Global Networks Linked Cities:

Global Networks, Linked Cities Saskia Sassen, 2002 First Published in 2002 Routledge is an imprint of Taylor Francis Global networks, linked cities Saskia Sassen, 2002 Global Networks, Linked Cities Saskia Sassen, 2016-04-15 In her pioneering book The Global City Saskia Sassen argued that certain cities in the postindustrial world have become central nodes in the new service economy strategic sites for the acceleration of capital and information flows as well as spaces of increasing socio economic polarization. One effect has been that such cities have gained in importance and power relative to nation states In this new collection of essays Sassen and a distinguished group of contributors expand on the author's earlier work in a number of important ways focusing on two key issues First they look at how information flows have bound global cities together in networks creating a global city web whose constituent cities become global through the networks they participate in Second they investigate emerging global cities in the developing world Sao Paulo Shanghai Hong Kong Mexico City Beirut the Dubai Iran corridor and Buenos Aires They show how these globalizing zones are not only replicating many features of the top tier of global cities but are also generating new socio economic patterns as well These new patterns of development promise to lead to significant changes in the structure of the global economy as more and more cities worldwide are integrated into globalization s circuitry Includes contributions from Linda Garcia Patrice Riemens Geert Lovink Peter Taylor David Smith Michael Timberlake Stephen Graham Sueli Schiffer Ramos Christoff Parnreiter Felicity Gu David Meyer Pablo Ciccolella Iliana Mignagui Eric Huybrechts Ali Parsa Also includes The Making of a Transnational Capitalist Class William K. Carroll, 2013-04-04 Throughout the world there six maps has been a growing wave of interest in global corporate power and the rise of a transnational capitalist class triggered by economic and political transformations that have blurred national borders and disembedded corporate business from national domiciles Using social network analysis William Carroll maps the changing field of power generated by elite relations among the world's largest corporations and related political organizations Carroll provides an in depth analysis that spans the three decades of the late 20th and early 21st century when capitalist globalization attained unprecedented momentum propelled both by the transnationalization of accumulation and by the political paradigm of transnational neoliberalism This has been an era in which national governments have deregulated capital international institutions such as the World Trade Organization and the World Economic Forum have gained prominence and production and finance have become more fully transnational increasing the structural power of capital over communities and workers Within this context of transformation the book charts the making of a transnational capitalist class reaching beyond national forms of capitalist class organization into a global field but facing spirited opposition from below in an ongoing struggle that is also a struggle over alternative global futures Society Online Philip N. The SAGE Handbook of Sociology Craig Calhoun, Chris Rojek, Bryan S Turner, 2005-06-18 Sociology has evolved greatly since it s inception as an academic discipline It has diverged into numerous strands often flowing in disparate directions so much so that today the notion of canonical sociology has become widely disputed. The field of sociology at present approximates to one of multi paradigmatic complexity in which many approaches to theory must be distinguished and situated In addition the discipline has had to confront new challenges from globalization the shift of interest from production to consumption the rise of new social movements the challenge of bio engineering the collapse of a presently existing socialist alternative and much else besides The new SAGE Handbook of Sociology aims to address these new developments while at the same time providing an authoritative guide to theory and method the key sub disciplines and the primary debates of today To undertake this ambitious project three leading figures in the field of sociology were selected as editors to bring together the foremost exponents of the different strands that contribute towards the make up modern sociology Drawn from both sides of the Atlantic the contributors have been commissioned to utilise the most up to date research available to provide a critical international analysis of their area of expertise The result is this essential resource collection that not just reflects upon the condition of sociology today but also looks to future developments in the discipline The Handbook is invaluable not just all sociologists but to a wide variety of students and researchers across the social sciences Click on Sample Chapters Resources to download the introduction The Emerging Digital Economy Börje Johansson, Charlie Karlsson, Roger Stough, 2006-09-22 This book provides a balanced empirically based view of the Digital Economy and explores its regional and geographical import in areas where the Digital Economy meets more traditional patterns More than just an interpretive analysis this book utilizes empirical evidence in its assessment of the dynamics of specific regions in different parts of the world The book also examines the policy implications of the rising Digital Economy

World City Network Peter J. Taylor, Ben Derudder, 2015-08-17 With the advent of multinational corporations the traditional urban service function has gone global In order to provide services to globalizing corporate clients the offices of major financial and business service firms across the world have generated networks of work It is the myriad of flows between office towers in different metropolitan centres that has produced a world city network Taylor and Derudder's unique and illuminating book provides both an update and a substantial revision of the first edition that was published in 2004 It provides a comprehensive and systematic description and analysis of the world city network as the skeleton upon which

contemporary globalization has been built Through an analysis of the intra company flows of 175 leading global service firms across 526 cities in 2012 this book assesses cities in terms of their overall network connectivity the regional configurations they form and their changing position in the period 2000 12 Results are used to reflect on cities and city state relations in the context of the global ecological and economic crisis Written by two of the foremost authorities on the subject this book provides a much needed mapping of the connecting relationships between world cities and will be a valuable resource for students of urban studies geography sociology and planning The SAGE Handbook of the 21st Century City Suzanne Hall, Ricky Burdett, 2017-10-16 The SAGE Handbook of the 21st Century City focuses on the dynamics and disruptions of the contemporary city in relation to capricious processes of global urbanisation mutation and resistance An international range of scholars engage with emerging urban conditions and inequalities in experimental ways speaking to new ideas of what constitutes the urban highlighting empirical explorations and expanding on contributions to policy and design The handbook is organised around nine key themes through which familiar analytic categories of race gender and class as well as binaries such as the urban rural are readdressed These thematic sections together capture the volatile processes and intricacies of urbanisation that reveal the turbulent nature of our early twenty first century Hierarchy Elites and Evictions Productivity Over investment and Abandonment Authority Governance and Mobilisations Volatility Disruption and Adaptation Conflict Vulnerability and Insurgency Provisionality Infrastructure and Incrementalism Mobility Re bordering and De bordering Civility Contestation and Encounter Design Speculation and Imagination This is a provocative inter disciplinary handbook for all academics and researchers interested in contemporary urban studies **New Critical Writings in Political Sociology** Kate Nash, 2017-03-02 The first volume of the series covers the key themes of political sociology as these have emerged in the course of the sub discipline s development state formation legitimation power regulation and inequality The widening of the focus of political sociology from the nation state and from models of power based on agents wills and explicit agendas is reflected in the selection The volume includes both standard and highly influential contributions such as Elias on violence Habermas on legitimation crisis or Lukes on power and works that are perhaps less well known but which represent a representative cross section of themes and debates in the area The historical formation of the state and its shifting spatial reach are covered in the first and final sections respectively In between both substantial issues e g the changing nature of social policy and welfare regimes and a wide range of theoretical and conceptual issues are discussed by leading representative of the vying positions within the field World City Syndrome David Alexander McDonald, 2008 The literature on e world cities e tm has had an enormous influence on urban theory and planning alike From Manila to London academics and policy makers have attempted to understand and to some extent strive for world city status This book is a study of Cape Town e tm s standing in this network of urban centres and an investigation of the conceptual appropriateness of this world city hypothesis Drawing on more than a dozen years of fieldwork in Cape Town McDonald provides an historical

overview of institutional and structural reforms examining fiscal imbalances political marginalization de racialization privatization and other neoliberal changes By examining and analyzes these reforms and changes McDonald contributes the first radical critique of the world city literature from a developing country perspective
