International Financial Reporting Standards Implementation Mohammad Nurunnabi, 2021-08-23

Contributions to International Accounting aims to address a vital gap in research by focusing on providing relevant and timely studies on International Financial Reporting Standards implementation for local and international policymakers

International Financial Reporting Standards - English Navneet Singh, International Financial Reporting Standards IFRS are a set of accounting standards developed and maintained by the International Accounting Standards Board IASB They are designed to provide a common global language for financial reporting ensuring that financial statements are comparable transparent and reliable across different jurisdictions and industries Here s an overview of IFRS Objective The primary objective of IFRS is to provide a framework for the preparation and presentation of financial statements that provide useful information to users for making economic decisions IFRS aims to enhance transparency comparability and reliability in financial reporting Applicability IFRS is used by many countries around the world as the basis for preparing financial statements of public companies While some countries have adopted IFRS as their national accounting standards others have converged their local standards with IFRS or permit the use of IFRS for listed companies Additionally multinational companies often use IFRS for their consolidated financial statements to ensure consistency across different jurisdictions Principles based Approach IFRS adopts a principles based approach to accounting standards focusing on principles rather than detailed rules This allows for flexibility in application and enables entities to provide relevant and reliable information that reflects the economic substance of transactions Standard setting Process The IASB an independent standard setting

body is responsible for developing and issuing IFRS The standard setting process involves extensive consultation with stakeholders including preparers auditors investors regulators and standard setting bodies from different countries The IASB also works closely with national standard setters and accounting bodies to promote global convergence in financial reporting Structure of IFRS IFRS consists of a series of individual standards and interpretations each addressing specific aspects of financial reporting The main standards cover topics such as presentation of financial statements IAS 1 revenue recognition IFRS 15 leasing IFRS 16 financial instruments IFRS 9 and consolidation IFRS 10 Additionally there are interpretations IFRIC and framework documents that provide guidance on complex accounting issues Continuous Development IFRS is subject to continuous review and improvement to ensure its relevance and effectiveness in addressing emerging issues in financial reporting The IASB regularly updates and issues new standards or amendments to existing standards in response to changes in business practices economic environments and regulatory requirements Benefits of IFRS The adoption of IFRS brings several benefits including improved comparability of financial statements across jurisdictions enhanced transparency and disclosure increased investor confidence and reduced costs for multinational companies operating in multiple jurisdictions Overall IFRS plays a crucial role in promoting high quality financial reporting facilitating global capital flows and fostering economic growth and development by providing a common set of accounting standards that are recognized and accepted worldwide

International Financial Reporting Standards Greg F. Burton, Eva K. Jermakowicz, 2015-02-20 International Financial Reporting Standards A Framework based Perspective links broad concepts and general accounting principles to the specific requirements of IFRS to help students develop and understand the judgments required in using a principle based standard Although it is still unclear whether the US will adopt IFRS the global business environment makes it necessary for accounting students and professionals to be bilingual in both US GAAP and IFRS This comprehensive textbook offers A clear presentation of the concepts underlying IFRS A conceptual framework to guide students in interpreting and applying IFRS rules A comparison between IFRS and US GAAP to develop students understanding of the requirements of each standard Real world examples and case studies to link accounting theory to practice while also exposing students to different interpretations and applications of IFRS End of chapter material covering other aspects of financial reporting including international auditing standards international ethics standards and corporate governance and enforcement as well as emerging topics such as integrated accounting sustainability and social responsibility accounting and new forms of financial reporting Burton Jermakowicz have crafted a thorough and extensive tool to give students a competitive edge in understanding and applying IFRS A companion website provides additional support for both students and instructors
