God And Religion In The Postmodern World:

God and Religion in the Postmodern World David Ray Griffin, 1989-01-01 Addressed to readers who have found liberal theology empty or who believe that one cannot be religious and fully rational and empirical at the same time **Above All Earthly Pow'rs** David F. Wells, 2005 In this prophetic call to the evangelical church Wells stresses that Christians need to confess Christ as the center in a society lacking a center as the sovereign in a world seemingly ruled by chance and as the one who can give meaning in a nihilistic culture **God and religion in the postmodern world** David Ray Griffin, 1995

The Cambridge Companion to Postmodern Theology Kevin J. Vanhoozer, 2003-07-31 Postmodernity allows for no absolutes and no essence Yet theology is concerned with the absolute the essential How then does theology sit within postmodernity Is postmodern theology possible or is such a concept a contradiction in terms Should theology bother about postmodernism or just get on with its own thing Can it Theologians have responded in many different ways to the challenges posed by theories of postmodernity In this introductory 2003 guide to a complex area editor Kevin J Vanhoozer addresses the issue head on in a lively survey of what talk about God might mean in a postmodern age and vice versa The book then offers examples of different types of contemporary theology in relation to postmodernity while the second part examines the key Christian doctrines in postmodern perspective Leading theologians contribute to this clear and informative Companion which no student of theology should be without **The Cambridge Companion to Postmodernism** Steven Connor, 2004-07-15 The Cambridge Companion to Postmodernism offers a comprehensive introduction to postmodernism The Companion examines the different aspects of postmodernist thought and culture that have had a significant impact on contemporary cultural production and thinking Topics discussed by experts in the field include postmodernism s relation to modernity and its significance and relevance to literature film law philosophy architecture religion and modern cultural studies The volume also includes a useful guide to further reading and a chronology This is an essential aid for students and teachers from a range of disciplines interested in postmodernism in all its incarnations Accessible and comprehensive this Companion addresses the many issues surrounding this elusive enigmatic and often controversial topic Religion and Modern Thought Victoria S. Harrison, 2007 Written specifically for level 2 undergraduates this textbook introduces readers to the extremely wide range of forms of religious thought and the responses of religion to modern ideas cultural phenomenon and events of the 20th century Loving God with All Your Mind Gene Edward Veith Jr., 2003-10-07 Our world is alive with fascinating new ideas discoveries and technologies But for Christians this can also present problems especially when the values of postmodernism and secular university life conflict with basic Christian principles What should Christians do when their beliefs come under attack in the classroom or the public square *Loving God with All Your Mind* shows us that the answer is neither wholesale rejection of intellectual life and culture nor blind acceptance of it The answer lies in understanding that Jesus is Lord of all of life and that everything in life must be carefully viewed in the light of what Christ s lordship means

Gene Edward Veith unfolds a dazzling critique of the postmodern intellectual world and culture. He affirms the part that is good and true but he also shows crucial weaknesses that have such a hold over contemporary thought. This book shows Christians how to survive and flourish in a postmodern world while affirming the truth of the Christian faith.

Triangulating Religion, Belief, and Faith in the Twenty-First Century Bradford McCall, 2025-01-16 This book gives the reader the ability to make new inroads to understanding how faith, belief, and religion not only differ but also how they can contribute to comparative theology. These three topics broadly covered herein can heighten the understanding of the Sacred by those who study them. As to a few preliminaries: what is faith? Further, what is belief? Which one comes first in a person's journey toward the Sacred? Moreover, does religion factor into these two terms and if so, where and how? Does Augustine's well-worn line, "faith seeking understanding," mean anything today? If it does, would it mean belief comes prior to faith and/or religion? One can argue both sides of this debate and still be considered orthodox, seemingly. Perhaps it is the case that belief precedes faith most of the time but not all of the time. Perhaps it is the other way around. What exactly is the demarcation between belief and faith? Many a person believes a thing to be true in their very bones; such a stance borders on what is commonly referred to as faith. Is religion the combination of belief and faith together into a coherent system of thought, or is it emergent from the two, existing as a separate mental or spiritual entity? Explore these questions and more.

Novel Theology Darren J. N. Middleton, 2000 Literature and theology constantly deconstruct each other. Suggesting that this deconstructive assignment is one that cannot but be in process itself, Middleton returns to it throughout his study.

Twentieth-Century Western Philosophy of Religion 1900-2000 Eugene Thomas Long, 2003-06-30 This book provides a historical map of 20th-century philosophy of religion from absolute idealism to feminism and postmodernism. Dividing the 20th into four eras and eighteen primary strands, the book provides the historical context for the more specialized volumes that follow. This first volume is of interest to those working in the fields of philosophy of religion and theology.

Varieties of Postmodern Theology David Ray Griffin, 1989-07-01 This book sorts out the confusion created by the use of the term postmodern in relation to widely divergent theological positions. Four different types of postmodern theology are distinguished in the preface: constructive, deconstructive, liberationist, and conservative. Two forms of each type are discussed in the book. Writing from a constructive postmodern perspective, the authors enter into dialogue with the deconstructive postmodernism of Mark C. Taylor and Jean-François Lyotard, with the liberationist postmodernism of Harvey Cox and Cornel West, and with the conservative postmodernism of George William Rutler and John Paul II.

Faith and Knowledge Douglas Sloan, 1994-01-01 Sloan explores the impact that the Protestant theological renaissance (1925-1960) had on American colleges and universities, focusing in particular on the church's most significant claim to have a continuing voice in higher education. He traces the role of the national ecumenical and denominational organizations and studies the changing place of college chaplains.

A New Handbook of Christian Theologians Donald W. Musser, 1996-09-01 In recent years the flow of Christian

theology has been channeled in diverse streams represented by such trends and movements as black theology liberation theology feminist theology and womanist theology To survey this abundance and diversity of current Christian theology this book examines the theologies of representative theologians Particularly to help students navigate the sea of information the editors have identified various routes for reading and have traced several threads or issues common to many of the essays thus demarcating such recurrent concerns as the ways in which the theologians consider the sources and goals for theology their variant assumptions and conclusions about the nature of God their divergent approaches to understanding the person and purpose of the Christ and their distinct expectations for the destiny of history and faith *SCM Core Text: Religion and Modern Thought* Victoria Harrison, 2013-01-03 Written specifically for level 2 undergraduates this textbook introduces readers to the extremely wide range of forms of religious thought and the responses of religion to modern ideas cultural phenomenon and events of the 20th century The Making of American Liberal Theology Gary J. Dorrien, 2006-01-01 In this first of three volumes Dorrien identifies the indigenous roots of American liberal theology and demonstrates a wider longer running tradition than has been thought The tradition took shape in the nineteenth century motivated by a desire to map a modernist third way between orthodoxy and rationalistic deism atheism It is defined by its openness to modern intellectual inquiry its commitment to the authority of individual reason and experience its conception of Christianity as an ethical way of life and its commitment to make Christianity credible and socially relevant to modern people Dorrien takes a narrative approach and provides a biographical reading of important religious thinkers of the time including William E Channing Ralph Waldo Emerson Horace Bushnell Henry Ward Beecher Elizabeth Cady Stanton and Charles Briggs Dorrien notes that although liberal theology moved into elite academic institutions its conceptual foundations were laid in the pulpit rather than the classroom **After God** Mark C. Taylor, 2009-03 With fundamentalists dominating the headlines and scientists arguing about the biological and neurological basis of faith religion is the topic of the day But religion Mark C Taylor shows is more complicated than either its defenders or critics think and indeed is much more influential than any of us realize Our world Taylor maintains is shaped by religion even when it is least obvious Faith and value he insists are unavoidable and inextricably interrelated for believers and nonbelievers alike Using scientific theories of dynamical systems and complex adaptive networks for cultural and theological analysis After God redefines religion for our contemporary age Taylor begins by asking a critical question What is religion He then proceeds to explain how Protestant ideas in particular undergird the character and structure of our global information society the Reformation Taylor argues was an information and communications revolution that effectively prepared the way for the media revolution at the end of the twentieth century Taylor's breathtaking account of religious ideas allows us to understand for the first time that contemporary notions of atheism and the secular are already implicit in classical Christology and Trinitarian theology Weaving together theoretical analysis and historical interpretation Taylor demonstrates the codependence and coevolution of traditional religious beliefs

and practices with modern literature art architecture information technologies media financial markets and theoretical biology After God concludes with prescriptions for new ways of thinking and acting If we are to negotiate the perils of the twenty first century Taylor contends we must refigure the symbolic networks that inform our policies and guide our actions A religion without God creates the possibility of an ethics without absolutes that leads to the promotion of creativity and life in an ever more fragile world Publisher description *The Bloomsbury Encyclopedia of Philosophers in America* John R.
