**The Zodiac Conspiracy : Your Real Sun Sign** Dr. Atara,2011-11-14 The appearance of an astronomer who was discussing the 13th constellation on national TV last year caused a huge outcry from the public The big question was How can my sun sign be different Many people concluded that the astronomer did not know what he was talking about People wanted to know how their Sun sign could be different than what they had been told all these years Actually the astronomer was very correct he was telling everyone the truth as indicated by the science of astronomy which the psycholgical art of astrology is based upon There are 13 constellations and has always been 13 This is why the book also features a section on Ophiuchus which is the

13th constellation and the only constellation sign named after a human being Imhotep an African Egyptian There has been a conspiracy of silence among Western astrologers to misrepresent the history of astrology and ignore the truth of astronomy Since astrologers did not adhere to the science of astronomy as dictated by the constellations they created an alternative paradigm called the Koch zodiac system which only acknowledges 12 constellations and therefore 12 signs Astrologers who live in the Eastern part of the world practice the truth of astronomy by using the Sidereal zodiac system Most people in the Western world actually believe that on January 1st their Sun sign is Capricorn However the truth is that the Sun is actually in the constellation of Sagittarius This is the truth of astronomy and the sidereal zodiac system So if you were born on January 1st of any year your Real Sun Sign is Sagittarius not Capricorn This book shows everyone who wants to continue believing in their old sign while embracing the truth of their Real Sun Sign how to blend these two systems so that who you REALLY ARE and what you are destined to learn about yourself is anchored in the truth It is a gentle reminder that you are not living your most authentic self Are you the Virgo Selfless Servant or Aquarius The Giver Read the Zodiac Conspiracy and be introduced to the truth and Your Real Sun Sign **Sign Steal Deliver** Carrie Pulkinen, 2021-07-22 He may be the god of thieves but he is not ready for the one who steals his heart Calico shifter Kat Gataki has a plan All she has to do is swipe the key to the underworld so she can get down to Elysium and apologize to her sister for being a royal witch with a capital B It should be a piece of cake for a trained cat burglar like herself but there is one slight problem The owner of said key happens to be Hermes as in the smoldering hot god from Olympus And no one steals from the god of thieves That is what Hermes likes to believe until a trip to Mardi Gras introduces him to the most alluring cat burglar he has ever seen Hermes wastes no time falling head over winged sandals for Kat but following his heart soon lands him in a mess of trouble that only the Fates could see coming Kat has stolen both his key and his heart and he only has twelve hours to find her If he fails they will both be spending eternity in the underworld If you like quirky humor and heroes with heart you will love this Greek gods inspired paranormal romantic comedy What Made Tibet Mysterious?
