Willie Thompson

Global Expansion Britain And Its Empire 1870 1914:

Global Expansion Willie Thompson,1999-10-20 Leading writer Boris Kagarlitsky offers an ambitious account of 1000 years of Russian history Global Expansion Willie Thompson,1999-10-20 In this clear and concise reassessment of British imperialism Willie Thompson examines the underlying social economic and political forces that facilitated expansion during the key period of 1870 1914 Relating colonial expansion to both domestic politics and international relations his book identifies the shifts in world economic and political relationships especially the challenge from an emergent German Reich as the driving forces behind the fresh burst of expansionist energy during the period Willie Thompson considers in detail the relations with the British state and various types of colony from the semi autonomous settlement colonies to wholly subordinated African territories and semi colonies such as China and the Ottoman Empire The impact of imperial ideology on British society and culture both official and popular and on political perceptions is explored as is the structure of international relations and tensions generated by this phase of imperialism **The British Empire** Philippa Levine,2013-11-04 This is a broad survey of the history of the British Empire from its beginnings to its demise It offers a comprehensive analysis not just of political events and territorial conquests but paints a picture of what life was like under colonial rule both for those who ruled and for those whose countries came under British authority There has been a lively debate in recent years about whether empires generally are good or bad things and the British Empire has been very much at the centre of that debate with a number of voices arguing that it was a kinder gentler Empire than its rivals This book speaks specifically to that debate and also to a second and equally vigorous debate about whether anyone in Britain actually cared about the possession of an Empire **Critical Theories of Globalization** C. el-Ojeili,P. Hayden,2006-07-28 This accessible text provides a comprehensive overview of globalization and its consequences from the perspective of social and political critical theory Thematic chapters provoke student inquiry and the book shows how the views of critical theorists are crucial to understanding the global processes shaping the world today *The Imperial History Wars* Dane Kennedy,2018-01-11 The history of the British Empire a subject that had slipped into obscurity when the empire came to an end has since made a stunning comeback generating a series of heated debates about the causes character and consequences of empire In this volume Dane Kennedy offers a wide ranging assessment of the main schools of thought that have transformed the way we view the British Empire and the world it helped to create Navigating a clear course through these intellectual waters requires an awareness of their shifting currents and a commitment to tracking their changing character over time Dane Kennedy has contributed to the imperial history wars for more than thirty years and in this volume he brings his most important writings along with brand new material together for the first time to provide a sweeping overview of the subject and the debates that have shaped it *The Imperial History Wars* is essential reading for any student or scholar of the British Empire Irish Terrorism in the Atlantic Community, 1865-1922 J. Gantt,2010-04-29 Using a transnational approach this

volume surveys the origins of Irish terrorism and its impact on the Anglo Saxon community during an era of intense imperialism While at times it posed sharp disagreements between Britain and the United States their ideological repulsion to terrorism later led to cooperation in counter terrorism strategies *Epidemic Encounters, Communities, and Practices in the Colonial World* Poonam Bala,Russel Viljoen,2023-01-24 The essays in this volume examine the nature and extent of disease on indigenous communities and local populations located within the vast regions of the Indian and Pacific Oceans as a result of colonial sea power and colonial conquest While this established a long term impact of disease on populations the essays also offer insights into the dynamics of these populations in resisting colonial intrusions and introduction of disease to newly acquired territories *Empire Lost* Andrew Stewart,2008-11-18 Using government records private letters and diaries and contemporary media sources this book examines the key themes affecting the relationship between Britain and the Dominions during the Second World War the Empire s last great conflict It asks why this political and military coalition was ultimately successful in overcoming the challenge of the Axis powers but in the process proved unable to preserve itself Although these changes were inevitable the manner of the evolution was sometimes painful as Britain s wartime economic decline left its political position exposed in a changing post war international system What Happened to History? Willie Thompson,2000-11-20 A study of US imperialism that argues America s leaders have chosen to go to war for influence and power ever since the declaration of independence **Empire Lost** Andrew Stewart,2008-09-18 Using government records private letters and diaries and contemporary media sources this book examines the key themes affecting the relationship between Britain and the Dominions during the Second World War the Empire s last great conflict It asks why this political and military coalition was ultimately successful in overcoming the challenge of the Axis powers but in the process proved unable to preserve itself Although these changes were inevitable the manner of the evolution was sometimes painful as Britain s wartime economic decline left its political position exposed in a changing post war international system **Bulls, Bears, Boers and Brits** Ian Phimister,2025-01-07 In the 1890s financial speculation and market manipulation were prominent features of the Southern African gold mining industry Extravagantly capitalised starved of working capital and poorly managed many mines could not be made to pay Investors suffered more at the hands of Randlords than they did from those of the Boer Government in Pretoria By failing to take any of this into serious consideration accounts that focus on mining company complaints as the root cause of the Jameson Raid and the outbreak of war in 1899 are missing a key dimension of the past Empire of the Periphery Boris Kagarlitsky,2007-12-20 Leading writer Boris Kagarlitsky offers an ambitious account of 1000 years of Russian history Encompassing all key periods in Russia s dramatic development the book covers everything from early settlers through medieval decline Ivan the Terrible the English Tsar Peter the Great the Crimean War and the rise of capitalism the revolution the Soviet period finally ending with the return of capitalism after 1991 Setting Russia within the context of the World System as outlined by Wallerstein this is a major work of historical

Marxist theory that is set to become a future classic *Britain, 1846-1964* Martin Roberts,2001 The aim of this book is to explain how Britain's circumstances changed between 1846-1964 Britain in 1846 was by far the richest nation in the world In 1964 Britain was comparatively much less rich than the USA and though amongst the world's richest nations was losing ground to Japan and to Western Europe Because of her wealth and her navy Britain in 1846 was the most powerful nation in the world Britain in 1964 was dwarfed by the superpowers of the USA and the USSR The British Empire of the 1840s reflected Britain's power By 1964 the Empire was collapsing Only one in five men and no women could vote in the Britain of 1840s By 1964 Britain was fully democratic with all adults entitled to vote In a period of a little over a century these were some of the changes to which Britain had to adapt It was a period that marked a substantial fall in Britain's comparative power and prosperity in the world **Socialist History** ,1993 Longman Handbook to Modern British History 1714 - 2001 Chris Cook,John Stevenson,2014-07-10 This compact and accessible reference work provides all the essential facts and figures about major aspects of modern British history from the death of Queen Anne to the end of the 1990s The Longman Handbook of Modern British History has been extended to include a fully revised bibliography reflecting the wealth of newly published material in recent years the new statistics on social and economic history and an expanded glossary of terms The political chronologies have been revised to include the electoral defeat of John Major and the record of New Labour in office Designed for the student and general reader this highly successful handbook provides a wealth of varied data within the confines of a single volume **The Origins of the Contemporary Global Order** Carl J. Strikwerda,2025-01-17 This book offers a new interpretation of the origins of the contemporary global order the set of institutions and international practices created by the USA and its allies after the Second World War Previous interpretations have argued that the USA played the predominant role in creating the global order to fight the Cold War against the Soviet Union The author argues that a broader perspective is necessary to understand both the origins of the global order and its ongoing tensions up until today a perspective that includes the legacy of both world wars the role of imperialism and the alternative strategy of globally oriented economic blocs The cooperative tradition in the founding of the global order and the contributions of nations besides the USA provides useful insights for those interested in the current global order and the challenges it faces from Russia and China *Untied Kingdom* Stuart Ward,2023-02-16 A panoramic history uncovering the demise of Britishness as a global civic idea since the Second World War British Industrial Capitalism Since The Industrial Revolution Roger Lloyd-Jones,Merv Lewis,2014-05-22 The authors use a long wave framework to examine the historical evolution of British industrial capitalism since the late 18th century and present a challenging and distinctive economic history of modern and contemporary Britain The book is intended for undergraduate courses on the economic history of modern Britain within history economic and social history economic history and economic degree schemes and economic theory courses Europe's End Augustin Ostace,2018-12-14 Throughout geologic history of our planetary earth have disappeared islands

half islands plains mountains seas and continents Throughout biologic history of our earth have disappeared species genus families orders classes and domains of bacteriae plants and animals alike Throughout ontologic history of our Homo Sapiens Species have disappeared tribes and union of tribes nations and unions of nations people and unions of people Our Europe under the sign of Europe s Union is into on ongoing fight of battlefield for surviving and re adapting by suffering through its misfortune politics by a cumulative destroying factors as uncontrolled migration lacking of outside and inside borders terrorism overburdened of social system over 50% out of the world social systems with only 25% out of World Brute Production huge inflationary laws directives indications around the unconvertible number of 20 833 and an utopian political subclass overall in Brussel Berlin Paris Rome Madrid and so on Our book is trying to shed a light over these ideologies resembling dramatic the sub political stupidities of our times **CONSTITUTION OF EUROPE** Augustin Ostace,2017-05-22 Through CONSTITUTION OF EUROPE the author is trying to do a spark envisions throughout history of Old Europe since its Antiquity since Middle Age since Renaissance of Europe and since Enlightenment of Europe till de present times of Union of Europe by going through schools of philosophy schools of sciences of theologians or politicians However this encyclopedic project this conceptological structures requires still many debating in overcoming the present limited sightedness of Europe CONSTITUTIONALIST OF EUROPE
