Globalization and Some of Its Contents George Rosen,2005 **Globalising Migration History** ,2014-03-27

Globalizing Migration History is a major step forward in comparative global migration history Looking at the period 1500 2000 it presents a new universal method to quantify and qualify cross cultural migrations which makes it possible to detect regional trends and explain differences in migration patterns across the globe in the last half millennium The contributions in this volume written by specialists on Russia China Japan India Indonesia and South East Asia show that such a method offers a fruitful starting point for rigorous comparisons Furthermore the volume is an explicit invitation to other economic cultural social and political historians to include migration more explicitly and systematically in their analyses and thus reach a deeper understanding of the impact of cross cultural migrations on social change Contributors are Sunil Amrith Ulbe Bosma Gijs Kessler Jelle van Lottum Jan Lucassen Leo Lucassen Mireille Mazard Adam McKeown Atsushi Ota Vijaya Ramaswamy Osamu Saito Jianfa Shen Ryuto Shimada Willard Sunderland and Yuki Umeno **Who's who in Finance and Business**

in Global Korea Joanne Miyang Cho, Lee M. Roberts, Sang Hwan Seong,2023-11-17 Contrary to the image of Korea as a largely self contained country until its economy became global during the 1990s this book shows that transnationalism has firmly been part of modern Korea s national experience throughout its existence The volume portrays Korea s frequent transnational entanglements with other nations in East Asia and the West from the start of its annexation into the Empire of Japan in 1910 to the present day It explores how modern Korea negotiated its complicated colonial relations with imperial Japan and its political and economic relations with the West in meeting the challenges of the globalized world Early chapters cover the origins of Korea s democratic republicanism among Korean immigrants in the United States the Royal Dutch oil

industry in Korea and prisons in the Japanese empire From the latter half of the twentieth century to the present the book probes Cold War politics between Korea and Europe transnational Korean communities in China Japan the Russian Far East and the West and ethnic Korean returnees from the Russian Far East With contributions from leading international scholars this collection s attention to modern Korean history economy gender studies and migration is ideal for upper level undergraduates and postgraduates *American Book Publishing Record* ,2007 **World History** Candice Goucher,Linda Walton,2013-03-12 World History Journeys from Past to Present uses common themes to present an integrated and comprehensive survey of human history from its origins to the present day By weaving together thematic and regional perspectives in coherent chronological narratives Goucher and Walton transform the overwhelming sweep of the human past into a truly global story that is relevant to the contemporary issues of our time Revised and updated throughout the second edition of this innovative textbook combines clear chronological progression with thematically focused chapters divided into six parts as follows PART 1 EMERGENCE Human origins to 500 CE PART 2 ORDER 1 CE 1500 CE PART 3 CONNECTIONS 500 1600 CE PART 4 BRIDGING WORLDS 1300 1800 CE PART 5 TRANSFORMING LIVES 1500 1900 PART 6 FORGING A GLOBAL COMMUNITY 1800 Present The expanded new edition features an impressive full color design with a host of illustrations maps and primary source excerpts integrated throughout Chapter opening timelines supply context for the material ahead while end of chapter questions and annotated additional resources provide students with the tools for independent study Each chapter and part boasts introductory and summary essays that guide the reader in comprehending the relevant theme In addition the companion website offers a range of resources including an interactive historical timeline an indispensable study skills section for students tips for teaching and learning thematically and PowerPoint slides lecture material and discussion questions in a password protected area for instructors This textbook provides a basic introduction for all students of World History incorporating thematic perspectives that encourage critical thinking link to globally relevant contemporary issues and stimulate further study On the Shoulders of Grandmothers Cinzia Solari,2017-08-03 On the Shoulders of Grandmothers is a global ethnography of Ukrainian transnational migration Gendered migrant subjectivities are a key site for understanding the production of neoliberal capitalism and Ukrainian nation state building a fraught process that places Ukraine precariously between Europe and Russia with dramatic implications for the political economy of the region However processes of gender and migration that undergird transnational nation state building require further attention Solari compares two patterns of Ukrainian migration the forced exile of middle aged women most grandmothers to Italy and the voluntary exodus of families led by the same cohort of middle aged women to the United States In both receiving sites these migrants are caregivers to the elderly Using in depth interviews and ethnographic data collected in three countries Solari shows that Ukrainian nation state building occurs transnationally She examines the collective practices of migrants who are building the new Ukraine from the outside in and shaping both Italy and the United States as well The

Ukrainian state in order to fulfil its First World aspirations of joining Europe and distancing itself from all things Soviet is pursuing a gendered reorganization of family and work structures to achieve a transition from socialism to capitalism This has created a labor force of migrant grandmothers who carry the new Ukraine on their shoulders Solari shows that this post Soviet economic transformation requires a change in the moral order as migrant women struggle to understand how to be good mothers and grandmothers and men join women in attempts to teach their children to be successful and honorable people now that the social rules have drastically changed Looking at individual migrant women and men and their families in Ukraine allows us to see the production of neoliberal capitalism and new nationalism from the ground up and the outside in for a region that promises to be a flashpoint in our century

Globalizations from Below Theodor Tudoroiu, 2022-09-09 Globalizations from Below uses a Constructivist International Relations approach that emphasizes the centrality of normative power to analyze and compare the four globalizations from below These are 1 the counter hegemonic globalization represented by the movement of movements of alter globalization transnational social activists who try to put an end to the Neoliberal nature of the Western centered globalization from above 2 the non hegemonic globalization enacted by ant traders that are part of the transnational informal economy 3 the partially similar Chinese centered globalization whose entrepreneurial migrants are strongly influenced and instrumentalized by the Chinese state and 4 the first wave globalization from below that paralleled and outlived the 1870 1914 globalization from above This book identifies their common features and uses them to define the concept of globalization from below as a set of socio economic or socio political processes that involve large transnational flows of people goods and or ideas characterized at least in part by informality They are enacted by entrepreneurial or activist individuals who either take advantage of the normative power of the hegemon at the origin of an international order and an associated globalization from above or explicitly or implicitly transgress contest and try to redefine dominant economic legal political and socio cultural norms thus challenging the existing international order and globalization from above By constructing a unified theoretical framework this book attempts to open a new field of interdisciplinary research that should take globalizations from below out of their

current scholarly marginality This is one of the first scholarly works to collectively present more than one globalization from below and will be of great interest to students scholars and researchers of International Relations International Political Economy Development Studies Economic History Anthropology Diaspora Studies and Chinese Studies **Diversity Amid Globalization** Lester Rowntree, 2003 For undergraduate World Regional Geography courses Could also be used for a course on globalization Diversity Amid Globalization is an exciting contemporary approach to World Regional Geography that explicitly acknowledges the geographic changes that accompany today's rapid rate of globalization The book's unique approach gives students access to the latest ideas concepts and theories in geography while concurrently developing a strong foundation in the fundamentals of world regions The book helps professors engender a strong sense of place and an understanding of the connections within and between world regions NEW Expanded treatment of globalization in chapter 1 NEW New sections on global terrorism NEW Expanded discussion of environmental geography NEW New and refined maps in each chapter Provides students with the most recent population data and state of the art cartography to display these data NEW ABC Videos NEW Mapping Workbook to accompany Diversity Amid Globalization 2 e Thematic Structure of Regional Chapters Fosters a more structured and penetrating treatment of geographic themes and concepts and facilitates comparisons of specific Higher Education in the High North Marit Sundet, Per-Anders Forstorp, Anders Örtengren, 2017-06-08 This book focuses on how the Northern futures are transformed through regional cooperation in the Barents eduscape a study of the social cultural and political aspects of higher education and the exchanges of learning and people in the Euro Arctic Barents region especially between Norway and Russia Cultural exchange through higher education involving actors such as students and institutions is an integral part both of the Bologna process and of the policies currently changing higher education It is also a process of social and cultural change of which we have limited knowledge Cultural exchange is learned implemented and performed by the actors who are involved from the highest political level to the grassroots and the students themselves Available knowledge of these macro and micro processes of cultural exchange is largely fragmented and distinctly framed in national and or disciplinary i e pedagogical contexts In order to understand the transformative potentials of higher education and cultural exchange this book focuses on the social cultural and political aspects of the transformations of the futures in the North This book shows that educational cooperation between Norway and Russia is possible but also that the existing practices are extremely vulnerable to changes seen through micro theoretical perspectives By developing new theories which bind major theories international political decisions methodological procedures and contextual descriptions together this book is a first step in the direction of institutionalizing educational cooperation between the various and different academic societies cultures and political systems
