God And Caesar In China Policy Implications Of Church State Tension:

God and Caesar in China Jason Kindopp, Carol Lee Hamrin, 2004 This work examines religion policy in China the history and growth of the Catholic and Protestant churches in China and the implications of church state friction for US China relations It concludes with recommendations for US policy **Making Religion, Making the State** Yoshiko Ashiwa, David L. Wank, 2009 This volume combines the perspective of religion as a constructed category of modernity with the analytic focus and empirical grounding of institutional social science to develop a new approach to the study of state and religion in modern and contemporary China *The Politics of Protestant Churches and the Party-State in China* Carsten Vala, 2017-09-06 Among China's restive religious and social groups Protestants have arguably created the most sustained structural challenges to the Chinese Communist Party's ordering of society By drawing on grassroots fieldwork conducted across the country this book therefore charts the ambition of the government to restrain Protestant population growth and direct it towards regime purposes In particular interviews with key church leaders who founded illegal Protestant congregations with hundreds of participants reveal how officials and illegal congregational leaders have developed ties of trust and information that have permitted church growth even as they preserve a public image of Party domination Thus by tracing the rise of large illegal Protestant congregations apart from Party state structures this book highlights the importance of the public behaviour of religious actors and regime officials in understanding the dynamics of negotiation domination and resistance in 21st century China Ultimately *The Politics of Protestant Churches and the Party State in China* paradoxically demonstrates that societal actors can alter the boundaries set by the Chinese Communist Party and the ways in which the Party is both more adaptive and resilient in its relations with society than first imagined Offering the first book length analysis of how ambitious Protestants have founded large unregistered churches despite regime pressure this book will be useful for students and scholars of Chinese Politics Chinese Religion and Sociology *Christianity in Contemporary China* Francis Khek Gee Lim, 2013-05-07 Christianity is one of the fastest growing religions in China Despite its long history in China and its significant indigenization or intertwinement with Chinese society and culture Christianity continues to generate suspicion among political elites and intense debates among broader communities within China This unique book applies socio cultural methods in the study of contemporary Christianity Through a wide range of empirical analyses of the complex and highly diverse experience of Christianity in contemporary China it examines the fraught processes by which various forms and practices of Christianity interact with the Chinese social political and cultural spheres Contributions by top scholars in the field are structured in the following sections Enchantment Nation and History Civil Society and Negotiating Boundaries This book offers a major contribution to the field and provides a timely wide ranging assessment of Christianity in Contemporary China [China's Reforming Churches](#) Bruce P. Darkest before the Dawn Richard R. Cook, 2021-11-02 The Christian church was always destined to find its way to China Long before the birth of the church China existed coalescing around profound philosophical concepts and powerful cultural symbols It developed into a dynamic and enduring civilization In time Christian missionaries arrived on its shores driven to bring the gospel to this people This book starts with the story of that journey the arrival of the missionaries who planted the seeds of the gospel in

Chinese soil As the seeds sprouted and grew a new story of a unique and distinct Chinese church began The epic narrative opens from uncertain beginnings in darkness passes through intense hardship and years of struggle and culminates with the triumphal emergence of the Chinese church from the shadows into the light of the global stage **Handbook on Religion in China** Stephan Feuchtwang,2020-02-28 Informative and eye opening the Handbook on Religion in China provides a uniquely broad insight into the contemporary Chinese variations of Buddhism Islam and Christianity In turn China s own religions and transmissions of rites and systems of divination have spread beyond China a progression that is explored in detail across 19 chapters written by leading experts in the field **Marginalization in China** Joseph Tse-Hei Lee,Lida V. Nedilsky,2009-06-22 Bringing together historians sociologists and political scientists this volume documents persistent prejudices against consistently marginal groups in China and the moral claims they have mustered in response

Grassroots Asian Theology Simon Chan,2014-05-02 A dynamic chapter of church history is now being written in Asia But the theological inflections at its heart are not well understood by outsiders Simon Chan explores Asian Christianity at its grassroots sustaining level and finds a vibrant implicit theology that is authentically Asian More than a survey this is a serious and constructive contribution to Asian theology Charting China's Future Jae Ho Chung,2006-08-24 China has become an undisputed global phenomenon yet twenty five years ago its remarkable accomplishments were largely unforeseen In an ambitious effort to predict China s coming decades this book explores not only the economic development that has been a key indicator of its success but the often veiled political social and international determinants that will be crucial Leading scholars draw on their years of experience and on the ground understanding of current trends to make informed estimates of China s path positing that its future may well hold neither threat nor collapse All of the contributors provide a set of scenarios and order them in terms of likelihood including the seven factors they have identified as central to charting China s future the Communist Party local electoral reforms and rule of law the federalist possibility social unrest foreign policy orientations Sino American relations and the Taiwan conundrum This book is a must read for anyone who wants to understand China as it rises in power on the world stage Contributions by Jean Pierre Cabestan Jae Ho Chung Bruce J Dickson Peter Hays Gries Tao chiu Lam Yawei Liu Gilbert Rozman and Shiping Tang Resistance Under Communist China Ray Wang,2019-04-24 This book examines religious activism Christianity Buddhism and Taoism in China a powerful atheist state that provides one of the hardest challenges to existing methods of transnational activism The author focuses on mechanisms used by three kinds of actors protesters advocates and opportunists and uses regional inter faith and international comparisons to understand why some foreign advocates can enter China and engage in illegal aid and missions to empower local activists while the same groups cannot conduct the same activities in another geographically economically and politically similar location The stories in this book demonstrate a more inclusive and bottom up approach of transnational activism they challenge the conventional spiral theory paradigm of human rights literature and the narrow views about

GONGOS in civil society literature This new knowledge helps to sustain a more optimistic view and offers an alternative way of promoting human rights in China and countries with similar authoritarian environments

Christianity and Religious Plurality Wilbert R. Shenk, Richard J. Plantinga, 2016-10-11 Over the past two centuries the Christian faith has spread to all continents Although more global than ever Christians are religious minorities in most societies Religious freedom is hardly universal In the past fifty years millions of people have been uprooted from their traditional homelands in Asia Africa and Latin America Some have emigrated to Western Europe and North America The West has become the scene of cultural linguistic and religious variety on a scale unimagined in 1900 Today the full range of faiths and religious practices from all continents are present in Europe and North America Christians are challenged to come to terms with this changed situation These developments have intensified religious plurality Christians all over the world are being urged to understand and engage with this new situation This volume highlights this new reality and specifies some sources for engagement not least among them the Judeo Christian scriptures fundamental to all Christianities that emerged out of religious plural contexts On the basis of their faith in the Triune God disclosed in this text all followers of Jesus Christ must interact with these opportunities in today's radically context sensitive world

At the Frontier of God's Empire Ji Li, 2023 To a lively cast of international players that shaped Manchuria during the early twentieth century *At the Frontier of God's Empire* adds the remarkable story of Alfred Marie Caubrière 1876-1948 A French Catholic missionary Caubrière arrived in Manchuria on the eve of the Boxer Uprising in 1899 and was murdered on the eve of the birth of the People's Republic of China in 1948 Living with ordinary Chinese people for half a century Caubrière witnessed the collapse of the Qing empire the warlord's chaos that followed the rise and fall of Japanese Manchukuo and the emergence of communist China Caubrière's incredible personal archive on which Ji Li draws extensively opens a unique window into everyday interaction between Manchuria's grassroots society and international players His gripping accounts personalize the Catholic Church's expansion in East Asia and the interplay of missions and empire in local society Through Caubrière's experience *At the Frontier of God's Empire* examines Chinese people at social and cultural margins during this period A wealth of primary sources family letters and visual depictions of village scenes illuminate vital issues in modern Chinese history such as the transformation of local society mass migration and religion tensions between church and state and the importance of cross cultural exchanges in everyday life in Chinese Catholic communities This intense transformation of Manchurian society embodies the clash of both domestic and international tensions in the making of modern China

The Party and the People Bruce J. Dickson, 2021-05-25 How the Chinese Communist Party maintains its power by both repressing and responding to its people Since 1949 the Chinese Communist Party CCP has maintained unrivaled control over the country persisting even in the face of economic calamity widespread social upheaval and violence against its own people Yet the party does not sustain dominance through repressive tactics alone it pairs this with surprising responsiveness to the public *The Party and the People* explores how this paradox

has helped the CCP endure for decades and how this balance has shifted increasingly toward repression under the rule of President Xi Jinping Delving into the tenuous binary of repression and responsivity Bruce Dickson illuminates numerous questions surrounding the CCP's rule How does it choose leaders and create policies When does it allow protests Will China become democratic Dickson shows that the party's dual approach lies at the core of its practices repression when dealing with existential political threats or challenges to its authority and responsiveness when confronting localized economic or social unrest The state answers favorably to the demands of protesters on certain issues such as local environmental hazards and healthcare but deals harshly with others such as protests in Tibet Xinjiang or Hong Kong With the CCP's greater reliance on suppression since Xi Jinping's rise to power in 2012 Dickson considers the ways that this tipping of the scales will influence China's future Bringing together a vast body of sources The Party and the People sheds new light on how the relationship between the Chinese state and its citizens shapes governance

The Religious Question in Modern China Vincent Goossaert, David A. Palmer, 2011-03-15 Recent events from strife in Tibet and the rapid growth of Christianity in China to the spectacular expansion of Chinese Buddhist organizations around the globe vividly demonstrate that one cannot understand the modern Chinese world without attending closely to the question of religion The Religious Question in Modern China highlights parallels and contrasts between historical events political regimes and cultural movements to explore how religion has challenged and responded to secular Chinese modernity from 1898 to the present Vincent Goossaert and David A. Palmer piece together the puzzle of religion in China not by looking separately at different religions in different contexts but by writing a unified story of how religion has shaped and in turn been shaped by modern Chinese society From Chinese medicine and the martial arts to communal temple cults and revivalist redemptive societies the authors demonstrate that from the nineteenth century onward as the Chinese state shifted the religious landscape consistently resurfaced in a bewildering variety of old and new forms The Religious Question in Modern China integrates historical anthropological and sociological perspectives in a comprehensive overview of China's religious history that is certain to become an indispensable reference for specialists and students alike
