Global Employment Mihály Simai,1995      Global Employment Mihály Simai,Valentine M. Moghadam,Arvo Kuddo,1995

*Labour Worldwide in the Era of Globalization* Peter Waterman,2016-07-27 This is an edited collection of items on unionism worldwide recognising the crisis that an informatised and globalised capitalism implies for work workers and the trade union movement It considers radical alternatives for labour organisation and action in the 21st century The book includes contributions by informed academics and unionists and proposes alternative union policies or models in relation to the working class es to women democracy ecology internationalism      **Crossing Over** Holger Henke,2005-01-01 Although migration by the very virtue of its transnational nature seems to invite comparisons relatively few books provide these in explicit form In this collection of essays the authors deliberately juxtapose the experience of different locations and or immigrant populations in order to systematically compare them      Argentina's Parallel Currency Georgina M

Gomez,2015-10-06 Analyzes the rise and fall of the Red de Trueque launched in 1995 by a group of environmentalists who exchanged goods and services at their own market using a system of mutual credit in Argentina This book identifies rules of governance and sustainability for institutional settings in which state regulation is minimal      **From Egypt to Europe** Leila Simona Talani,2009-11-30 How does the process of globalisation relate to the increase of migratory flows from less developed countries to western ones This book explores the impact of globalisation upon migration from an international political economy perspective paying particular attention to the dynamics of migration from the Middle East and North Africa area especially Egypt to the EU member countries The theoretical aims of the book are to understand the problem of migration both legal and illegal in the context of globalisation and to assess the relation between globalisation marginalisation and the EU response to threats of mass immigration from less developed countries      Ibss: Economics: 1995

Compiled by the British Library of Political and Economic Science at the London School of Economics,1996 The IBSS is the essential tool for librarians university departments research institutions and any public or private institutions whose work requires access to up to date and comprehensive knowledge of the social sciences      **The City in the Developing World**

Robert B. Potter,Sally Lloyd-Evans,2014-09-25 The City in the Developing World is a comprehensive and up to date introduction to urbanisation in developing countries The goal of this text is to place an understanding of the developing world city in its wider global context First this is done by developing the concept of social surplus product as a key to understanding the character of the contemporary Third World city Second throughout this text the city in developing areas is centrally placed in the context of global social economic political and cultural change Thus the important themes of globalisation modernity and postmodernity are examined both in relation to the structure of sets of towns and cities which make up the national or regional urban system and in respect of ideas and concepts dealing with the morphology structure and social patterning of individual urban areas The City in the Developing World is a core text for second and third year

undergraduates in the fields of geography development studies planning economics and the social sciences taking options which deal with development issues development theory gender and development and Third World development

**Capitalism in the Age of Globalization** Samir Amin, 1997-02-15 This is an analysis of the increasingly differentiated regions of the South the former Eastern bloc countries and Western Europe The author integrates his economic arguments about the nature of the crisis with political arguments based on his vision of human history as the product of social response to material realities The book analyzes the rise of ethnicity and fundamentalism and deconstructs the Bretton Woods institutions notably the IMF and the World Bank as managerial mechanisms protecting the profitability of capital

*Women-Headed Households* S. Chant, 1997-01-31 Households headed by women are a growing presence worldwide This is the first book to focus on their diversity and dynamics in developing countries Set within the context of global trends and debates on female household headship and using case study material based on interviews with low income women in Mexico Costa Rica and the Philippines the analysis explores the reasons for the formation and increase in women headed households in different parts of the world and their capacity for survival in societies where male headed households are both the norm and ideal

**Global Employment** Mihály Simai, Valentine M. Moghadam, Arvo Kuddo, 1995-06 This important study Volume 1 of which was published in March 1995 explores the implications of the complex changes in the global economy for the changing nature of work and rising levels of joblessness and the issues and policies precipitated by new structural trends Volume 2 comprises case studies by economists and social scientists of the rapidly changing situation in the North the new market economies of Eastern Europe and the increasingly heterogeneous economies of the South

**The Political Economy of European Employment** Henk W Overbeek, 2004-11-23 This edited collection examines unemployment in Europe in the context of globalisation the implementation of European Monetary Union and the Eastern enlargement of the EU It combines theoretical chapters with detailed case studies of Britain The Netherlands Italy Spain and Central Europe

**The Dark Side of Globalisation** Leila Simona Talani, Roberto Roccu, 2019-03-28 Firmly rooted in the International Political Economy IPE tradition this book addresses the negative consequences of globalisation what is termed here the dark side of globalisation It explores different definitions of globalisation whether the globalisation we have seen since the 1970s is substantially new and to what extent it can be governed Building on these foundations the work assesses the prospects for de globalisation By focusing on this dark side of globalisation the authors show how the global economic crisis and its various local and sectorial manifestations intensified rather than generated existing trends This scholarship provides an account of the current predicament that is both more complex and more persuasive than the opposition between globalisation and de globalisation

*The Companion to Development Studies, 2nd Edition* Vandana Desai, Robert B Potter, 2013-01-22 The Companion to Development Studies is an essential one stop reference for anyone with an interest in development studies Over 100 international experts have been brought together to present a comprehensive overview of the key theoretical and

practical issues dominating contemporary development studies Building on the success of the first edition the second edition of the Companion has been thoroughly revised and updated and includes new chapters on a range of topics including ageing culture and development corruption and development and global terrorism Each chapter summarises current debates and provides guidance for further reading and research The Companion to Development Studies is indispensable for students of development studies at all levels from undergraduate to postgraduate and beyond in departments of development studies geography politics international relations sociology social anthropology and economics The Changing Nature of Work Frank Ackerman, Neva R. Goodwin, Laurie Dougherty, Kevin Gallagher, 1998-10 Human impacts on the environment are largely driven by economic forces If a more ecologically sustainable world is to be achieved significant changes must be made to the current growth and consumption dependent economic system The Frontier Issues in Economic Thought series was designed to assist the growing number of economists and others who are responding to the need for new thinking about economics in the face of environmental and social forces that are reshaping the world The Changing Nature of Work examines the causes and effects of the rapid transformation of the world of work It provides concise summaries of the key writings on work and workplace issues extending the frontiers of labor economics to include the often overlooked social and psychological dimensions of work The book begins with a foreword by former Secretary of Labor Robert Reich that presents labor in contemporary perspective An introductory overview provides a brief history of the changing nature of work and situates current problems in the context of longer term developments Following that are eight topical sections that feature three to five page summaries for each of the ten to twelve most important articles or book chapters on a subject Sections cover new directions in labor economics social and psychological dimensions of work and unemployment globalization and labor new technologies and organizational change flexibility and internal labor markets new patterns of industrial relations family gender paid and unpaid work difference and diversity in the workplace The book provides a roadmap for scholars on the vast and diverse literature concerning labor issues and affords students a quick overview of that rapidly changing field It is an important contribution to the series and is a valuable book for anyone interested in labor as well as for students and scholars of labor economics industrial sociology industrial relations social psychology and their respective disciplines

**Globalisation and Labour** Ronaldo Munck, 2002-07 Intellectual fashion likes to see us as consumers but the world of production and services still needs workers Globalization has been driven by the transnational corporations search for cheap labour but little attention has been paid to the consequent changes in the world of work Ronaldo Munck argues that the national period in labour history is decisively over Globalizing Women Valentine M. Moghadam, 2005-02-16 Globalization may offer modern feminism its greatest opportunity and greatest challenge Allowing communication and information exchange while also exacerbating economic and social inequalities globalization has fostered the growth of transnational feminist networks TFNs These groups have used the Internet to build coalitions lobby governments and advance the goals of

feminism Globalizing Women explains how the negative and positive aspects of globalization have helped to create transnational networks of activists and organizations with common agendas Sociologist Valentine M Moghadam discusses six such feminist networks to analyze the organization objectives programs and outcomes of these groups in their effort to improve conditions for women throughout the world Moghadam also examines how globalizing women are responding to and resisting growing inequalities the exploitation of female labor and patriarchal fundamentalisms **The Future of Identity**

Kenneth Hoover,2004-06-15 As the world bears witness to the terror and warfare provoked by people s sense of who they are how they are regarded and what they deserve we have entered into the age of identity Erik Erikson 1902 1994 was the prophet of this new age His lifetime of clinical and interdisciplinary work on human development focused on the formation and maintenance of identity among people of diverse backgrounds black white and Native American rich middle class and poor male and female In this volume scholars from various disciplines some who knew worked with and became good friends of Erikson discuss and assess his legacy and investigate the challenges that identity brings to the contemporary world Contributions to this volume frame the challenge identity poses to contemporary scholarship through Erikson s own work research in empirical and clinical psychology individual and rational choice theories Marxism democratic theories of political participation fundamentalism and globalization Through the book s truly trans disciplinary scope Erikson and his scholarship beg to be revisited by psychologists sociologists anthropologists and students of interdisciplinary social sciences and humanities **Yearbook of the United Nations, Volume 49 (1995)**
