial America sets this history in its larger contexts Entries also cover Canada the American Southwest and Mexico and the Caribbean and Atlantic world directly impacting the history of the thirteen colonies This encyclopedia explores the complete early history of what would become the United States including portraits of Native American life in the immediate pre contact period early Spanish exploration and the first settlements by Spanish French Dutch Swedish and English colonists This monumental five volume set brings America's colonial heritage vibrantly to life for today s readers It includes thematic essays on major issues and topics detailed A Z entries on hundreds of people institutions events and ideas thematic and regional chronologies hundreds of illustrations primary documents and a glossary and multiple indexes The Religious Beliefs of America's Founders Gregg L. Frazer, 2014-08-15 Were America's Founders Christians or deists Conservatives and secularists have taken each position respectively mustering evidence to insist just how tall the wall separating church and state should be Now Gregg Frazer puts their arguments to rest in the first

comprehensive analysis of the Founders beliefs as they themselves expressed them showing that today s political right and left are both wrong Going beyond church attendance or public pronouncements made for political ends Frazer scrutinizes the Founders candid declarations regarding religion found in their private writings Distilling decades of research he contends that these men were neither Christian nor deist but rather adherents of a system he labels theistic rationalism a hybrid belief system that combined elements of natural religion Protestantism and reason with reason the decisive element Frazer explains how this theological middle ground developed what its core beliefs were and how they were reflected in the thought of eight Founders John Adams Thomas Jefferson Benjamin Franklin James Wilson Gouverneur Morris James Madison Alexander Hamilton and George Washington He argues convincingly that Congregationalist Adams is the clearest example of theistic rationalism that presumed deists Jefferson and Franklin are less secular than supposed and that even the famously taciturn Washington adheres to this theology He also shows that the Founders held genuinely religious beliefs that aligned with morality republican government natural rights science and progress Frazer's careful explication helps readers better understand the case for revolutionary recruitment the religious references in the Declaration of Independence and the religious elements and lack thereof in the Constitution He also reveals how influential clergymen backing their theology of theistic rationalism with reinterpreted Scripture preached and published liberal democratic theory to justify rebellion Deftly blending history religion and political thought Frazer succeeds in showing that the American experiment was neither a wholly secular venture nor an attempt to create a Christian nation founded on biblical principles By showcasing the actual approach taken by these key Founders he suggests a viable solution to the twenty first century standoff over the relationship between church and state and challenges partisans on both sides to articulate their visions for America on their own merits without holding the Founders hostage to positions they never held God vs. the Gavel Marci Hamilton, 2014-08-29 This book sets the record straight about the United States move toward extreme religious liberty and argues for a return to common sense religious liberty

Eventually, you will utterly discover a new experience and endowment by spending more cash. nevertheless when? complete you consent that you require to acquire those every needs in the same way as having significantly cash? Why dont you attempt to get something basic in the beginning?
