Just Capitalism Brent Waters,2016-10-01 Just Capitalism is a Christian moral defense of economic globalization as a system that is well suited to provide the necessary material needs that are prerequisite for human community and flourishing Global based market exchange offers the development and distribution of the goods of creation for humans to enjoy and share Globalization also offers the most realistic and promising way of exercising a preferential option for the poor Waters argues that economic globalization and thus capitalism is a necessary condition for sustaining human life but not a sufficient condition for enabling human flourishing Even though globalization is generally compatible with Christian theological and moral claims and can realistically facilitate the well being of the human family it must be reoriented toward koinonia human community communication fellowship as the global economy s primary goal in order to help

actualize human flourishing Readers will gain insight about how economic globalization and thus capitalism is good for the human family and can be made better by certain reorientations that are compatible with Christian moral values Waters provides a mature and civil counterargument against knee jerk condemnations of economic globalization and capitalism

Non-Governmental Organisations in International Law Anna-Karin Lindblom,2005 Even when governments have no democratic basis they are regarded as the sole representatives of their populations on the international plane and take important decisions on their behalf It is therefore important that other voices can be heard in international fora alongside governments NGOs have an increasingly important legal and political role and use several different avenues for their work such as lodging cases before international courts and other bodies and participating in international meetings and conferences This book explores these possibilities for the participation of NGOs in international law **Victims, Atrocity**

and International Criminal Justice Rachel Killean,2018-07-03 While international criminal courts have often been declared as bringing justice to victims their procedures and outcomes historically showed little reflection of the needs and interests of victims themselves This situation has changed significantly over the last sixty years victims are increasingly acknowledged as having various rights while their need for justice has been deployed as a means of justifying the establishment of international criminal courts However it is arguable that the goals of political and legal elites continue to be given precedence and the ability of courts to deliver justice to victims remains contested This book contributes to this important debate through an examination of the role of victims as civil parties within the Extraordinary Chambers in the Courts of Cambodia Drawing on a series of interviews with civil parties court practitioners and civil society actors the book explores the way in which both the ECCC and the role of victims within it are shaped by specific political economic and legal contexts examining the gap between the legitimising value of the imagined victim and the extent to which victims are able to further their interests within the courtroom **Democracy's Deep Roots** S. Schneider,A. Hurrelmann,Zuzana
