Justice in Young Adult Speculative Fiction Marek C.

Oziewicz, 2015-04-17 This book is the first to offer a justice focused cognitive reading of modern YA speculative fiction in its narrative and filmic forms It links the expansion of YA speculative fiction in the 20th century with the emergence of human and civil rights movements with the communitarian revolution in conceptualizations of justice and with spectacular advances in cognitive sciences as applied to the examination of narrative fiction Oziewicz argues that complex ideas such as justice are processed by the human mind as cognitive scripts that scripts when narrated take the form of multiply indexable stories and that YA speculative fiction is currently the largest conceptual testing ground in the forging of justice consciousness for the 21st century world Drawing on recent research in the cognitive and evolutionary sciences Oziewicz explains how poetic retributive restorative environmental social and global types of justice have been represented in narrative fiction from 19th century folk and fairy tales through 21st century fantasy dystopia and science fiction Suggesting that the appeal of these and other nonmimetic genres is largely predicated on the dream of justice Oziewicz theorizes new justice scripts as conceptual tools essential to help humanity survive the qualitative leap toward an environmentally conscious culturally diversified global world This book is an important contribution to studies of children s and YA speculative fiction adding a new perspective to discussions about the educational as well as social potential of nonmimetic genres It demonstrates that the justice imperative

is very much alive in YA speculative fiction creating new visions of justice relevant to contemporary challenges *Doing International Research* Christopher Williams, 2015-05-15 This energetic and thought provoking book encourages a reflexive non nationalistic approach to doing world research and sets out how to understand plan do and use this research Williams introduces a range of frameworks from desk based studies and traditional ethnography to the use of internet satellites robots drones and big data and provides exciting interdisciplinary examples This book is presented in a clear international style and uses creative approaches to researching peoples places and world systems It explains desk based research using international data including documentaries museum objects archives data sets and working with groups such as refugees tourists and migrants distance research using online videos surveys and remote methods such as video conferencing and crowdsourcing fieldwork abroad including ethnography street observation and mapping The book is also accompanied by a website with the following features For Students Weblinks for each chapter Examples summaries templates related to text marked with Additional thinking zones An overview of data capture technologies For Lecturers Copies of all the figures and thinking zones for use in teaching material PowerPoint slides for each chapter Built upon the foundations of the author s 30 years of research experience and including original case studies from international students this is an essential guide for anyone in the social sciences using or doing international and global research **Comparative Law** Mathias

Siems, 2018-04-12 Comparative Law offers a thorough grounding in the subject for students and scholars of comparative law alike critically debating both traditional and modern approaches to the subject and using examples from a range of legal systems gives the reader a truly global perspective Covering essential academic debates and comparative law methodology its contextualised approach draws on examples from politics economics and development studies to provide an original contribution to topics of comparative law This new edition is fully revised and updated throughout to reflect contemporary research contains more examples from many areas of law and there is also an increased discussion of the relevance of regional international transnational and global laws for comparative law Suitable for students taking courses in comparative law and related fields this book offers a fresh contextualised and cosmopolitan perspective on the subject **Bankrupt**

Terence Halliday, Bruce Carruthers, 2009-04-20 Through the lens of the Asian Financial Crisis this book documents how international organizations and national governments crafted legal responses through corporate bankruptcy reforms to the fragility of financial markets in East Asia and worldwide **Uniform Civil Code for India** Shimon Shetreet, Hiram E. Chodosh, 2015-06-18 Article 44 of The Constitution of India provides that The State shall endeavour to secure for the citizens a Uniform Civil Code throughout the territory of India Even after more than six decades this anticipated code has not been developed or implemented This book provides a blueprint for alternative frameworks and courses of action drawing on lessons from comparative context to develop a Uniform Civil Code for India It explores the interplay between issues of law culture and religion in light of various intra community and inter community disputes The book proposes a series of

guidelines and considerations to inform this process The first guideline urges that the process of preparing and implementing a Uniform Civil Code should be the function of the Legislature The Courts can resolve certain specific points but the comprehensive code is a legislative function and not for judicial resolution The second guideline suggests the parallel application of civil and religious law The securing of a Uniform Civil Code must not negate the possibility of citizens availing themselves of religious law if they so wish The third guideline advises a gradual application of a Uniform Civil Code The development of the code should be done topic by topic chapter by chapter The fourth guideline is to deploy tools of mediation in both the formation of the code and its implementation This mediation should take on two forms intercommunity mediation and individual mediation The first of these two relates to a dialogue between the communities of India to advance an agreement upon the substantive provisions of the Uniform Civil Code The second relates to mediation between individuals in occasions where dispute arises in the realm of personal law

Visual Criminology Johannes Wheeldon, 2021-10-01 This edited collection captures the expertise of scholars from the US the UK Australia and Canada to catalog the rise in visual approaches in criminology It presents examples of visual methods uses and approaches in criminology assesses the potential for new graphic approaches to collect analyze and present data and provides some analysis of the use of images in teaching to spur social critique and guide policy translation The collection visually connects theory and practice by highlighting the work of criminologists who have embraced the visual turn Contributors explore the use of cognitive maps concept and mind maps life history calendars CCTV life plots GIS and hot spot research policy graphs visual abstracts and research summaries and other visual tools in the context of criminology Approaches building on visual sociology are also featured including a discussion of developments in documentary photography and film visual ethnography and sensory phenomenology The book is organized thematically with each chapter following logically upon the last introducing readers to a variety of visual approaches and their application in criminology The goals of this collected volume are three fold The first is to highlight how the visual has been used in criminology historically to present data contest meaning and complicate social control and make more transparent the research process The second is to work toward some sort of definitional consistency While a worthy endeavor this remains elusive given the assortment of uses and varying traditions from which visual criminology has emerged The third is to try to think clearly about the role of humility This means a willingness to acknowledge an epistemological framework and note the variety of limitations associated with trying to understand in deep and meaningful ways For visual criminology specifically it involves the recognition that part of the power of images whatever their construction comes from whether we think they are beautiful or whether and or to what extent they disrupt our understanding in one way or another This interdisciplinary book will be of interest to criminologists sociologists visual ethnographers historians and those engaged with media studies It is a valuable supplementary text for courses in introductory criminology and criminal justice criminological theory research methods and other upper level and senior

capstone courses Laying Down the Law R. W. Kostal, 2019-10-15 Winner of the John Phillip Reed Book Award American Society for Legal History A legal historian opens a window on the monumental postwar effort to remake fascist Germany and Japan into liberal rule of law nations shedding new light on the limits of America's ability to impose democracy on defeated countries Following victory in WWII American leaders devised an extraordinarily bold policy for the occupations of Nazi Germany and Imperial Japan to achieve their permanent demilitarization by compelled democratization A quintessentially American feature of this policy was the replacement of fascist legal orders with liberal rule of law regimes In his comparative investigation of these epic reform projects noted legal historian R W Kostal shows that Americans found it easier to initiate the reconstruction of foreign legal orders than to complete the process While American agencies made significant inroads in the elimination of fascist public law in Germany and Japan they were markedly less successful in generating allegiance to liberal legal ideas and institutions Drawing on rich archival sources Kostal probes how legal reconstructive successes were impeded by German and Japanese resistance on one side and by the glaring deficiencies of American theory planning and administration on the other Kostal argues that the manifest failings of America's own rule of law democracy weakened US credibility and resolve in bringing liberal democracy to occupied Germany and Japan In Laying Down the Law Kostal tells a dramatic story of the United States as an ambiguous force for moral authority in the Cold War international system making a major contribution to American and global history of the rule of law **Introduction to Middle Eastern Law** Chibli

Mallat, 2007-07-12 This book provides an introduction to the laws of the Middle East defining the contours of a field of study that deserves to be called Middle Eastern law It introduces Middle Eastern law as a reflection of legal styles many of which are shared by Islamic law and the laws of Christian and Jewish Near Eastern communities It offers a detailed survey of the foundations of Middle Eastern Law using court archives and an array of legal sources from the earliest records of Hammurabi to the massive compendia of law in the Islamic classical age through to the latest decisions of Middle Eastern high courts It focuses on the way legislators and courts conceive of law and apply it in the Middle East It builds on the author's extensive legal practice with the aim of introducing the Middle Eastern law's main sources and concepts in a manner accessible to non specialist legal scholars and practitioners alike The book begins with an exploration of the depth and variety of Middle Eastern law introducing the concepts of shari'a fiqh and qanun which all mean law and dwelling on Islamic law as the common law of the Middle East It provides a historical introduction to the contemporary Middle East exploring political systems constitutional law judicial review the laws of tort and obligations commercial law including Islamic banking company law capital markets and commercial arbitration and examines legislative reform in family law and the position of women in the legal system The author considers the interaction between Islamic and Western laws and includes a bibliography designed for further research into the jurisdictions and themes explored throughout the book **Global**

Justice and International Economic Law Chi Carmody, Frank J. Garcia, John Linarelli, 2012-01-09 Since the beginnings of

the GATT and the Bretton Woods institutions and on to the creation of the WTO states have continued to develop institutions and legal infrastructure to promote global interdependence International lawyers are experts in understanding how these institutions operate in practice but they tend to uncritically accept comparative advantage as the principal normative criterion to justify these institutions In contrast moral and political philosophers have developed accounts of global justice but these accounts have had relatively little influence on international legal scholarship and on institutional design This volume reflects the results of a symposium held at Tillar House the American Society of International Law headquarters in Washington DC in November 2008 which brought together philosophers legal scholars and economists to discuss the problems of understanding international economic law from the standpoints of rights and justice in particular from the standpoint of distributive justice

Legal Reform in the Contemporary Socialist World Ngoc Son Bui, 2024-08-12 Legal Reform in the Contemporary Socialist World explores four decades of legal reform in the socialist countries of China Vietnam Laos North Korea and Cuba from a comparative perspective Spanning the late 1970s to the present it examines various projects methods strategies contents driving forces and limitations of legislative reform administrative reform judicial reform and reform of the legal profession Legal reform in these countries is the project of the political elite to improve the legal system while retaining its core socialist principles It is carried out through legislative enactments amendments and replacements which the political elite adopt using incremental strategies to reform the legal system sporadically or systematically Socialist legal reform is animated by the political aspiration to create the rule of law the impact of social economic change and the influence of transnational and comparative law Despite significant reforms the socialist principles of the legal systems in these countries largely remain intact This legal reform however varies considerably by country Legal Reform in the Contemporary Socialist World offers a holistic view of understudied jurisdictions in comparative law essential for anyone studying or working in these areas in law politics or policy

Michigan Law Review ,2004 Comparative, International, and Global Justice Cyndi Banks, James Baker, 2015-09-23 Comparative International and Global Justice Perspectives from Criminology and Criminal Justice presents and critically assesses a wide range of topics relevant to criminology criminal justice and global justice The text is divided into three parts comparative criminal justice international criminology and transnational and global criminology Within each field are located specific topics which the authors regard as contemporary and highly relevant and that will assist students in gaining a fuller appreciation of global justice issues Authors Cyndi Banks and James Baker address these complex global issues using a scholarly but accessible approach often using detailed case studies The discussion of each topic is a comprehensive contextualized account that explains the social context in which law and crime exist and engages with questions of explanation or interpretation The authors challenge students to gain knowledge of international and comparative criminal justice issues and think about them in a critical manner It has become difficult to ignore the global and international dimensions of criminal justice and criminology and this text aims

to enhance criminal justice education by focusing on some of the issues engaging criminology worldwide and to prepare students for a future where fields of study like transnational crime are unexceptional *Symposium* ,2002 Proceedings
