Global Problems, Global Solutions JoAnn Chirico, 2018-10-11 Global Problems

Global Solutions Prospects for a Better World by JoAnn Chirico approaches social problems from a global perspective with an emphasis on using one's sociological imagination. Perfect for instructors who involve students in research, this text connects problems borne by individuals to regional, global, and historical forces and stresses the importance of evidence in forming opinions and policies addressing social issues. The book introduces readers to the complexities of the major problems that confront us today, such as violent conflict, poverty, climate change, human trafficking, and other issues that we encounter in our lives. It concludes with a chapter on politics and government underscoring the need for good governance at all levels and cooperation among many layers of government to build a better world.

PHILOSOPHY AND WORLD PROBLEMS - Volume II John McMurtry, 2011-12-11. Philosophy and World Problems theme is a component of Encyclopedia of Social Sciences and Humanities in the global Encyclopedia of Life Support Systems (EOLSS), which is an integrated compendium of twenty-one Encyclopedias. The Theme on Philosophy and World Problems deals in three volumes and covers several topics with a myriad of issues of great relevance to our world. On Philosophy and World Problems, Philosophy resists conclusions because its method across disagreements like modern science to which it gives rise always leaves issues open to counter argument and furtherance of understanding. This is how philosophy differs from religious, sectarian, and other dogmas and closed systems of thinking. Yet agreement across the research contributing to this work is implicit or explicit on one meta principle: whatever is incoherent with organic social and ecological life requirements through time is false and evil to the extent of its reduction and destruction of life fields and support systems. These three volumes are aimed at a wide spectrum of audiences: University and College Students, Researchers, and Educators.
