This new publication is intended to bring together a mass of research dealing with all aspects of British naval swords Unlike the much sought after Swords of Sea Service by May and Annis this work offers a far broader coverage and for the first time the complete story of swords and swordsmanship is presented in one concise volume While the swords themselves are described the authors also tell the story of naval swordsmanship For example subjects such as how swords and cutlasses were used in action and how training was conducted and covered The authors also address how the use of swords developed into a sport in the Navy and how swords and swordsmanship may have entered naval symbology in such areas as ships names Many current myths are addressed and corrected and the story is brought right up to date with information on the sport from 1948 to 2000 While the book concentrates on the Royal Navy foreign weapons including those of the Irish Naval Service are mentioned where appropriate Other British Maritime organisations such as the Merchant Navy the Customs and Coastguard Services and the Reserves are also addressed The book also covers subjects such as dating collecting and conservation of swords and re examines those swords attributed to Nelson The Appendices include the first list of Swords of Peace awarded to naval units to be published Recent research by the authors is also reflected in the updated lists of Patriotic Fund Awards City of London Swords and Naval fencing champions contained in the Appendices The comprehensive nature of the work has not been attempted before and the book will appeal to a wide range of naval enthusiasts and historians collectors of weapons fencers and re enactors

invariably depicted as a gift from white people to black people In order to assess what the inheritance of emancipation imagery means now and to speculate about where it may travel in the future Wood spends the latter parts of this book looking at the 2007 bicentenary of the 1807 Slave Trade Abolition Act In this context a provocative range of material is analyzed including commemorative postage stamps museum exhibits street performances religious ceremonies political protests and popular film By taking a new look at the role of the visual arts in promoting the great emancipation swindle Wood brings into the open the manner in which the slave power and its inheritors have single mindedly focused on celebratory cultural myths that function to diminish both white culpability and black outrage This book demands that the living lies developed around the memory of the emancipation moment in Europe and America need to be not only reassessed but demolished Stanley Gibbons Great Britain Concise Stamp Catalogue Hugh Jefferies, Stanley Gibbons, 2011-04-01
