Global Communications, International Affairs and the Media Since 1945 Philip Taylor, 2002-11-01 In Global Communications International Affairs and the Media since 1945 Philip M Taylor traces the increased involvement of the media in issues of peace and especially war from the nineteenth century to the present day He analyzes the nature role and impact of communications within the international arena since 1945 and how communications interacts with foreign policy in practice rather than in theory Using studies which include the Gulf War and Vietnam Taylor details the contemporary problems reporting while at the same time providing a comprehensive historical context

European and International Media Law Perry Keller, 2011-05-12 Over the past half century western democracies have lead efforts to entrench the economic and political values of liberal democracy into the foundations of European and international public order As this book details the relationship between the media and the state has been at

the heart of those efforts In that relationship often framed in constitutional principles the liberal democratic state has celebrated the liberty to publish information and entertainment content while also forcefully setting the limits for harmful or offensive expression It is thus a relationship rooted in the state's need for security authority and legitimacy as much as liberalism's powerful arguments for economic and political freedom In Europe this long running endeavour has yielded a market based liberal democratic regional order that has profound consequences for media law and policy in the member states This book examines the economic and human rights aspects of European media law which is not only comparatively coherent but also increasingly restrictive rejecting alternatives that are well within the traditions of liberalism Parallel efforts in the international sphere have been markedly less successful In international media law the division between trade and human rights remains largely unabridged and in the latter field liberal democratic concepts of free speech are influential but rarely decisive In the international sphere states are moreover quick to assert their rights to autonomy Nonetheless the current communications revolution has overturned fundamental assumptions about the media and the state around the world eroding the boundaries between domestic and foreign media as well as mass and personal communication European and International Media Law sets legal and policy developments in the context of this fast changing globalized media and communications sector

The Handbook of Global Communication and Media Ethics Robert S. Fortner, P. Mark Fackler, 2011-03-21 This groundbreaking handbook provides a comprehensive picture of the ethical dimensions of communication in a global setting Both theoretical and practical this important volume will raise the ethical bar for both scholars and practitioners in the world of global communication and media Selected by Choice as an Outstanding Academic Title for 2011 Brings together leading international scholars to consider ethical issues raised by globalization the practice of journalism popular culture and media activities Examines important themes in communication ethics including feminism ideology social responsibility reporting metanarratives blasphemy development and glocalism among many others Contains case studies on reporting censorship responsibility terrorism disenfranchisement and guilt throughout many countries and regions worldwide Contributions by Islamic scholars discuss various facets of that religion's engagement with the public sphere and others who deal with some of the religious and cultural factors that bedevil efforts to understand our world

Experiments with Peace: Desmond Tutu, 2011-02 Impatient provocative and prolific in his pursuit of peace through research publishing and commentary the influential Johan Galtung turned 80 on October 24 2010 without the slightest sign of slowing down This collection of essays celebrates peace in honor of this milestone The wide range of essays explores issues including the eradication of violence conflict transformation resistance to taxation for the military global terrorism and global hegemony nonviolent revolutions learning from nature sport and conflict transformation diplomacy the financial crisis prejudice towards schizophrenia Obama's Nobel Peace Prize speech peace journalism and moving from violent to peace oriented masculinities Also included are commentaries on Galtung's own work and local studies on Colombia Nepal and

Thailand Global Media Spectacle Chin-Chuan Lee, Joseph Man Chan, Zhongdang Pan, Clement Y K So, 2012-02-01 Focusing on the global media coverage of Hong Kong's transfer from Britain to China *Global Media Spectacle* explores how the world media plan, operate, compete and produce a historical record during significant global events. The authors interviewed seventy-six print and television reporters from the United States, Britain, the People's Republic of China, Hong Kong, Taiwan, Australia, Canada, and Japan to delve into the revealing world of writing first drafts of history from reporters' vantage points. Punctuated with witty and incisive examples, the book provides a useful description of contestation and alliance themes and variations and convergence and divergence between and within various blocs of nations. *Impacts of Violent Conflicts on Resource Control and Sustainability* Nyam, Esther Akumbo, Tunde, Asiru Hameed, 2018-08-03 The rise of violent conflicts in developing countries in recent years has attracted concerns from scholars from all fields of study. The significance of the issue calls for an expansion of current research on the various dimensions of violent conflicts and how they impact resource control and sustainability. *Impacts of Violent Conflicts on Resource Control and Sustainability* provides innovative insights into the dimensions and ramifications of violent conflicts, how they are managed, and how resolution efforts contribute to resource control and sustainability. The content within this publication includes information on media coverage of conflict, religious ideology, conflict, and global development. This book is a vital reference source for academicians, researchers, policy makers, government functionaries, and individuals seeking current research on the cause and management of violent conflicts.

International Communication and Globalization Ali Mohammadi, 1997-09-15 Addressing the impact on national societies and cultures of the headlong rate of change in communication between nations, the contributors offer new approaches to this complex and rapidly growing field. The ethics of global communication are discussed. *Mediated Politics* W. Lance Bennett, Robert M. Entman, 2000-11-20 *Mediated Politics* explores the changing media environments in contemporary democracy: the internet, the decline of network news and the daily newspaper, the growing tendency to treat election campaigns as competing product advertisements, the blurring lines between news, ads, and entertainment. By combining new developments in political communication with core questions about politics and policy, a distinguished roster of international scholars offers new perspectives and directions for further study. Several broad questions emerge from the book with ever-increasing media outlets creating more specialized segments, what happens to broader issues? Are there implications for a sense of community? Should media give people only what they want or also what they need to be good citizens? These and other tensions created by the changing nature of political communication are covered in sections on the changing public sphere, shifts in the nature of political communication, the new shape of public opinion, transformations of political campaigns, and alterations in citizens' needs and involvement.
