Studies **Globalization and Politics** Jan-Erik Lane,2017-11-28 Globalization and Politics brings together vision and imaginative insight to the analysis of the evolution of inter state politics to produce a clear comprehensive and coherent sense of how globalization works and how it might work better The study looks upon globalization as a distinct set of phenomena energy economy environment and politics all of which interact Presenting opportunities for interdependency and governance globalization offers both dangers and promises which explains why it is equally feared and praised Globalization is an economic trend with strong spillovers and as such has become a political trend with cultural implications This volume is an invaluable highly readable new text for graduate and undergraduate courses It sets out the key challenges for globalization in the 21st century and looks at the challenges responses and risks of globalization It is required reading for analysts students and professionals who want to understand what s at stake in the globalization debate *The Discourse of Neoliberalism* Simon Springer,2016-07-29 Why should we be worried about neoliberalism if we are not able to fully appreciate its deleterious effects How can we fully appreciate its intricacies and power without attending to and seeking to potentially reconcile the various critical theorizations of how it actually operates The Discourse of Neoliberalism offers a critical political economy meets poststructuralist perspective on the relationship between neoliberalism and power By advancing a geographical approach to understanding the discursive formations and material consequences of neoliberalism the book exposes how processes of neoliberalization are shot through with violence It argues that reading neoliberalism as a discourse better equips us to understand the power of this variegated economic formation as an expansive process of social spatial transformation that is intimately bound up with the production of poverty inequality and violence across the globe It illuminates the vital and ongoing power of neoliberalism in order to open up a critical space for thinking through how life beyond neoliberalism might be achieved The Globalization Decade Leo Panitch,2004 Over the past decade the contributors to The Socialist Register have been widely recognised as providing the Left s most distinctive investigations on the contradictions of globalisation the internationalisation of the state progressive competitiveness the new imperialism and mobilisations against it Providing political and economic analyses this anthology looks at the cultural contradictions of globalisation It includes a set of readings on the role of states especially that of the United States in making globalisation happen It examines the problems these states now confront in trying to keep it going *Globalisation* Pranab Kanti Basu,2008 On the international economic organisations in the age of globalization examined from Marxist perspective with partial reference to its impact on India Shifting the Ground of Canadian Literary Studies Smaro Kamboureli,Robert Zacharias,2013-01-15 Shifting the Ground of Canadian Literary Studies is a collection of interdisciplinary essays that examine the various contexts political social and cultural that have shaped the study of Canadian literature and the role it plays in our understanding of the Canadian nation state The essays are tied together as instances of critical practices that reveal the relations and exchanges that take place between the categories of the literary and the nation as well as between

the disciplinary sites of critical discourses and the porous boundaries of their methods They are concerned with the material effects of the imperial and colonial logics that have fashioned Canada as well as with the paradoxes ironies and contortions that abound in the general perception that Canada has progressed beyond its colonial construction Smaro Kamboureli's introduction demonstrates that these essays engage with the larger realm of human and social practices throne speeches book clubs policies of accommodation of cultural and religious differences Indigenous thought about justice and ethics to show that literary and critical work is inextricably related to the Canadian polity in light of transnational and global forces

Race and the Politics of Deception Christopher Mele, 2017-01-10 What is the relationship between race and space and how do racial politics inform the organization and development of urban locales In *Race and the Politics of Deception* Christopher Mele unpacks America's history of dealing with racial problems through the inequitable use of public space Mele focuses on Chester Pennsylvania a small city comprised of primarily low income black residents roughly twenty miles south of Philadelphia Like many cities throughout the United States Chester is experiencing post industrial decline A development plan touted as a way to save the city proposes to turn one section into a desirable waterfront destination while leaving the rest of the struggling residents in fractured communities Dividing the city into spaces of tourism and consumption versus the everyday spaces of low income residents Mele argues segregates the community by creating a racialized divide While these development plans are described as socially inclusive and economically revitalizing Mele asserts that political leaders and real estate developers intentionally exclude certain types of people most often low income people of color *Race and the Politics of Deception* provides a revealing look at how our ever changing landscape is being strategically divided along lines of class and race [Routledge Handbook of Southeast Asian Development](#) Andrew McGregor, Lisa Law, Fiona
