age Specifically the role of education in bringing Nigeria s new world about are discussed in simple language and then taken up in different forms all through the book Since Nigeria has to act fast and decisively to be on the same development and education wavelength as the other members of today s global family serious actions are being suggested in this book Revitalizing Nigerian Education in Digital Age simply means taking the above desiderata seriously Nigeria has a daunting task here in view of the heavy education burden This is the message that this book puts across
