## **Global Politics Of Regionalism Theory And Practice:**

*Global Politics of Regionalism* Mary Farrell, Björn Hettne, Luk Van Langenhove, 2005-08-20 This book explores the phenomenon of regionalism. In a seeming contradiction to globalization there is a growing tendency for countries to enter into regional arrangements as a response to the pressures of operating in a global marketplace. But regionalism is also emerging as a phenomenon in its own right serving distinct purposes and taking different forms in different areas. The contributors explore how these patterns impact on wider issues such as global governance, democracy and trade. The book reviews the major theoretical approaches to regional cooperation including perspectives from international relations, political economy, economics and sociology. It is divided into three main sections: theoretical approaches to regionalism; issues of regional cooperation such as security, monetary issues, identity and integration; and an exploration of specific case studies including the Middle East, Africa, the Americas, China, Europe, Asia and the Pacific. With an international range of contributors including Bjorn Hettne, Louise Fawcett and Andrew Hurrell, this in-depth and multi-disciplinary guide will be of interest to students across the social sciences and to the wider policy community.

*North-South Regional Trade Agreements as Legal Regimes* Clair Gammage, 2017-05-26 This book offers a critical reflection of the North-South regional trade agreements (RTAs) known as the Economic Partnership Agreements negotiated between the EU and the African, Caribbean and Pacific countries. Conceiving of regions as legal regimes, Clair Gammage highlights the challenges facing developing countries when negotiating RTAs with developed countries and interrogates the assumption that these agreements will and can promote sustainable development through trade.

**A Theory on Africanizing International Law** Micha Wiebusch, 2024-07-01 About the publication Key reference work for diplomats and legal experts participating in international legal negotiations and transnational policy debates on governing the African continent. Highly recommended for developing courses, reading lists and other teaching materials on African International Law and African International Relations. Instrumental for developing innovative and impact-oriented research and policy strategies on the politics of making and implementing African International Law. What is African about African international law? The main aim of this book is to answer this question by developing a theory to explain how and why international law is Africanized. This includes explaining how Africanization relates both to the extent of continental norm setting by the Organization of African Unity and later the African Union as the principal agent responsible for African solutions to African problems and to the degree to which this African International Organization enforces these norms through varied continental accountability mechanisms. In this specific context the book considers the different modalities through which the idea of Africa shapes and is embedded in international law making and implementation.

Hughes, Philippe De Lombaerde, 2007-12-21 This book explores the relationship between regionalization and global governance, surveying the theoretical debates, economic dimensions, security considerations and governing structures.

**Regional Orders and**

**Regional Powers** Nadine Godehardt, Dirk Nabers, 2011 Annotation Regional Powers and Regional Orders presents a re-examination and re-conceptualization of the concept of region and its function within power and order systems. Utilising a comparative and case study approach the volume examines new regional powers such as Brazil, China, India, Russia and South Africa. These territories as regional powers are novel phenomenon in the field of international politics and even more so in the field of international relations. The book focuses on the emerging role of these new regional powers within their respective region and asks how other members of these regions cope with and react to that role. Regional Powers and Regional Orders will be of interest to students and scholars of international and regional politics and power and international relations.

### **The Challenges for Building Regional Integration in the Global South**

Tullo Vigevani, Haroldo Ramanzini Junior, 2022-05-08 This book analyzes regional integration in South America with a focus on the Mercosur and Brazilian foreign policy from the 1990s. It reviews the history of the Mercosur and identifies the results achieved by the bloc as well as the causes of difficulties and the reasons for stalemates over nearly 30 years of its existence. The authors identify the complex interrelation between domestic and foreign factors that have shaped Brazilian foreign policy. From 1991 onwards relations between Latin American countries have changed while the Mercosur developed from a free trade area to a customs union. While intrabloc trade grew there were huge difficulties in the form of regional institutional affirmation and cooperation. This history is of the utmost importance to understanding regionalism and politics in Latin America. **Global and Regional Leadership of BRICS**

**Countries** Stephen Kingah,Cintia Quiliconi,2015-11-17 This book presents a systematic collation of the regional and global dimensions of the leadership role of BRICS countries Brazil Russia India China and South Africa It analyses the rising regional and global leadership of BRICS using specific benchmarks to gauge the nature of this leadership The elements examined include willingness to lead the capacity to do as much and the degree to which the given actor is accepted as a leader both within and beyond its region The chapters in the book capture the nature of trends in regional and global leadership within the contexts of a changing international order It is taken for granted that Brazil Russia India China and South Africa are now engineering a unique pool of governance that is seeking alternatives to the current order of global economic and political affairs The fact that these countries have jointly decided to forge ahead with the BRICS constellation of states that is now taking consequential decisions such as the creation of the BRICS New Development Bank is not to be treated lightly In this book the majority of papers take a step back and systematically analyse the real state of the leadership that is provided by the BRICS on a litany of regionally and globally relevant issues While no one doubts the fact that these countries have the capacity to provide leadership especially in their various regions on many issues what remains moot is whether they are willing and capable to do so at the global level Even in those cases where there is the willingness and capacity the book argues that the acceptance of such leadership by potential followers is not always a given
