Football in Fiction represents the most comprehensive historical mapping and analysis of novels related to association football soccer. It offers a theoretically informed field guide, a scholarly cartography of football fiction's uncertain and until now only partially explored terrain. Combining an extensive search for texts with up-to-date academic research, journals, surveys, catalogues, and reviews, the book demonstrates a topographic perspective of the field, one that captures and establishes its breadth, depth, and distinctive identity. The book uses and adapts two distinct reading models of abstraction in conjunction with closer textual analyses. Together, they assist in realising a set of demonstrable conventions, outline a taxonomy of fictive types, establish the genre's current state of play, and advance the football novel as a form with its own literary history and traditions. This book is a valuable resource for those studying and researching in the areas of the social and cultural aspects of football, sports fiction, sports writing, creative writing, and literary and genre studies. Furthermore, related industry professionals will find this a fascinating read, particularly football writers, fans of the sport, and those interested in sports history and cultural phenomena.

Educators want young people to grow up knowing that writing is an important and deeply satisfying life skill, one that helps them make more sense of themselves and their world, and one that helps them to communicate effectively. Sadly, too often, writing becomes merely an exercise in getting words right or writing to teacher-prescribed tasks. *Developing Young Writers in the Classroom* explores the principles of developing literacy through authorship, allowing children to describe, question, and celebrate their own experiences and personal creativity. The book offers detailed guidance, supported by planning documents, poetry, and prose examples of children's work, and stimulating visuals. Inspiring topics explored include creating a classroom environment which supports an independent writer, students' lives brought into the classroom, finding significance in our experiences, the use of memoir for recording experiences, description in all kinds of writing, choosing and writing about a character, writing in all curriculum areas, linking reading and writing, using other authors as mentors, and teachers' collaborative learning. Illustrated throughout with accessible activities and ideas from literature and poetry, *Developing Young Writers in the Classroom* is an essential resource for all teachers wishing to inspire writing in the classroom.
