into the much more familiar and predictable place we call home But strange lands are still out there everywhere By strange
lands I mean those relationships teams organizations or foreign lands within which we must deal effectively with new peoples
cultures places and technologies Increasingly we confront these lands abroad on global assignments for multinationals in
foreign study or intercultural marriage or even as tourists We encounter them face to face or online as we participate more
and more in geographically dispersed teams And of course we encounter them at home every time we wander into our
culturally diverse office classroom or bar Presence in Strange Lands focuses most significantly on those literal new lands
encountered on sojourns abroad though it deals significantly with these others as well Why do we journey to such lands That
in a nutshell is what this book is about In spite of ecoshock frustration fatigue failure and sometimes danger what lures we
sojourners from home to the road What causes us to journey to these strange lands for an assignment a career or a lifetime

What keeps us there And what entices us back there again and again the job the money the adventure the people and cultures we find the challenges we encounter the stories we can later tell That is what this book is about It is also about the tools we need to take with us to be optimally effective in these lands But most particularly it explores the experience of a sense of presence the heightened immediacy broad awareness vividness responsivity and clarity so commonly described by sojourners on these journeys It explores what a sense of presence is what induces it what nurtures it and its key role in helping us deal with the challenges to success encountered in these lands It introduces the presence seekers sometimes presence junkies for whom a heightened presence is the allure of a life on the road And it describes what happens as we return to that once familiar land we called home Presence in Strange Lands unfolds through the words of numerous sojourners on a broad variety of journeys to very diverse lands an excerpt from one such opens this prospectus These descriptions of a sense of presence were elicited through several research projects with methodologies ranging from informal interviews to focus groups to web based forums They are intertwined with interpretation based on current research and theory to guide readers to a better understanding of their own experiences and to better deal with the challenges encountered in their own strange lands
