Methods for Teaching Elementary School Science Joseph M. Peters,David L. Stout,2006 For Elementary Science Methods courses Streamlined to be more manageable in limited class time the new edition of Methods for Teaching Elementary School Science has been crafted to be the text that best prepares pre service teachers for today s science classroom It accomplishes this by clearly modeling inquiry teaching and addressing the realities of the contemporary science classroom Metaphor Translation in Popular Science Sui He,2024-12-30 This book explores the intersection of metaphor studies and translation studies specifically focusing on popular scientific articles The volume complements existing work on conceptual metaphor theory in translation by aligning it with conceptual blending theory to demonstrate how an integrated

approach offers a more expansive understanding of the cognitive and linguistic dimensions of metaphor translation. It includes an essential introduction to the key concepts and theories in metaphor studies and metaphor translation research, discerning the importance of localising theories from neighbouring disciplines such as metaphor studies for advancing interdisciplinary research in translation studies. Sui He applies this approach to popular cosmological discourse, analysing examples from articles in *Scientific American* and their Chinese translations, allowing for a nuanced examination of translation strategies adopted by translators at both cognitive and linguistic levels, which presents the circulation and transformation of popular cosmological knowledge from English in two Chinese mediated communities. This book will be of interest to students and scholars in translation studies, metaphor studies and discourse analysis.
